## Contents

1. Summary of trees planted
2. Fundraising
3. One Tree per Child project
4. Community tree planting events
5. List of trees planted

## 1. Summary of trees planted 2014/2015

Trees in parks	8,666
Trees in streets	57
Trees in school grounds	596
Free fruit trees for gardens	620
<b>Total trees planted winter 14/15</b>	<b>9,939</b>

We are well on the way to reaching our three year One Tree Per Child (formerly TreePips) project target of 36,000 trees planted by the end of winter 2015/2016.

## Highlights of this planting season include:

- Restoration of a historic lime tree avenue in Kingweston Estate in partnership with Kingsweston Action Group and One Tree Per Child.
- A successful collaboration between TreeBristol, One Tree Per Child and Friends of Horfield Common. FOHC produced a draft tree planting plan, supported by the tree planting team. FOHC conducted the local consultation of the proposals. In a matter of weeks, FOHC secured funding to plant 57 large sized "standard" trees from the combination of three NP areas, local businesses and private sponsors.
- One Tree Per Child hosted the celebration of the planting of DEFRA's millionth "Big Tree Plant" tree by planting an English oak in Eastville Park. We were joined by DEFRA, the Environment Secretary Elizabeth Truss, Forestry Commission, Tree Council, The Mayor and Friends of Eastville Park to plant an English oak as campaign's millionth tree.
- RCAS successfully negotiated a match funding street tree replacement scheme between local residents and their Neighbourhood Partnership.
- For the first time this year we have supported parks groups to design their own tree planting schemes and also purchase, plant and water their own trees. This has taken place in Cotham Gardens and Redland Green.
- 16 trees have been planted in newly constructed pits in pavements in 4 street sites. This includes the coming to fruition of the long awaited aspirations of the Church Road Town Team. A Local Sustainable Transport Fund grant funded the installation of 10 new tree pits built along Church Road St George. A great example of green retrofitting in our city!

## 2. Fundraising 2014/2015

Total funds secured = £67,362

Sponsor type	Sponsor name	Amount received
Private residents	Private residents	£2,693
Community groups	Kingweston Action Group; Lockleaze Orchard Group; Clifton and Hotwells Improvement Society	£3,844
Neighbourhood Partnership funding (including S106 development money, NP grant money and match funding of residents' donations)	NP03: Henleaze, Stoke Bishop and Westbury on Trym; NP06: Bishopston, Cotham and Redland; NP11: Knowle and Filwood, Knowle and Windmill Hill	£18,493
Schools		£689
Corporate sponsorship	Tesco (secured by Way Out West community group)	£1,035
Other grants	Local Sustainable Transport Fund	£40,608
<b>Total raised</b>		<b>£67,362</b>

## 3. One Tree Per Child tree planting

As well as successfully engaging with primary school children to deliver school assemblies on the benefits of trees we ran a winter programme of tree planting events in school grounds and parks and green spaces.

The One Tree Per Child team worked closely with local communities and the Neighbourhood Partnerships on designing the tree plans, delivering the planting. Where required the One Tree Per Child saplings were upgraded from sapling trees to large standard sized trees through the TreeBristol sponsorship scheme.

## 4. One Tree Per Child community tree planting events

The One Tree Per Child team ran 7 events exclusively in primary schools and 27 parks events with the whole community, primary school children and corporate volunteer groups (including HSBC, Soil Association and Skanska). Each school group received a tree planting workshop as well as the experience of planting a tree.

We ran 7 events in primary school grounds and 27 community events in parks and green spaces, all of which were attended by primary school children. Every school group received a tree planting workshop as well as planting a tree. The children named each tree, this encourages a strong sense of ownership. All were welcome to our parks planting events and we were supported by individuals, community and corporate groups including HSBC, the Soil Association and Skanska.

Ward	Location	No. trees planted at events	No. primary schools	No. kids	No. Community & Corporate Volunteers
