Traffic management

You must provide and erect all barriers and signs necessary to effect the closure including those signing the alternative route, details of which will be supplied on the Legal Order.

Please provide a full Traffic Management document which shall include/indicate:

1. Full Traffic Management signing schedule
2. Resident access points
3. Emergency access routes/points
4. Event vehicle access routes/points (if appropriate)
5. A list of any location where you wish to prohibit pedestrian access
6. A list of any location where you wish to suspend on-street or other parking
7. A plan indicating the position of marshalls and stewards
8. Positions of advance signing prior to your event

You may provide the above information in list or plan form as appropriate/preferred.
