

CENTRAL LIBRARY SERIALS LIST: A - Z

(last updated 24/05/2011)

Introduction

What you can find in this serials list

- This document lists in alphabetical order our entire holdings of journals/magazines.
- It also includes other regularly published titles such as The Army List, Guinness Book of Records and Whitaker's Almanack.
- It includes those titles that we no longer take, as well as the ones we still do.

About each entry in this list

- Where the name of a title has changed over time the alternative title/s are given, with the related dates.
- These titles are also cross-referenced. If a title has changed its name over time, you should find an entry under each name.
- Below each title are the beginning and end dates of the run, including any gaps. Occasionally, individual issues may be missing from a bound volume. No final date is given if the title is still current.
- The information listed after the dates are locations within the library.

Searching the list

- Use the A to Z bookmarks on the left to jump to that part of the alphabet.
- In Internet Explorer or PDF reader, use the find feature by holding down the Ctrl button and pressing the letter 'F'.
- Use the PDF search function by clicking on the binoculars icon.

If you want to see any title in this list

- You can see any title from this list by visiting the Reference Library, or the Music Desk in the Lending Library in the case of Music titles. We don't loan serials.
- You will be asked to complete a request slip in order for the staff to fetch what you need.
- On the request slip it will save you time if you give us the location details. Eg Quarto or RR Official Series 314.2 or B31293: RL2*

Can I see a title straight away?

- Almost everything can be seen following a short wait whilst we fetch them for you.
- Some archive newspaper titles require a 2 day retrieval notice. Phone the Reference Library on 0117 903 7202 to check.
- If an item has the location SR it is subject to a controlled access policy which involves several days wait. Please ask the staff if this is the case.
