

**The Environmental Permitting (England & Wales) Regulations 2016
Regulation 13 and Schedule 5, Paragraph 6**

**Application for an environmental permit to operate an installation by Pyrocore
Ltd, Unit 203C Burcott Road, Bristol, BS11 8AD.**

This application to vary the permit seeks to include a second SWIP which will operate as a demonstration unit. The demonstration unit is currently in operation at PyroCore's Haybridge site. The existing Phoenix unit will continue to operate as permitted with no change, with the exception of an increase in the maximum annual throughput of biomass from 300 tonnes to 500 tonnes.

The installation falls under Schedule 13 of the Environmental Permitting (England & Wales) Regulations 2016.

The application has been placed on the Bristol Citizenspace Portal and can be viewed on the Council's website at the following address: <https://bristol.citizenspace.com/management-of-place/swip-avonmouth/>

A physical copy can be made available upon request.

We can take account of

- Relevant environmental regulatory requirements and technical standards.
- Information on local population and sensitive sites.
- Comments on whether the right process is being used for the activity, for example whether the technology is the right one.
- The shape and use of the land around the site in terms of its potential impact, whether that impact is acceptable and what pollution control or abatement may be required.
- The impact of noise and odour from traffic on site.
- Permit conditions by providing information that we have not been made aware of in the application, or by correcting incorrect information in the application (e.g. monitoring and techniques to control pollution).

We cannot take account of

- Issues beyond those in the relevant environmental regulations.
- Anything outside the remit of the EPR, e.g. the proposed location of the site, which is done by the local authority via land use planning.
- Whether a site should have a formal designation under Habitats Directive or other conservation legislation.
- Whether the activity should be allowed or not as a matter of principle.
- Land use issues when determining a permit application, even if changing the location of the activity would improve its environmental performance.
- The impact of noise and odour from traffic travelling to and from the site.
- The legally defined process we follow to determine a permit.
- The granting of a permit/variation if the operator is able to demonstrate that they can carry out the activity without significant risk to the environment or human health.

Any written comments on the application should be made ideally via email to pollution@bristol.gov.uk or by post to

Public Protection (Pollution)

By the following date: 26th November 2022

Any written comments will be placed on the public register unless they include a statement requesting that this is not done. If there is such a request the register itself will just include a note that representations have been made which are not on the register because of such a request.

Any representation you make by 26th November 2022 will be considered in determining the application although we will be unable to respond to comments individually.

If further information is required please contact the team via email pollution@bristol.gov.uk or by calling 01179 222500 Option 3
