

Summary of public comments on draft tree planting plan for Plummers Hill 2016

A draft tree planting plan was circulated to immediate neighbours, the Neighbourhood Partnerships and posted in numerous locations around the open space. Thank you to everyone for taking the time to comment. Consequently, below is a collation of the comments and enquiries received, along with Bristol city council's response to them and any minor revisions to the plan, as appropriate.

1) Areas of concern raised:

We have given these concerns consideration and provide our responses with any action below.

Issue:	Bristol city council response:	Tree plan revisions:

1) Other comments and enquiries:

In addition to the main concern above, we received one additional comment. This does not affect the final tree plan, see below:

Comment :	Bristol city council response:
<p>I am pleased to see the proposals to expand the copse with additional tree planting. Can I ask, what species has been chosen. It would be a shame if the height of copse was increased much, as currently it doesn't impede the view much.</p>	<p>Thanks you for your comment</p>
<p>What species has been chosen?</p>	<p>The woodland species will be made up from a native tree mix of English Oak, Small leaved Lime, Hazel and Wild Cherry</p>

It would be a shame if the height of copse was increased much, as currently it doesn't impede the view much	

2) What happens next?

We will be planting a new woodland in Plummers Hill in the 2017 winter period.
