Bristol Eating Better

Helping Bristol become
a healthier and more
sustainable food city.

Bristol Eating Better Schools Award

1. Introduction

Our award scheme supports and rewards school caterers and food businesses that take action to offer food that is healthier and more sustainable.

Guidance on Applying for the Award

The Bristol Eating Better Award is a scheme developed and operated by Bristol City Council to reward and promote food businesses that are committed to providing healthier menus and supporting the environment. This award has recently been adapted for schools and incorporates many of the School Food Standards.

We are keen that all Bristol school caterers or on site meal providers such as breakfast clubs, mid-morning break provision and after school clubs providing meals achieve the Bristol Eating Better Award for Schools (Silver or Gold) to ensure best practice and consistency across schools

-
- To apply for this award your school must be within the city Bristol. You must have a food hygiene rating score of 4 or 5. If you are a new business and haven't been rated yet, you can still apply however and must achieve a rating of 4 or 5 when inspected.
 - If you are a business registered with another Local Authority outside of Bristol, but trade in Bristol (as a mobile food trader or other) you are still eligible to apply.
 - Businesses that are owned by tobacco companies are not eligible to apply for the award
 - The award has 12 objectives that relate to the Bristol Good Food Plan (2010), the School Food Standards and the more recent Sustainable Food City programme. It's about providing food that is 'Better for People, Better for Places and Better for the Planet.
 - Within each objective are a number of practical actions that you can commit to doing. Guidance on each action is provided on our website www.bristol.gov.uk/eatingbetteraward

- The award is broken down into Bronze, Silver, Gold 'Core' actions and some additional actions. In order to get any level of the award, you must complete all the 'Core' actions relevant to that level.
- There are 21 Bronze 'Core' actions which are taken from the national School Food Standards. If you do all of these you will receive the BRONZE award and the **SUGARSMART** award.
- There are an additional 3 SILVER "Core" actions which are consistent with the Bristol Healthy Schools ESSENTIAL Award criteria. If you take on all of the Bronze and Silver Core actions you will receive the SILVER level award. This is a requirement of Healthy Schools Essential Award.
- Gold is then awarded for completing an additional 12 GOLD 'Core' actions, all of the Bronze and Silver Core actions and at least 90% of all other relevant actions.
- We understand that not all the actions will be applicable for your provision/school and you can mark these, where relevant, as not applicable (N/A). You are encouraged to use the additional information box at the end of each question to support your answers.
- The online application allows you to save as you go along. Once you save, a hyperlink of the application will be sent to the email you registered with. To continue your application, click on the link and continue.
- Schools/Businesses operating the same model across several premises within the school only need to make one application (E.g. Company x runs the breakfast, mid-morning break, lunch and dinner service). If you have more than one business with different models e.g. breakfast club 'Y' providing meals, lunchtime provider 'Z' providing mid-morning break and lunch and after school club 'O' providing tea, please submit a separate application for each.
- Awards will be dated and are valid for two calendar years, after which time you will need to reapply. Please go to the award website at www.bristol.gov.uk/eatingbetteraward to reapply
- Bristol Eating Better Schools Award (Silver and Gold) is also incorporated within the Bristol Healthy Schools Awards programme as essential criteria for the food environment in schools
- Schools who are applying for a Bristol Eating Better Schools Award (Silver or Gold) might like to apply for a [Bristol Healthy Schools Essential Award](#) as the two awards complement each other.

- We value your feedback to evaluate and develop the award. At the end of the application, you will be asked a series of evaluation questions that we'd appreciate your feedback on.
- If you need any help or have any questions please email bristoleatingbetter@bristol.gov.uk

2. Awards

Bronze Award

You will receive a Bronze award if you commit to all the 21 BRONZE CORE actions which reflect some of the National School Food Standards.

This makes up 50% of the award criteria.

Silver Award

You will receive a Silver award if you commit to all the Bronze and 3 SILVER CORE actions which reflect the Bristol Healthy Schools ESSENTIAL Award criteria for the food environment in schools, achieving at least 55% of the award.

Gold Award

You will receive a Gold award if you commit to all the Bronze, Silver and 12 GOLD CORE actions and some additional actions, achieving over at least 90% of the award

Not all the actions will be applicable for your business. Mark these as 'not applicable' and they won't affect your score.

- Yes, we already do this
- Yes, we'll be doing this from now on
- No, we're not doing this

Please give us details about how you're doing this

Guidance: A snack is described by the School Food Standards as an item (often pre-packaged), other than sandwiches, cakes or biscuits or confectionary, which is ready to eat without further preparation and which consist of or includes as a basic ingredient potato, cereals, soya, nuts, seeds, fruit or vegetables.

Snacks provided or brought in should be low in added salt, sugar or fat (*fruit or vegetables are recommended*) and this applies across the whole school day to tuck shops, mid-morning break, vending machines, staff meetings and extra-curricular groups, clubs and activities run before or after school, e.g. sports or drama clubs, as well as breakfast, or after school childcare provision which are offering light meals as well as healthy snacks.

Examples of foods and snacks that meet this standard include: fruit (fresh fruit is preferable over dried fruit. Dried fruit is very high in natural sugar and can cause severe decay to teeth), ready to eat vegetables (like carrot, cucumber and pepper sticks), seeds and nuts (with no added salt, sugar or fat), rice cakes (with no added salt or sugar), low sugar yoghurt, fruit malt loaf savoury muffin, fruit bread, wraps with beans and salad, bagel with cream cheese and chives. For more ideas and recipes for snacks and light meals other than lunch, please go to The School Food Plan What Works Well Recipe Hub

Examples of foods and 'snacks' that should be avoided at times other than lunch include: savoury crackers or breadsticks, cakes, biscuits, pastries or desserts.

Examples of 'snacks' that should be avoided throughout the school day include: confectionary, cereal bars, processed fruit bars, sweets, chocolate bars or chocolate coated products, crisps.

For reference, here is a link to the [School Food Standards on Food provided outside of lunch](#).

Here also is a link to additional [School Food Standards](#) which apply across the whole school day including breakfasts, morning breaks, tuck shops, lunch time and after school clubs.
