Subject: Hengrove and Whitchurch Park Neighbourhood Development Plan
Consultation on submitted plan

We have followed this process from the beginning and fully support the plan.

The last public presentation which showed the proposed layout of Hengrove Park, showed that a lot of thought together with residents views have been incorporated in the plan.

It achieves a good balance of variable types of housing together with a central area of park space.

It is a more aspirational and environmental plan and far superior to any of the four options put forward by the Council.

John Button and Christine Button
