1. Trees planted in 2013/2014

Trees planted	552
---------------	-----

Highlights include:

The tree planting team engaged with Neighbourhood Partnerships to suggest where to plant and sponsor trees in their area. The result leads to 188 street trees, replacement and new planting location, to enhance residents and visitors well-being through the city.

Parks also benefited from the plantation of 141 new trees, with 28 of these as sponsored trees, by community groups, business or private donors.

2013/2014 is also the year of launching the Bristol TreePips program, this involves every Primary School aged child in planting a tree. For that first year, we achieved educational engagement with 482 children (from 9 schools) and planted 273 trees.

2. Fundraising 2013/2014
