

Features on the new webcast player

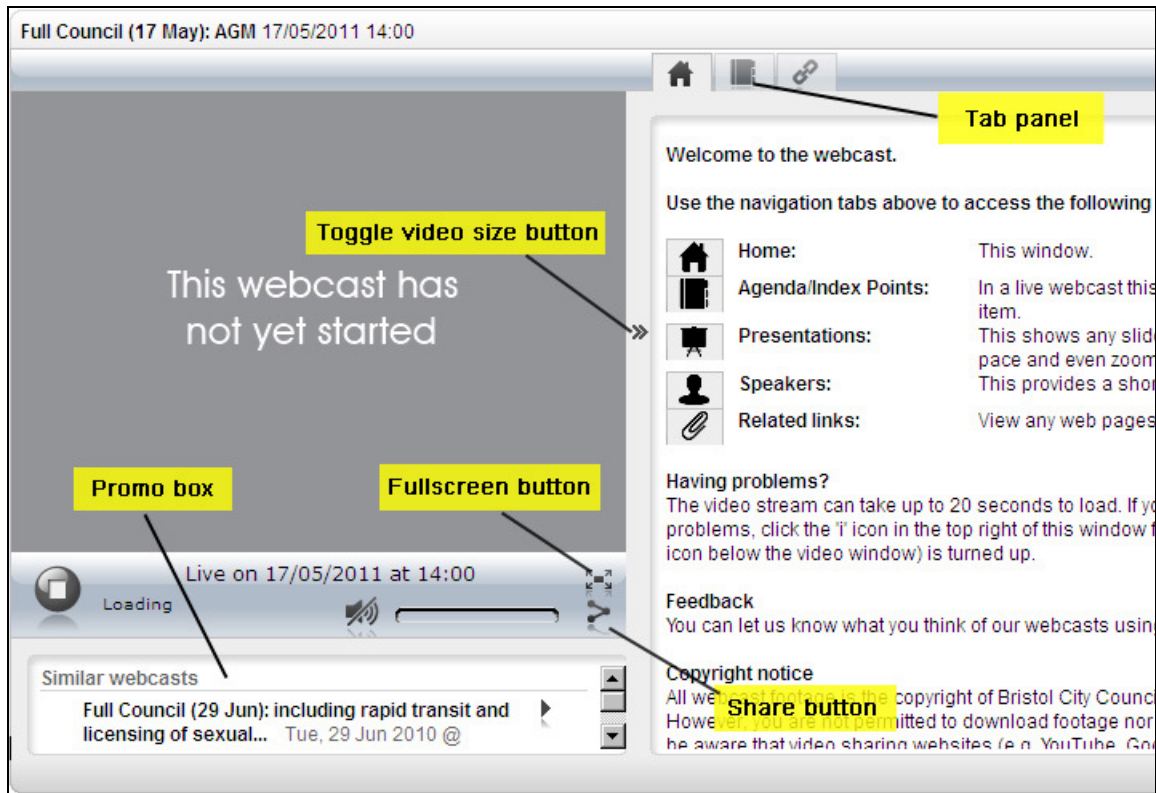

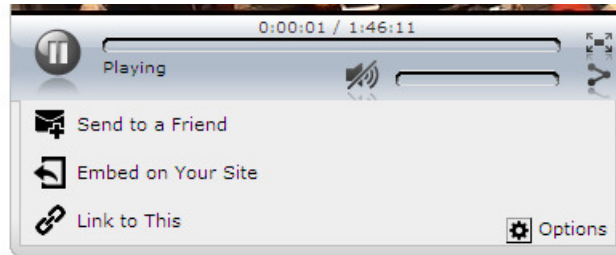

Figure. New 'v7 rich content' webcast player

| | |
|---------------------------------|---|
| <p>Tab panel</p> | <p>The icons access the same features as before, including:</p> <ul style="list-style-type: none"> • Agenda/Index Points, • Presentations, • Speaker profiles, and • Related links to websites or documents. <p>Changes to these features include:</p> <ul style="list-style-type: none"> • It is now possible to zoom in on presentation slides. • If the viewer is on another tab when a current slide changes, the presentation tab flashes to alert the viewer. |
| <p>Fullscreen</p> | <p>As before, this launches the video player in full screen mode.</p> |
| <p>Toggle video size</p> | <p>This increases the size of the video window whilst keeping access to the agenda, slides and other features.</p> |
| <p>Promo box</p> | <p>This can display either customisable text, similar webcasts (by tags), recent webcasts, or polled questions or surveys.</p> |

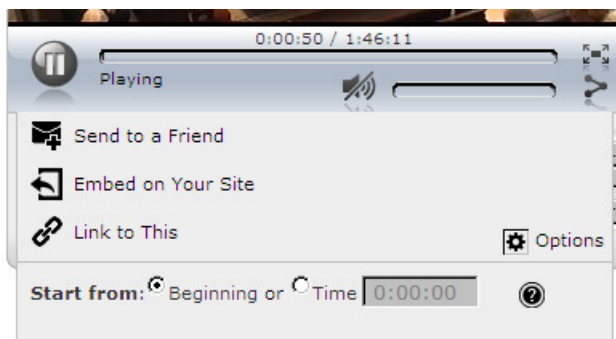

Share

Clicking the Share button opens the share menu shown below. You will also see the share button next to every agenda item in an archived webcast.

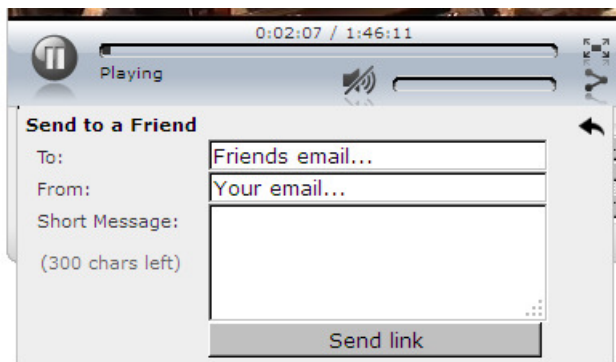

'Start from' (click 'Options' to access)

The user can specify a start point in the webcast when using any of the sharing methods to direct others the point of interest. The webcast can be scrolled before and after the start time so clips can never be viewed out of context.

'Send to a friend'

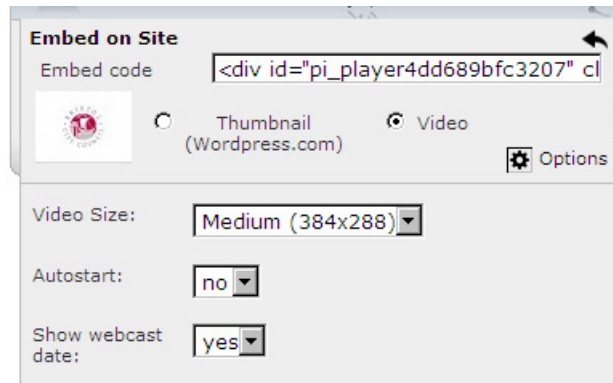

The webcast link (with a specified start point if selected) can be emailed to any address along with a custom message. The reply-to address in the sent email will be your email address.

Share (continued)

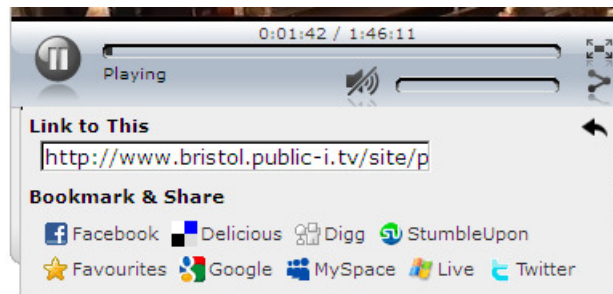

'Embed on your site'

This provides the html code to embed the webcast video player on any site (when the 'Video' option is selected). There are a number of options, including a choice of three video sizes. For sites that do not allow direct video embedding (i.e. Wordpress.com) it is possible to embed a default thumbnail image linking to the webcast player page.

'Link to this'

Provides a link to the webcast and the option to share directly to numerous social network sites (such as Facebook, Twitter and Digg), or bookmark the link into your browser favourites.

Other features

Send us **Feedback** on what you think of our webcasts.
Find **Help** and further information on using the player.
Use **Settings** to save preferences for the player.
