Gypsy, Roma, Traveller Inter-agency Team

What is the Gypsy, Roma, Traveller Inter-agency Support?

The Gypsy, Roma, Traveller (GRT) Inter-agency Team includes partners from Bristol City Council’s Housing Solutions, Additional Learning Needs Team, key local Children’s Centres, NHS’s NBT as well as other relevant agencies. This inter-agency Team has a statutory duty to improve GRT outcomes. This is achieved by adopting city-wide objectives in addressing the needs and priorities of the different GRT communities. This better coordinated approach means that significantly more GRT children and families will receive the right help, in the right place, at the right time.

What support do we offer?

Bristol is a multicultural and diverse city with a long and rich history of Gypsy and Traveller people. The Gypsy, Roma, Traveller (GRT) Team acknowledges the important role it has in celebrating GRT history and culture but also in challenging prejudice and discrimination in order to improve opportunities and achievement of GRT communities.

However, there are several barriers schools and other professionals must first consider when it comes to GRT educational outcomes.

One of the primary responsibilities of the GRT Education Liaison Officer is to work between families, communities and schools in helping them identify and navigate these barriers by ensuring:

- Schools are culturally equipped to understand GRT needs, concerns and priorities;
- Multi-agency partnership work in developing targeted GRT support and providing free training;
- Families with school registration;
- Promotion of GRT identity and ascription in schools;
- Use of distance learning / learning agreements as an educational continuity strategy;
- Promote and improve parental engagement;
- Prevent barriers to education (i.e. bullying, discrimination, literacy issues, cultural issues, etc.)

Education: Gypsy, Roma, Traveller children, as with all other children, are legally entitled to have unhindered and full access to education and should be afforded opportunities that will enable them to thrive and live happy and healthy lives. For nomadic Traveller families the Education Act of 1981 states that:

“It is the duty of the local authority to provide full-time education for pupils who [...] are temporarily living in the area for long enough to be practical to attend school (e.g. the child of a Traveller)”.

Health: The Inter-agency GRT Team also includes a Specialist Health Visitor for GRTs. This role aims to address the specific health needs identified by the nomadic GRT communities, particularly parents, parents-to-be, carers of under-fives and under-fives.

This post promotes and improves the health and wellbeing of GRT by:

- Working with nomadic families;
- Visiting families wherever they are in Bristol;
- Supporting mainstream health visiting team in visiting settled families;
- Raising awareness of GRT culture and delivering training;
- Raising GRT health issues on both strategic / local levels.

Specialist GRT Health Visitors are co-located in all of our Children’s Centres that offer the GRT Drop-in service (see back for details)

Housing: GRT Site Manager and Community Liaison Officer role involves operating and managing Bristol’s permanent and transit sites, identifying ways to improve GRT sites, as well as seeking opportunities to develop new sites in Bristol. Additionally this role provides support to local community’s members and families regarding accommodation needs.

Other responsibilities include:

- Devising interventions to control unauthorised encampments;
- Collating and disseminating information regarding encampments to ensure relevant services are aware;
- Facilitating support and encouraging initiatives of GRT participation in service delivery issues.

GRT Site Manager & Community Liaison: Steve Hearsey
