

Public Submission relating to the CATT Bus

At the December meeting of the Dundry View Neighbourhood Partnership a public forum submission was received from Carolyn Purcell HWCP concerning the local community transport scheme (CATT Bus) and the uncertainty over continued funding which would affect journeys to and from the South Bristol Hospital.

The Partnership acknowledges the essential provision the CATT Bus service provides for the community of Dundry View; particularly to the more disadvantaged, frail, older and more vulnerable sections of the community. The Partnership support HWCP in their endeavours to attract continued funding to support the hospital service.

Emily Smith

Neighbourhood Partnership Coordinator for Dundry View – Feb 2015
