

Community Consultation: Tree planting in Purdown Open Space

One Tree Per Child have designed a draft tree planting plan for Purdown Open Space and have applied for Trees for Climate funding.

We are now undertaking a community consultation, please see map overleaf. Posters will be up at the site and can also be viewed at www.bristol.gov.uk/onetreeperchild.

Local primary school children will help plant some trees this winter on completion of the consultation. We are also looking for local volunteers to help, so if you would like to join in, get in touch using the details below.

Trees are great for Bristol!

Environment: Trees act as full-time air filters, cleaning our city air.

Economy: Property values are higher in tree-lined streets than those with no trees.

Road safety: Tree-lined streets improve the attention of drivers, so they drive slower!

Wildlife: Trees provide food and shelter to wildlife, bringing nature to our doorstep.

Wellbeing: Trees make us feel more relaxed and add character to our neighbourhoods.

The Tree Officers design tree planting schemes with “the right tree in the right place” principle, carefully considering each tree planting location and appropriate tree type.

If you would like to comment on this draft planting plan, please contact us on onetreeperchild@bristol.gov.uk
