Notice of proposed tree removal and replacement

Site name: Gore Road

Number of trees: 1

Type of tree: Cherry

Date of notice: 19/11/2026

Consultation period: 19/11/2026 – 17/12/2026

Reason for removal

Bristol City Council is proposing to remove one cherry tree due to the tree causing damage to an adjacent private wall and garden. It is also causing severe disruption to the pavement. Evidence has been collected which shows the tree is the sole cause of this damage.

Alternative solutions have been considered. However, given the extent of the damage and the size of the roots that are evident on the surface, engineering solutions would be impractical and unlikely to prevent further damage as the tree will continue to grow.

Root pruning has also been considered however due to the size of the roots that would need pruning, it would likely de-stabilise the tree and risk killing it.

Further detail on the engineering solutions considered are set out on the consultation page: www.bristol.gov.uk/tree-management-hub

Replacement of the tree

This location is suitable for a replacement tree of smaller species to be planted if funding is obtained

If you would like this tree replaced, visit www.bristol.gov.uk/treebristol to find out about tree sponsorship.

Or you can contact your local Councillor (find your Councillor at www.bristol.gov.uk/councillor)
