Introduction

A ward profile has been created for each of the 35 wards in the City of Bristol. These profiles are a collection of the most up to date data from a variety of sources available at a ward level geography. They provide information on key aspects about the ward and how they compare with the rest of the city. This year sees the development of Neighbourhood Partnership areas which are geographically an amalgamation of two or three wards.

Clifton ward is part of the new Neighbourhood partnership NP07 , which consists of Cabot, Clifton and Clifton East

Many of the statistics in this profile come from the annual Quality of Life in your Neighbourhood (QOL) survey. Further information about this survey can be found at www.bristol.gov.uk/qualityoflife.

Citywide there were 8155 respondents in the 2007 survey, 97 in Clifton.

Because of the relatively small numbers of respondents, care should be taken when looking at the apparent differences between wards.

The following figures for Clifton compare the QOL respondents' age and gender with that of the revised census mid year estimate for 2006.

QOL respondents 2007		Office of National Statistics 2006 mid year estimates	
% male	50	% male	53
% female	50	% female	47
% Adults under 50	44.2	% Adults under 45	72
% Adults 50 and over	55.8	% Adults 45 and over	28

NOMIS	Official labour market statistics from the ONS
SOA	Super Output Area
DCLG	Department of Communities and Local Government
QOL	Quality of Life

1. Demographics in Clifton

The 2001 Census undercounted the population of Bristol particularly in the inner city wards of Lawrence Hill, Ashley and Easton. While the overall population counts have been revised and updated, all other 2001 Census data for Lawrence Hill, Ashley and Easton remain undercounts.

For further information contact Strategic & Citywide Policy, Bristol City Council (0117 9036873)

While the majority of people in Bristol state their religion as Christian, one quarter state that they have no religion and most wards have some representation from the major world religions.

INDICATOR	NUMBER OR %	SOURCE	YEAR	COMPARED TO OTHER WARDS

2. Ethnicity in Clifton

The 2001 Census undercounted the population of Bristol particularly in the inner city wards of Lawrence Hill, Ashley and Easton. While the overall population counts have been revised and updated, all other 2001 Census data for Lawrence Hill, Ashley and Easton (including ethnic group statistics below) remain undercounts.

For further information contact Strategic & Citywide Policy, Bristol City Council (0117 9036873)

INDICATOR	Number or %	SOURCE	YEAR	COMPARED TO OTHER WARDS

3. Employment and jobs in Clifton

Strategic & Citywide Policy, Bristol City Council provide these data from the Census Special Workplace Statistics and from the Office of National Statistics (NOMIS). © Crown Copyright

While the ward average number of jobs is presented here the majority of wards have around 3,000 jobs. This is demonstrated more clearly in the ranking system where a ward with a below average number of jobs may be highly ranked. This is due to the massive amount of employment concentrated in a few city centre wards e.g. Cabot.

Economically inactive includes students, retired people, permanently sick or disabled etc.

INDICATOR	NUMBER OR %	INDICATOR TREND	DATA SOURCE	COMPARED TO OTHER WARDS
NUMBER OF LOCAL JOBS				
Total number of jobs	5100	☹️	ONS (NOMIS) 2006	Average = 6560
Rank of number of jobs (1 = ward with lowest number and 35 = highest)	24	☹️	ONS (NOMIS) 2006

4. Poverty and Deprivation Profile for Clifton

Wards in Bristol are relatively large in terms of population and many contain a wide variety of neighbourhoods. This local variation is often lost when information is collated into ward averages. An alternative geography based on smaller areas - Super Output Areas (SOAs) - seeks to address this (see map opposite). Bristol has been divided into 252 SOAs, each with an average of 1,500 people. The most recent data available by this geography are the Department of Communities and Local Government (DCLG) Indices of Deprivation 2007, illustrated here.

The Indices of Deprivation 2007 consist of 7 aspects or 'domains' of deprivation: Income deprivation (I); Employment deprivation (E); Health deprivation and disability (H); Education, skills and training deprivation (S); Barriers to housing and services (B); Living environment deprivation (L); and Crime (C).

There are two supplementary Indices - the Income Deprivation Affecting Children Index (K) and the Income Deprivation Affecting Older People Index (O)

These domains are combined to give an overall measure of Multiple Deprivation which is then ranked in order to make comparisons with other areas.

Super Output Area	Index of Multiple Deprivation Bristol rank out of 252 (1=most deprived)	Index of Multiple Deprivation English rank out of 32,482 (1=most deprived)	Domains where area is in most deprived 10% of areas in England
Clifton Down	243	27365	
Clifton College	220	21976	
Clifton Central	231	24677	
Clifton Village	230	24663	
Hotwells	154	13949	B
Cliftonwood	138	12608	
Hotwells East	227	24345	

 = in most deprived 10% of areas in England

Clifton, alongside Bishopston, Henleaze, St George East and Westbury on Trym has no SOA that ranks within the most deprived 10% nationally, overall or in any individual domain

The full results for Bristol can be found in 'Deprivation in Bristol 2007' www.bristol.gov.uk/statistics
 Maps of the Super Output Area boundaries can be found on ward finder www.bristol.gov.uk/wardfinder

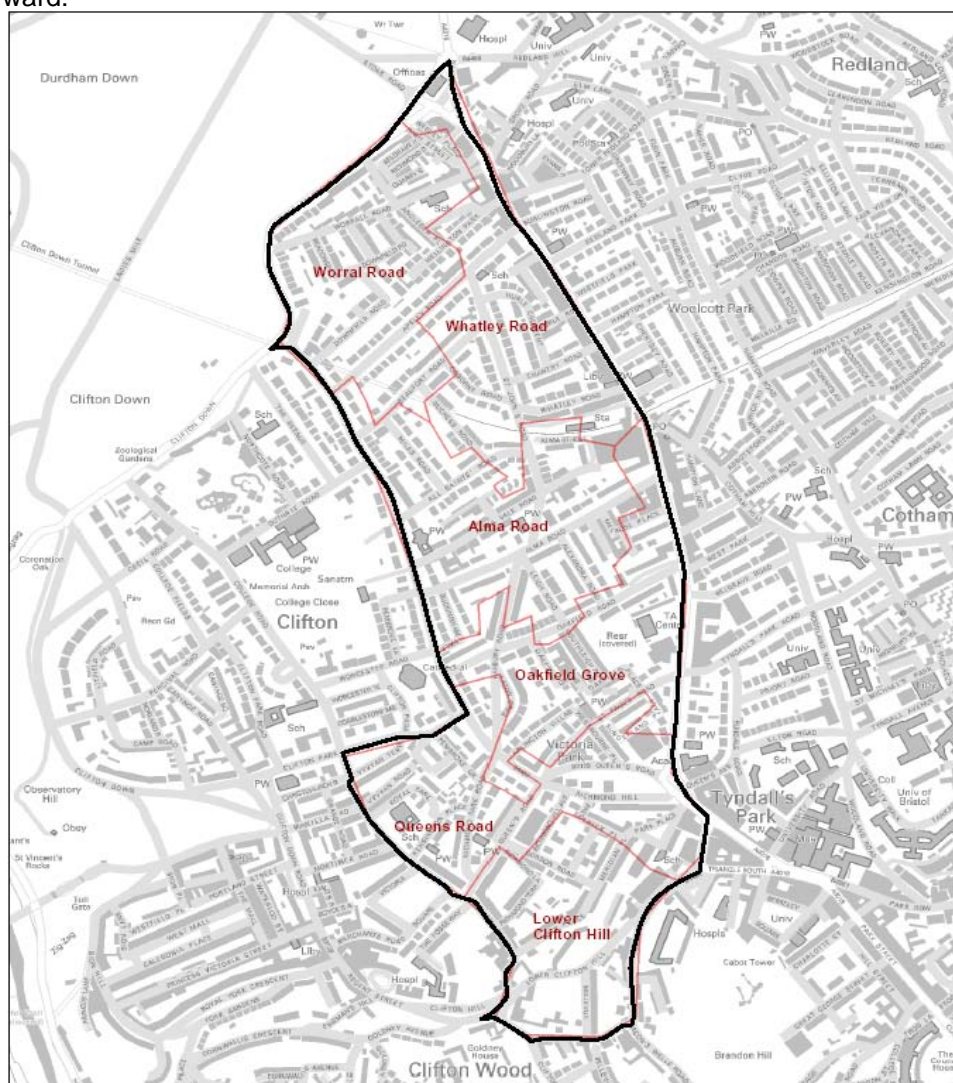

5. Local democracy and Super Output Areas in Clifton

INDICATOR	NUMBER OR %	YEAR	DATA SOURCE	COMPARED TO OTHER WARDS
ELECTORATE				
Number on the electoral roll	8167	2007	www.bristol.gov.uk/	Average = 8587
Turnout at local elections	34%	2007	www.bristol.gov.uk/	Average = 34
Turnout at local elections	68%	2005	www.bristol.gov.uk/	Average = 64

SUPER OUTPUT AREAS

Wards in Bristol are relatively large in terms of population and many contain a wide variety of neighbourhoods. This local variation is often lost when information is collated into ward averages. A new geography based on smaller areas - Lower Layer Super Output Areas (LSOA's) - seeks to address this.

Bristol has been divided into 252 LSOA's, with an average of 1,500 people. The map below shows the LSOAs in this ward:

6. Local Environmental Quality in Clifton

The nitrogen dioxide figure is taken from a single site with a passive NO₂ diffusion tube located in a background location in each ward. Although the single site cannot represent the whole of the ward this survey has been continuing for many years so good trend information can be obtained. Most sites are below the national objective of 40 µg/m³ as an annual average.

A liveability indicator has been developed to monitor progress of a range of initiatives in Bristol including Neighbourhood Renewal. The indicator takes into account the cleanliness and attractiveness of the local environment as reported by residents in the annual **Quality of Life in your Neighbourhood** survey. A higher figure indicates better liveability.

INDICATOR	NUMBER OR %	INDICATOR TREND	DATA SOURCE	COMPARED TO OTHER WARDS
WILDLIFE TREES AND OPEN SPACE				
Natural Green Space	11.4 hectares		Bristol Parks 2008	Average = 21
Formal / Ornamental Green Space	2.5 hectares		Bristol Parks 2008	Average = 3

7. Housing profile for Clifton

By affordable dwellings we refer to dwellings owned by registered social landlords and local authorities, either for rent or for shared ownership. Private dwellings are not included as 'affordability' has yet to be adequately defined for this sector. Please note that the 'affordable dwelling' numbers are decreasing in some wards through losses in local authority stocks. Average house prices, (courtesy of the Land Registry and Bristol City Council's Strategic & Citywide and Regeneration, Research & Evaluation Teams), are a rough guide only as both the number of sales and the housing profile (see Tenure below) vary throughout the city.

INDICATOR	NUMBER OR %	INDICATOR TREND	DATA SOURCE	COMPARED TO OTHER WARDS
HOUSING STOCK				
Average house price.	£ 356,700		Neighbourhood & Housing Services 2007	Average = 212340
Empty homes brought back to use	0		Neighbourhood & Housing Services 2007	Average = 7
% households under-occupied	34 %		Census 2001	Average = 48
New affordable dwellings 2001-2007	21		Strategic & Citywide Policy 2007	Average = 33
Dwellings with planning permission 1st April	117		Strategic & Citywide Policy 2008	Average = 365
Change in dwelling stock 2001 - 2008	541		Strategic & Citywide Policy 2008	Average = 369
% respondents satisfied with cost and availability of housing	33 %	😊	QOL questionnaire 2007	Average = 32
HOUSEHOLD SPACES				
Total number of household spaces	5007		Census 2001	Average = 4775
% vacant household spaces	5 %		Census 2001	Average = 3
% households as second residence	1.3 %		Census 2001	Average = 0.2
% households accommodated in houses	29 %		Census 2001	Average = 72
% households accommodated in flat, maisonette or apartment	71 %		Census 2001	Average = 28
% households accommodated in caravan, other mobile or temporary structure	0 %		Census 2001	Average = 0.1
TENURE				
Tenure: % households owner occupied	47 %		census 2001	Average = 61
Tenure: % households rented from city council	5 %		census 2001	Average = 18
Tenure: % households rented from private landlord/other	36 %		census 2001	Average = 14
Tenure: % households rented from Housing Association/Social Landlord	5 %		census 2001	Average = 4

8. Health profile for Clifton

Some of the indicators from the Primary Care Trusts are shown as standard mortality ratios (SMR). This measure provides a way of comparing death rates across different areas with the old Avon area (Bristol, South Gloucestershire, North Somerset and Bath and North East Somerset) standard set at 100. SMRs higher than 100 are of concern.

INDICATOR	NUMBER OR %	INDICATOR TREND	DATA SOURCE	COMPARED TO OTHER WARDS
BIRTHS				
% low birth weight (under 2500 grams)	8		Bristol Primary Care Trust 2002-2006	Average = 8
