Public Notice of Modified Traffic Regulation Order Proposal

Following the conclusion of the statutory consultation, which ran from 10th September 2026 to 2nd October 2026, the council proposes to make modifications to the original proposals.

Reason for modification

Following a review of the comments received regarding the loss of parking on Marsh Lane, vehicles obstructing bus stops near the junction with Granville Street, and pavement parking, we are proposing several amendments. Where road widths allow, some of the proposed double yellow lines on the southern section of Marsh Lane are proposed to be removed and parking bays added to indicate where vehicles can park without causing obstruction. Bus stop markings will also be marked to stop parking at the bus stops. These proposed changes are intended to respond to concerns raised during the consultation – this is illustrated below

How to object

Any person wanting to object to the proposed modifications can do so in writing via e-mail at **TRO.Team@bristol.gov.uk** or by post to the undermentioned address. Documents will also be available to view online from 12th November 2026 at the following address https://www.bristol.gov.uk/residents/streets-travel/make-a-comment-on-traffic-regulation-orders-tros. All presentations should quote the reference: **MARSH LANE MOD** and must be received not later than **27th November 2026**. All representations received will be fully considered before a decision is made on whether to make the TRO as advertised, or to include this proposed modification.
