FOURTH WITNESS STATEMENT OF CAROLINE ENNION

I, Caroline Ennion, Parks Estate Manager for Bristol City Council, of Bower Ashton depot, Kennel Lodge Road, BS3 2JT will say as follows: -

1. I am employed by the Claimant as the Parks Estate Manager for Bristol City Council and am duly authorised to make this statement. Except where otherwise indicated, I make this statement from information within my own knowledge and belief.

2. I make this witness statement for the review hearing listed on 17 September

2026 and to provide the Court with an update on the Injunction.

3. The way the injunction has been publicised:

a) Signs have been placed around The Downs advising visitors that there is an injunction on the area, summarizing the terms of the injunction and with a QR code to access the Vehicle Dweller page and The Downs Injunction page of the Council's website. **Exhibit CE1**

b) We have also produced leaflets to hand out to any unauthorised encampment that are subject to the injunction. **Exhibit CE2**

c) The details of the injunction have been published on Bristol City Council's website Vehicle dweller enforcement

d) The injunction was also reported on local and national news and social media.

4. The way the injunction has worked:

Bristol Parks have worked with partners including the Gypsy, Roma & Traveller team, Street Intervention Service, Parking Services and Enforcement Team from Bristol City Council, St Mungos and the Police and adopted the following process:

a) When an encampment is observed the encampment is visited by either one of the teams above and/ or Bristol Parks supported by the appropriate team above

b) The encampment is advised of the injunction, the injunction leaflet is handed over and a welfare check carried out

c) The encampment is given a deadline for when they need to leave The Downs.

d) These are captured for our records, see below

5. Incidents and breaches

Date Arrived	Date Left	No of caravans	Actions Taken	Impact
26.01.26	28.01.26	4 caravans	Welfare check and Trespass Notice issued on 27th, Injunction issued on 28th with police present and travellers moved from site that day.	Litter and rubbish, some ground damage due to wet conditions.

03.04.26	06.04.26	10 caravans	Police visited site on 03.04.26 and informed them of injunction in place, they said they would leave by the 07.04.26	Rubbish and litter cleared by Downs team.
16.06.26	17.06.26	unknown	Police issued injunction.	Encampment occupied Race for Life footprint prior to them arriving on site. The event organiser was seriously concerned because they had been severely impacted in 2025, ultimately changing the location of the event and extra security. This year Police were able to move them on effectively before build started. Rubbish and litter cleared by Downs team.
25.07.26	27.07.26	unknown	Police visited and informed of injunction	Events onsite (Feast On + Funderworld). Rubbish and litter cleared by Downs team.

6. The key benefit is the speed at which unauthorised encampments can be evicted. This has meant:
   a) Events have been able to continue to set-up and run without interference. This year, the larger events hosted on The Downs were Race for Life (21 - 22 June 2026) Feast On Festival (23 July -26 July 2026), Festival of Summer (24 July – 31 August 2026) and the Forward Festival (29 - 30 August 2026).
   b) A significant reduction in the amount of waste left behind.
   c) The number of complaints received about anti-social behaviour, fly tipping and human waste on The Downs has fallen from this time last year.
   d) Staff feel safer and have reported no incidents related to unauthorised encampments.
   e) The education and engagement programme run by the Avon Gorge and Downs Wildlife Project has resumed on The Downs.
   f) Commercial groups and the Friends of the Downs have continued to run regular activities as they did prior to April 2025.
   g) The amount of street parking available to visitors has been freed up and Parking Services are able to enforce parking restrictions effectively.

7. Bristol Parks consider that the injunction is necessary to enable The Downs to continue to operate as an important public open space for residents and visitors to Bristol with all the activities listed above continuing as normal. The long-term impact of the encampments on the wildlife of The Downs is also mitigated through this injunction.

8. This injunction still allows Gypsy Roma Traveller encampments to stop on The Downs as they have been doing for hundreds of years. This upholds their rights under the European Convention on Human Rights (ECHR) and the Equality Act 2010, which as a public authority we have to consider and respect. However, their ability to stay for long periods of time is significantly curtailed. This reduces the impact that they have on the ground conditions, parks users and residents living around The Downs. Similarly, the impact of vehicle and tent dwellers is also hugely reduced because they can only stay for very short periods.

9. The impacts experienced prior to the injunction being in place are listed in much more detail in my second statement dated 16th July 2025.

10. These impacts on events included the following issues prior to the injunction being granted: unauthorised tents and GRT encampments were located within the footprint of the event preventing them from setting up and requiring event organisers to move location (as with Race for Life in 2025). Some encampments were located on customer access and egress routes which compromised the safety of the events so police intervention was required to move them on. In addition, vehicle dwellers parked on the road also blocked the safe access of contractors to the event site during set-up and break-down. There were also reports of vehicle dweller incursions into the event sites which also required the intervention of the police to expel them. In 2023 because of ongoing issues with these incursions, Adventure Cinema had to leave The Downs before their run had finished because they were unable to operate safely.

11. If the Injunction is lifted it will:

a) Lead to an increase in unauthorised encampments staying longer on The Downs and, from past experience, this will lead to increased:

- damage to the park from vehicles driving, and parking on the grass
- flytipping and litter
- human waste in the bushes and shrubs
- damage to the park infrastructure eg the public toilets, depot, football changing rooms
- complaints from residents to the Council and the Police
- officer time required from both the Council and the Police to manage the encampments on site
- damage to the ecology of The Downs
- concerns about safety by members of the public leading to a reduction in authorized park users resulting in a downward spiral of decreasing perceived and actual safety on The Downs.
- unauthorised use of The Downs e.g. driving on the grass as the observed behaviours of unauthorised users are normalized.

b) Impact on the confidence of organisers to run events on this site which may lead to them withdrawing from this site resulting in:

- a reduction in income for The Downs (estimated between between £72,000 and £134,000 per year) resulting in increasing budget pressures for the Council
- a reduced offer for entertainment for visitors and residents on The Downs

c) Raise safeguarding issues because of the condition and suitability of the accommodation for some vehicle dwellers and some people in tents.

d) Impact of the safety of our staff on The Downs, such that we may need to reconsider relocating the team out of the onsite depot which would decrease the grounds maintenance operational efficiency and our presence on site.

12. In my professional opinion, the Injunction has worked effectively on The Downs to control the number and frequency of unauthorised encampments on this site. We are therefore asking that the Injunction duration is extended to November 2027.

Statement of Truth

I believe that the facts stated in this witness statement are true. I understand that proceedings for contempt of court may be brought against anyone who makes, or causes to be made, a false statement in a document verified by a statement of truth without an honest belief in its truth.

THIRD WITNESS STATEMENT OF KURT JAMES

I, Kurt James of The Neighbourhood Enforcement Team, Bristol City Council, 100 Temple Street, Redcliffe, Bristol, BS1 6AG will say as follows:

1. I am employed by the Claimant as the Neighbourhood Enforcement and Street Scene Manager within Bristol City Council and am duly authorised to make this statement. Except where otherwise indicated, I make this statement from information within my own knowledge and belief.

2. The facts and matters set out in this statement are within my own knowledge unless otherwise stated, and I believe them to be true. Where I refer to

information supplied by others, the source of the information is identified; facts and matters derived from other sources are true to the best of my knowledge and belief.

3. I make this witness statement for the review hearing listed on 17 September 2026 and to provide the Court with an update on the Injunction granted on 5 May 2026 for Durdham Down, Clifton Down, Ladies Mile, Parrys Lane, Saville Road, Downleaze, Rockleaze, Circular Road, Roman Road, Clay Pit Road, Stoke Road, Wills Lane and Westbury Park ("The Downs").

4. The Injunction Order and Map were served at 59 locations around The Downs on 21 May 2026. See Certificate of Service **Exhibit KJ1.**

5. The remaining lived-in vehicles were given three weeks to leave the Downs in line with the possession order, and all vehicles left the Downs without the need to deploy County Court bailiffs.

6. Human waste clearances were stopped once the Downs was clear of lived in vehicles.

7. Since the Injunction was served, we have produced and printed signs explaining the Injunction and these were erected on 6 July 2026. **See Exhibit KJ2.**

8. We also produced and printed leaflets to hand out to vehicle dwellers who may be unaware of the Injunction on the Downs. **See Exhibit KJ3.**

9. Bristol City Council has paid its Security Service £100 per week to patrol the Downs on two evenings per week. The aim of the patrols is to drive around the Downs and challenge any vehicles that look lived in and to tell them they have to leave in line with the Injunction conditions. This patrol started on 12 August 2026 and will last for three months. During the first 15 days of patrolling, five owners of vehicles were spoken to. **See Exhibit KJ4.** That is a significant result.

10. On 11 August 2026, the Neighbourhood Enforcement Team conducted its citywide count of vehicle dwellers and found no lived in vehicles on The Downs. This count also showed an overall reduction in the number of lived in vehicles in Bristol.

11. Since 27 April 2026, the Council has received over 300 reports of vehicles stopping overnight on the Downs through the Council's online reporting system Fix My Street or email which are shown in **Exhibit KJ5.**

12. The Council has used this information to target the handing out of leaflets and to challenge behaviours, and this approach has led to a few vehicle dwellers moving on as I note in paragraph 9.

13. These reports of lived in vehicles stopping over shows that the Downs is still a destination for vehicle dwellers and that ongoing vigilance has to be maintained.

14. I also want to address the concerns raised by Protect the Downs. We have received multiple representations from them about overnight parking on the Downs. I consider this is different to the vehicle dwelling community, who would be likely to reside there for an extended period. It appears that residents are reporting every van that they see on the Downs as potentially being a lived-in vehicle. Our patrols are not seeing the same level of overnighting.

15. It is my conclusion that the Injunction has thus far been successful in that the longstanding vehicle dweller encampments that were subject to the court order have now gone and have not returned, but I am respectfully requesting that the Injunction be continued for the following reasons:

- The summer period does see vehicle dwellers leave Bristol to join the festival circuit or to holiday elsewhere, and it is possible that the city will see a return of these vehicle dwellers from September

onwards.

- The Council continues to receive many reports about vehicles stopping over.
- Although the security patrols have started it is too early to judge the impact of the patrols on vehicles that may be stopping over on the Downs. These patrols provide public reassurance and will continue for as long as they are needed.

Statement of Truth

I believe that the facts stated in this witness statement are true. I understand that proceedings for contempt of court may be brought against anyone who makes, or causes to be made, a false statement in a document verified by a statement of truth without an honest belief in its truth.

[redacted]	This vehicle appeared Monday 11 May in the morning and remains there 25 hours later in spite of the latest injunction covering van dwelling on roads around the Downs.	Given all the publicity relating to the Possession Order recently granted to the Council and the subsequent court order extending the existing injunction to cover "new arrivals" I am surprised that there is such a "new arrival" parked in such a blatent position. Please apply your newly granted powers to require this vehicle to move away from the roads covered by the injunction.	Vehicle dwelling encampment	2026-05-12T12:48:22	Stoke Bishop

[redacted]	Lived in vehicle moved from Downs to residential road	A 'Van Dweller' evicted from the Downs has been parked on [redacted] since 7th May. The occupant refuses to engage when asked about his intentions and how he disposes of human waste. The vehicle is blocking the road visibility when exiting some driveways on the road, also the occupant has a clear view into the surrounding properties. There may only be one vehicle today but could possibly be the first of many.	Vehicle dwelling encampment	2026-05-18T18:05:12	Stoke Bishop

[redacted]	Motorhome in residential road with occupant living within vehicle for approximately 2 weeks. The vehicle is parked is parked in a position where it is blocking visibility for residents when exiting and entering their properties. It is thought that the vehicle was recently located near Durdham downs and which was the subject of enforcement action. It is also concerning as to hygiene issues including human waste disposal.	Occupant will not disclose when he intends to leave when asked politely by residents.	Vehicle dwelling encampment	2026-05-19T16:15:55	Stoke Bishop

[redacted]	At least 2 caravans on the road side	Given the recent possession order covering the roads around the Downs, there should be no lived in vehicles on this road. The caravans , as far as I can tell at a distance, are not attached to a vehicle. I have responded â€œnoâ€ to a lot of the questions because I havenâ€™t been that close to the vehicles. It would be useful to have had a â€œdonâ€™t knowâ€ option to use in these circumstances.	Vehicle dwelling encampment	2026-05-21T11:18:08	Stoke Bishop

[redacted]	Lived in vehicle parked on roadside - new arrival in injunction area	One of a number of new arrivals on one of the roads recently included in the injunction prohibiting overnight dwelling in vehicles around the Downs - this ine has now been present for over 48 hours in a zone with a five hour parking limit. Failure to deal with these instances swiftly will leak to "broken window" syndrome and the sure but steady return of vehicle dwellers to the Downs. Please take daily action against these offenders so that the good work done to date is not wasted.	Vehicle dwelling encampment	2026-05-22T11:15:32	Stoke Bishop

[redacted]	Travellers broken in and arriving in the rec playing fields	Currently just arriving so little evidence of any discarded human waste and rubbish but usually they leave human waste, fly tipping, gas canisters and children joy riding vehicles around the field so I imagine it wonâ€™t be long until that all starts to happen	Vehicle dwelling encampment	2026-08-16T13:24:15	Stoke Bishop
[redacted]	30 vehicles have just broken into seamills rec by unlocking two barriers and dragging away a concrete bollard	The public space used by the community has been hijacked and been made a no go area. Extra security was put in at great expense to stop this but they broke in through to barriers and removed a huge concrete platform. I have them all on video as they did it.	Vehicle dwelling encampment	2026-08-16T13:35:07	Stoke Bishop
[redacted]	Travellers in caravans in children's park area, recreational ground unusable with them there as not safe	Last time the caravans were at sea mills recreational ground, they entered illegally and broke the metal fences to get in so I assume the same has been done this time. They are very antisocial, riding motorcycles on the grass, leaving rubbish, glass, burning the ground, letting dogs of leashes and approaching children and adults in an inappropriate way. The area is not safe for children to play on while they are there, so activities which are planned on that space, including the scrap store weekly event this Wednesday will be cancelled, which is not fair on the community who use the space in a safe way.	Vehicle dwelling encampment	2026-08-16T13:54:05	Stoke Bishop
[redacted]	Travellers broke the livk and moved s concrete block to get in the recreation ground	This has happened before & when they left the field was a tip. It is a football pitch so kids unable to play football. Loud music being played. I spoke to them. They said the gate wasn't locked (it was) so they just moved the concrete block.
