

Dundry View Neighbourhood Partnership Plan

January update

Year 2 of a 3 year plan covering

Bishopsworth and Hartcliffe & Withywood Wards

2015/16 - 2017/18

Our vision is to make Dundry View Neighbourhood Partnership clean, green, safe, healthy and prosperous.

Background

Dundry View Neighbourhood Partnership is made up from the two wards Bishopsworth, Hartcliffe & Withywood and is situated in the south of the city of Bristol. In 2016 the local ward boundaries changed from a previous 3 ward partnership. The estimated new population figures for the partnership area are 29,492 spread over 12,175 households, the BME population is 4.6% the lowest across the city. Large proportions of the Neighbourhood Partnership are classed as Lower Super Output Areas which measures levels of deprivation. 8 of the Neighbourhood Partnerships Lower Super Output Areas are in the country's top 5% with 4 in the top 1% of areas with the highest levels of multiple deprivations for England.

Purpose

This plan will give a full picture of the work the Neighbourhood Partnership can deliver, influence and support between 2015-18 as well as work it aspires to deliver if resources become available. The Plan will:-

- Prioritise work and projects using resources at its disposal
- Show aspirational work and projects to be prioritised and allocated against once resources secured
- Be reviewed annually

Where possible show how local priorities and projects can help with the Mayors corporate plan for Bristol.

Neighbourhood Partnership –

The Neighbourhood Partnership has four formal board and committee meetings annually where decisions are made by the Committee of local ward Councillors on any devolved budget and the full board on wider issues not related to the spending and allocation of any devolved funds.

There are four Neighbourhood Forums in each ward annually, these are open meetings where information is given out, volunteering encouraged and updates on issues shared. Residents from the area are encouraged to attend through publicity in the local community magazine Wham, by email and through letter drops.

The Neighbourhood Partnership has theme groups these currently are Pride of Place looking at the local environment, cleansing and planning six per year. Highways and traffic six per year and Health and Wellbeing 10 per year these are open meetings and focus on this area of work; these also make recommendations for the Neighbourhood Partnership to consider.

Grants Panel, the Neighbourhood Partnership gives small grants out through a vigorous evaluation system. Neighbourhood Partnership representatives meet up to four times per year depending on funds available.

Evidence

- Use both qualitative and quantitative data and evidence to show where the need arises and why the priority is included.

Neighbourhood Partnership Resources

People

- Neighbourhood Partnership Coordinator (18.5 hours per week)
- Neighbourhood Officer (18.5 hours per week)
- Partnership Communications Officer (14 hours per week)
- Community Development (3 hours per week)
- Local ward Councillors, Neighbourhood Partnership members

Money

- Devolved budget annually allocated includes money from Highways, Wellbeing and Clean and Green budgets. The 2014/15 budget was approximately £56,500
- Section 106, this is money that developers of larger sites pay to the council to reduce the impact of the development. Developers sign a S106 agreement as part of their planning permission. This is a legal document that specifies what the money is spent on and where. For example, S106 money is used to make improvements to highways, parks, public transport and schools.
- CIL or Community Infrastructure Levy allows local planning authorities to raise funds from developers who are undertaking new building projects in their area. The funds raised will go towards infrastructure that is needed to support the growth of the city, such as schools and transport improvements.
- Other funds which are allocated to the Neighbourhood Partnership for consideration in the past we have had Bristol Green Capital, Community Sports Action Fund and Public Health funding

Help

The Neighbourhood Partnership works together with others to provide a better more rounded approach to neighbourhood working. These partners may bring in expertise, funding, staff or all three. These partners include but this list is not exclusive

- The wider Bristol City Council family such as Estate Management, Highways, Parks and Public Health
- Other Public bodies such as the Police and the Fire Service
- Voluntary and community organisations
- Registered Social landlords
- Charities
- The Business Community
- **RESIDENTS** of Dundry View

Note

In December 2016 the Mayor took the decision to apply a spending freeze to all Neighbourhood partnership spend except external grants to a partnership, s106 funds and CIL, this will have an effect on the grants that the partnership give out to groups across the area and to any work we were planning to do using the Neighbourhood partnership budget. Other work may also be affected by this budget freeze where this is the case **ON HOLD** will be written next to the item.

Completed

ON HOLD

Outside of partnership area due to boundary changes

2015/16 successes

Include

- work completed/ in progress
- number of meetings
- number of local engagements
- enforcement work
- Funded projects

2016/17 budget

Neighbourhood budget	Total	£69,094	
• Wellbeing		£30,000	
• Neighbourhood Officer work		£ 3,000
