Introduction

The following conditions are those which the Council will generally attach to the licence of the relevant type issued pursuant to the provisions of the Relevant Legislation.

Any departure from these conditions which may be agreed in an individual case will be specified in writing at the time of issue or renewal of the Licence. The council reserves the right to impose additional conditions where appropriate in a particular case. Any additional condition applying will be specified in writing at the time of issue of the licence.

Licence holders should therefore scrutinise the documentation issued on grant or subsequent renewal to ensure they are aware of their obligations under the licence and to obtain any necessary clarification in advance of undertaking any activity which depends upon the licence.

These conditions are in addition to and do not override the provisions of the legislation governing private hire and Hackney carriage vehicle and driver licensing. Licensees should therefore familiarise themselves with the requirements of the legislation governing such vehicles. Licensees should also be aware of the need to comply at all times with the relevant road traffic legislation applicable to the licensed vehicle.

IMPORTANT NOTE

Applicants and licensees should scrutinise the conditions applying to the particular licence(s) they hold or are applying for. Applicants should also be aware of the law which governs and the general licence conditions which attach to other activities within their field of operation. For example, individuals who hold a Private Hire Drivers Licence should be aware of the law and rules which relate to private hire vehicles and operators as well as that relating to hackney carriages and in particular the criminal offence relating to plying for hire, which is often referred to as ‘flying’.

The appendices contained in this package are important documents which are intended to have legal force. As such, they are, of necessity, fairly technical, although the Council has tried as far as possible to set down the conditions in a style which can be understood by licensees. From time to time, where it is considered it will aid their understanding, some guidance notes have been included. All guidance notes (such as those contained here) are printed in italics. Guidance notes DO NOT form part of the conditions and nor should they be relied upon as being an interpretation of the law or of the conditions. They are simply included in a spirit of helpfulness. Licensing officers will generally assist where they can but they are not authorised to provide formal advice. Any Licensee who is unsure of the effect of the law or the conditions upon their licensed activity is strongly advised to obtain independent advice from a solicitor or other advisor of their choice.

Reading the conditions

*Throughout the conditions there are phrases which are used on a number of occasions. If the full meaning of each phrase were spelt out on every occasion then the document would be cumbersome and difficult to follow. For that reason many key phrases have been defined. The definitions section sets out all of the phrases which have been defined. Wherever a phrase which has been defined is included in the document it has been written in bold type. Therefore whenever you see a phrase or word which is in bold type, you should cross reference with the definitions section of the document in order to see its full meaning. For example, where the phrase **The Council** appears in bold type, if you refer to the conditions section you will find that The Council means ‘the*

City Council of Bristol'. From time to time, extracts from or summaries of relevant Council policies are included in the guidance. Where this appears, it will be contained within quotation marks and will appear in bold to help you to refer to it. It is not possible to include all relevant Council policy within this document and of course from time to time the policy may be added to or amended so you should not rely upon this guidance as being definitive or up to date. Information about relevant Council policy can be obtained from the Licensing team and much of it can be viewed via the Council's intranet site which can be accessed through the internet and from council libraries and other council venues.

Appendix B - Conditions governing Private Hire Operators

1. The definitions and common conditions contained at General conditions section pages 5 to 7 including this appendix are incorporated into these conditions.
2. Insofar as is necessary to give effect to these conditions, the **Vehicle Specification** shall be incorporated into these conditions.
3. **The Licensee** shall be not less than 18³ years of age.
4. **The Licensee** shall provide and keep a register of bookings in such form as shall agreed by **The Council**, which register shall be retained for a period of not less than twelve months from the date of last entry and in which register shall be entered, contemporaneously and in writing before commencement of each journey the following particulars-
 - 4.1. the time of hire;
 - 4.2. name of **Passenger**;
 - 4.3. pick up point;
 - 4.4. destination;
 - 4.5. licence number of vehicle and
 - 4.6. name of driver to whom work is allocated.

It is important that Licensees note the need to record bookings contemporaneously in the register. The practice of copying up at a later stage from dockets or some other ad hoc system is contravention of this conditions. Such a contravention renders the condition of little or no effect in terms of issues of great importance to the Council such as enforcement and protection of the public – and indeed the protection of drivers from whom, for example, evidence of a proper booking can be imperative in answering an allegation of plying for hire. Contravention therefore renders the Licensee liable to enforcement action, which in appropriate circumstances could result in the suspension or revocation of the Licence.

The form of register usually agreed will either be in the form of a bound book or where satisfactory arrangements are made for inspection, etc. may take the form of a computerized booking

5. The **Licensee** shall provide and keep a register of **Vehicles** in the form of a bound book which register shall be retained for a period of not less than twelve months from the date of last entry and in which register shall be entered, in writing the following particulars of each **Vehicle** under his control –

10. The **Licensee** shall take all necessary steps to ensure that all vehicles and drivers with whom s/he works as an **Operator** within the **Controlled District** are properly licensed by **The Council** and shall not **Operate** in respect of any vehicle unless satisfied that both driver and vehicle have been and remain so licensed.
