

Statement of Accounts

Bristol City Council
For the Year Ended
31 March 2019

The Accounts and Audit Regulations 2015 require the City Council to prepare a set of Financial Statements. The Financial Statements have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2018/19 (the Code) published by the Chartered Institute of Public Finance and Accountancy (CIPFA).

GLOSSARY OF TERMS

ACCOUNTING PERIOD - This is the length of time covered by the accounts. This is normally a period of twelve months commencing on 1 April. The end of the accounting period is the Balance Sheet date.

ACCOUNTING POLICIES – The rules and practices adopted by the Council that determine how the transactions and events are reflected in the accounts.

ACCRUALS - The concept that income and expenditure are recognised as they are earned or incurred, not as money is received or paid.

ACTUARY - An independent consultant who advises on the financial position of the Pension Fund.

ACTUARIAL GAINS AND LOSSES - For a defined benefit pensions scheme, the changes in actuarial deficits or surpluses that arise because either:

Events have not coincided with the actuarial assumptions made for the last valuation; or

The actuarial assumptions have changed

ACTUARIAL VALUATION - Every 3 years a review is carried out by the actuary on the Pension Fund's assets and liabilities reporting to the Council on the Fund's financial position and recommended employers' contribution rates.

AMORTISATION - The writing off of a loan balance or intangible asset over a period of time to revenue.

ANNUAL GOVERNANCE STATEMENT – The annual governance statement is a statutory document that explains the processes and procedures in place to enable the Council to carry out its functions effectively.

ASSET - An asset is something that the Council owns that has a monetary value. Assets are either current or long term.

- A current asset is one that will be used by the end of the next financial year (e.g. stock, debtors)
- A long term (fixed) asset provides the Council with benefits for a period of more than one year (e.g. property, plant and equipment).

BALANCE SHEET - The Balance Sheet is a financial statement summarising the overall financial position of the Council at the end of the financial year.

BILLING AUTHORITY - The billing authority is responsible for levying and collecting the Council Tax in its area, both on its own behalf and that of its precepting authorities.

BUDGET - The budget represents a statement of the Council's planned expenditure and income.

CAPITAL ADJUSTMENT ACCOUNT - This is the money set aside in the Council's accounts for capital spending and to repay loans.

CAPITAL CHARGES - This is a charge made to the Council's service revenue accounts to reflect the cost of utilising property, plant & equipment in the provision of services.

CAPITAL EXPENDITURE - Expenditure on acquisition of a non-current asset or expenditure that adds to and not merely maintains the value of an existing asset.

CAPITAL FINANCING - This describes the various sources of money used to pay for capital expenditure. Capital expenditure can be funded from external sources, such as borrowing, capital grants and by contributions from the internal sources, such as capital receipts and reserves.

CAPITAL RECEIPT - A capital receipt is the income that results from the sale of land, buildings and other capital assets. A specified portion of this may be used to fund new capital expenditure. The balance must be set-aside and may only be used for paying off debt, not for funding new revenue services.

CASH AND CASH EQUIVALENTS - Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are short-term, highly liquid investments that are readily convertible to cash; e.g. bank call accounts.

CODE - The Code of Practice on Local Authority Accounting in the United Kingdom 2018/19.

COLLECTION FUND - A fund operated by the billing authority into which all receipts of Council Tax and National Non-Domestic Rates are paid. Payments are made from the fund to support the Council's general fund services and to the precepting authorities and the NNDR pool. The fund must be maintained separately from the Council's General Fund.

COMMUNITY ASSETS - Assets that the Council intends to hold in perpetuity that have no determinable useful life and that may have restrictions on their disposal, such as parks and historic buildings.

COMPREHENSIVE INCOME AND EXPENDITURE ACCOUNT - A statement which details the total income received and the expenditure incurred by the Council during a year in line with IFRS reporting as required by the Code.

CONTINGENT ASSET - A possible asset that arises from past events and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Council.

CONTINGENT LIABILITIES - A contingent liability is either:

- a possible obligation arising from a past event whose existence will be confirmed by the occurrence of one or more uncertain future events not wholly within the control of the Council; or
- a present obligation arising from past events where it is not probable that there will be an associated cost or the amount of the obligation cannot be accurately measured.

COUNCIL TAX - A system of local taxation, which is set by both the billing and precepting authorities at a level determined by the revenue expenditure requirement for each authority, divided by the Council Tax Base for its area.

COUNCIL TAX BASE - An amount calculated by the billing authority, by applying the band proportions to the total properties in each band in order to ascertain the number of band D equivalent properties in the authority's area. The tax base is also used by the precepting and some levying bodies in determining their charge to the area.

CREDITORS - Amounts of money owed by the Council for goods or services received.

CURRENT ASSETS - Items that can be readily converted into cash.

CURRENT LIABILITIES - Items that are due to be paid immediately or in the short term.

DEBTORS - Amounts of money owed to the Council for goods or services provided.

DEDICATED SCHOOLS GRANT (DSG) - A ring-fenced grant from the Department for Education paid to Local Education Authorities for the Education of Children and Young Adults up to the age of 25.

DEPRECIATION - A provision made in the accounts to reflect the cost of consuming assets during the year, e.g. a vehicle purchased for £30,000 with a life of five years would depreciate on a straight-line basis at the rate of £6,000 per annum. Depreciation forms part of the 'capital charges' made to service revenue accounts and is covered by International Accounting Standard (IAS) 16.

DIRECT REVENUE CONTRIBUTIONS - Funding of capital expenditure directly from revenue budgets.

EARMARKED RESERVES - Amounts set aside for a specific purpose to meet future commitments or potential liabilities, for which it is not appropriate to establish a provision.

EXIT PACKAGES - The cost to the Council of early termination of staff employment before normal retirement age.

EVENTS AFTER THE BALANCE SHEET DATE (POST BALANCE SHEET EVENTS) - Events after the Balance Sheet date are those events, favourable or unfavourable, that occur between the Balance Sheet date and the date when the Statement of Accounts is authorised for issue.

EXTERNAL AUDITOR - The auditor appointed by the Public Sector Audit Appointments (PSAA) to carry out an audit of the Council's accounts. The current auditor is Grant Thornton.

FAIR VALUE - Fair Value is defined as the amount for which an asset could be exchanged or a liability settled, assuming that the transaction was negotiated between parties knowledgeable about the market in which they are dealing and willing to buy/sell at an appropriate price, with no motive in their negotiations other than to secure a fair price.

FINANCE LEASE - A contractual agreement for the use of an asset, where in substance the risks and rewards associated with ownership reside with the user of the asset (lessee) rather than the owner (lessor).

FINANCIAL YEAR - The local authority financial year starts on 1 April and ends on the following 31 March.

GENERAL FUND - This is the main revenue account of the Council. It includes the cost of all services provided which are paid from Government grants, generated income, NNDR retention and the City Council's share of Council Tax. It excludes the Housing Revenue Account. By law, it includes the cost of services provided by other bodies who charge a levy to the Council.

GOVERNMENT GRANTS - Grants made by the Government towards either revenue or capital expenditure to help with the cost of providing services and capital projects. Some of these grants have restrictions on how they may be used whilst others are general purpose.

GROUP ACCOUNTS – Where a Council has a material interest in another organisation (e.g. a subsidiary organisation) group accounts have to be produced. These accounts report the financial position of the Council and all organisations in which it has an interest.

HERITAGE ASSET - Assets held and maintained principally for their contribution to knowledge and culture. Examples of Heritage Assets are historical buildings, civic regalia and museum and gallery collections.

HOUSING REVENUE ACCOUNT (HRA) - The HRA includes expenditure and income arising from the provision of rented dwellings. It is, in effect, a landlord account. Statute provides for this account to be separate from the General Fund and any surplus or deficit must be retained within the HRA.

IMPAIRMENT - This is where the value of an asset falls below the carrying value in the accounts and so to reflect the commercial reality of the situation a charge is made in the running costs.

INFRASTRUCTURE ASSETS – Non-current assets that are unable to be readily disposed of, the expenditure on which is recoverable only by continued use of the asset created. Examples are highways and footpaths.

INTANGIBLE ASSETS - Assets which do not have a physical form but provide an economic benefit for a period of more than one year; e.g. software licences.

INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS) – International Financial Reporting Standards (IFRS) are a set of accounting standards developed by an independent, not-for-profit organisation called the International Accounting Standards Board (IASB)

LEASING - Method of financing the acquisition of capital assets, usually in the form of operating or financing leases.

LIABILITIES - Amounts the Council either owes or anticipates owing to others, whether they are due for immediate payment or not.

MAJOR REPAIRS RESERVE (MRR) - This reserve is for capital expenditure on HRA assets.

MINIMUM REVENUE PROVISION (MRP) - A statutory amount, that has to be charged to revenue, to provide for the redemption of debt.

MOVEMENT IN RESERVES STATEMENT – This financial statement presents the movement in usable and unusable reserves (the Council's total reserve balances).

NATIONAL NON-DOMESTIC RATE (NNDR) – More commonly known as 'business rates', these are collected by billing authorities from all non-residential buildings. Since 1 April 1990 the poundage level has been set by the Treasury. Amounts payable are based on rateable values multiplied by this poundage level.

NET BOOK VALUE - The amount at which fixed assets are included in the balance sheet, i.e. their historical cost or current value, less the cumulative amounts provided for depreciation.

NON-CURRENT ASSETS - Assets which yield a benefit to the Council for a period of more than one year.

NON-OPERATIONAL ASSETS - Fixed assets held by a Council, but not directly occupied, used or consumed in the delivery of services; for example, investment properties and assets surplus to requirements held pending sale or redevelopment.

OPERATING LEASE - This is a lease where the effective ownership of the asset remains with the lessor.

OPERATIONAL ASSETS - Fixed assets held and occupied, used or consumed by the Council in the direct delivery of those services for which it has either a statutory or a discretionary responsibility.

OUTTURN - This is the actual level of expenditure and income for the financial year.

PENSION FUNDS - For the Local Government Pension Scheme, the funds that invest employers' and employees' pension contributions in order to provide pensions for employees on their retirement and pensions for employees' dependants in the event of death of an employee.

PENSION STRAIN - The cost to the Council of reimbursing the Pension Fund should it agree to employees aged 55 and over drawing their pension before normal retirement age.

PRECEPT - This is the method by which a precepting authority (Avon and Somerset Police & Crime Commissioner, Avon Fire Authority) obtains income from the billing authority to cover its net expenditure. This is calculated after deducting its own Revenue Support Grant. The precept levied by the precepting authority is incorporated within the Council Tax charge. The Council pays the amount demanded over an agreed time scale.

PRIOR YEAR ADJUSTMENT - A material adjustment applicable to prior years arising from changes in accounting policies or from the correction of fundamental errors.

PRIVATE FINANCE INITIATIVE (PFI) - PFI started in 1997/98 and offers a form of Public-Private Partnership in which local authorities do not buy assets but rather pay for the use of assets held by the private sector.

PROPERTY, PLANT AND EQUIPMENT (PPE) - Covers all tangible (physical) assets used in the delivery of services, for rental to others, or for administrative purposes, that are used for more than one year.

PROVISIONS - Amounts set aside to meet liabilities or losses which are likely or certain to be incurred but where the amount due or the timing of the payment remains uncertain.

PRUDENTIAL CODE - The Prudential Code frees authorities to set their own borrowing limits having regard to affordability. In order to demonstrate this has been done, and enable adherence to be monitored, authorities are required to adopt a number of appropriate 'Prudential Indicators'.

PUBLIC WORKS LOAN BOARD (PWLb) - A body, part of the Debt Management Office (a government agency) which lends money to public bodies for capital purposes. At present nearly all borrowers are local authorities. Monies are drawn from the national Loans Fund and rates of interest are determined by the Treasury.

RATEABLE VALUE - The Valuation Office Agency (part of HM Revenue and Customs) assesses the rateable value of non-domestic properties. Business rate bills are set by multiplying the rateable value by the year's NNDR poundage (which is set by the Government). Domestic properties no longer have rateable values; instead they are assigned to one of the eight council tax valuation bands.

RELATED PARTIES - Two or more parties are related parties when at any time during the financial period:

- one party has direct or indirect control of the other party
- the parties are subject to common control from the same source
- one party has influence over the financial and operational policies of the other party to the extent that the other party might be inhibited from pursuing its own interests; or
- the parties, in entering a transaction, are subject to influence from the same source to such an extent that one of the parties to the transaction has subordinated its own interests. Examples of related parties include central government, other local authorities and other bodies' precepting or levying demands on the Council Tax, its members and its chief officers.

RESERVES - An amount set aside for a specific purpose in one financial year and carried forward to meet expenditure in future years. A distinction is drawn between reserves and provisions (see above), which are set up to meet known liabilities.

REVALUATION - Recognises increases or decreases in the value of non-current assets that are not matched by expenditure on the asset; gains or losses are accounted for through the revaluation reserve.

REVENUE EXPENDITURE - The regular day to day running costs of items including salaries and wages and other running costs incurred to provide services.

REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE (REFFCUS) - Expenditure which is legitimately financed from capital resources, but which does not result in, or remain matched with tangible assets.

SURPLUS ASSETS - Assets not being used in the delivery of services that do not qualify as being 'held for sale' under accounting guidance.

SOFT LOANS - Funds received and advanced at less than market rates.

UNSUPPORTED BORROWING - Local authorities can set their own borrowing levels based upon their capital need and their ability to pay for the borrowing, costs are not supported by the Government so services need to ensure they can fund the repayment costs. The borrowing may also be referred to as Prudential Borrowing.

USABLE CAPITAL RECEIPTS - This represents the amount of capital receipts available to finance capital expenditure in future years, or to provide for the repayment of debt.

Introduction

An introduction to the 2018/19 statement of accounts by the deputy mayor and portfolio holder for finance, governance, property and culture, Councillor Craig Cheney.

I am pleased to introduce the 2018/19 statement of accounts for Bristol City Council, which sets out the Council's financial performance for the last year. It summarises what we spent, how we spent it and what we have achieved. The statements include the wider consolidated accounts for the Council and its subsidiaries, primarily Bristol Waste and Bristol Energy.

During the last year we continued the process of getting a firm grip on our finances whilst protecting the delivery of essential front-line services. At the start of the year, following a review of our medium term financial plan, we took some difficult decisions and agreed a package of efficiencies and savings of which £34.5m were planned to be delivered during the year. There was a further £8m of reductions programmed from the previous year. Of these just over £30m were delivered and the remainder offset elsewhere. We were also able to reverse previously planned reductions to our library services.

Overall we achieved General Fund spend within budget and have been able to put a small amount aside to help us plan for the future in the face of rising demand for social care and other essential services. This is important, given recent reports that a number of local authorities could be at risk of exhausting their reserves and face deeper cutbacks to essential services.

For the forthcoming year 2019/20 we set a balanced budget without the need for further cuts, but challenges remain ahead as local government continues to bear the brunt of ongoing public expenditure reductions.

Uncertainty regarding business rates retention and the economic and social impact of Brexit feature heavily in our financial forecasting. We are working closely with partners to plan for different eventualities and were one of the first council's to assess the potential impacts of a 'no deal' Brexit. We are determined to prioritise essential services whatever the outcome of these challenges are and ensure we deliver cost-effective services for the future.

I would like to take this opportunity to thank all colleagues across the council who have worked hard throughout the year to ensure we finished 2018/19 with a balanced budget, and also prepared the accounts so promptly. Achieving this facilitates greater transparency for residents to judge whether taxpayers' money has been spent properly, and be assured that we are in a better placed to tackle the financial challenges ahead.

Councillor Craig Cheney

Deputy Mayor – Finance, Governance, Governance, Property and Culture

Narrative Report

Background

Bristol is a city in the south west of England, covering an area of 110 square kilometres. It is the 8th largest city in England and has a population of around 459,000 living in approximately 200,000 dwellings.

Bristol is part of the West of England Combined Authority and is well connected by road, rail, sea and air. From Brunel to Banksy, the city has a history of achieving great things.

This is affirmed by accolades such as becoming a UNESCO City of Film in 2017 as well as England's first UNESCO Learning City, UK's smartest city and European City of Sport in 2017 and European Green Capital in 2015.

However, Bristol's prosperity is not shared by all and, like many cities long-standing health, social and economic inequalities exist within the city and affect the prospects of its residents. Economic success has also brought challenges such as congestion, environmental pollution and high house prices. The city also has a rapidly growing population, especially child population.

The council and its partners across the city are working hard to address these issues and have created the [One City Plan](#), which

identifies ambitious targets that need to be met in the short, medium and long term if we are to meet the challenges that face the city. The Corporate Strategy 2018-2023 starts to explain how Bristol City Council will contribute to this and how services are being re-shaped to meet the financial challenge of reductions in government grant whilst the city's population grows and the need for life-and-limb care services increases. The council is developing into being both a provider of services, and more of an enabling empowering organisation.

This is all driven by the ambition to make sure everyone is included in this city's success and will have a home where they can achieve their aspirations, regardless of their background or where they grew up.

Despite its challenges, Bristol is a city of hope and ambition.

Our Corporate Strategy – at a glance

our Vision

We play a leading role in driving a city of hope and aspiration where everyone can share in its success.

our Themes

In achieving this vision we have based our activities around four themes:

Empowering and Caring:

Work with partners to empower communities and individuals, increase independence and support those who need it. Give children the best possible start in life.

Fair and Inclusive:

Improve economic and social equality, pursuing economic growth which includes everyone and making sure people have access to good quality learning, decent jobs and homes they can afford.

Well Connected:

Take bold and innovative steps to make Bristol a joined up city, linking up people with jobs and with each other.

Wellbeing:

Create healthier and more resilient communities where life expectancy is not determined by wealth or background.

our Principles

We develop people and places to improve outcomes, empower communities and reduce the need for council services.

Maximise opportunities to work with partners and other stakeholders locally, nationally and globally.

Focus on planned long-term outcomes not short-term fixes, prioritising early intervention and prevention.

Build city resilience, improving our ability to cope with environmental, economic or social 'shocks and stresses'.

Plan inclusively with everyone in mind, but with a particular focus on our children and their future.

Contribute to safer communities, including zero-tolerance to abuse or crime based on gender, disability, race, age, religion or sexuality.

Use our assets wisely, generating a social and/or financial return. Raise money in a fair but business-like way.

our Values and Behaviours

We are Dedicated

We strive to make a difference

We are Curious

We ask questions and explore possibilities

We show Respect

We treat each other fairly

We take Ownership

We accept personal accountability

We are Collaborative

We come together to reach shared goals

Our key commitments

Empowering and Caring:

- Give our children the best start in life by protecting and developing children's centre services, being great corporate parents and protecting children from exploitation or harm.
- Reduce the overall level of homelessness and rough sleeping, with no-one needing to spend a 'second night out'.
- Provide 'help to help yourself' and 'help when you need it' through a sustainable, safe and diverse system of social care and safeguarding provision, with a focus on early help and intervention.
- Prioritise community development and enable people to support their community.

Fair and Inclusive:

- Make sure that 2,000 new homes – 800 affordable – are built in Bristol each year by 2020.
- Improve educational outcomes and reduce educational inequality, whilst ensuring there are enough school places to meet demand and a transparent admissions process.
- Develop a diverse economy that offers opportunity to all and makes quality work experience and apprenticeships available to every young person.
- Help develop balanced communities which are inclusive and avoid negative impacts from gentrification.

Well Connected:

- Improve physical and geographical connectivity; tackling congestion and progressing towards a mass transit system.
- Make progress towards being the UK's best digitally connected city.
- Reduce social and economic isolation and help connect people to people, people to jobs and people to opportunity.
- Work with cultural partners to involve citizens in the 'Bristol' story, giving everyone in the city a stake in our long-term strategies and sense of connection.

Wellbeing:

- Embed health in all our policies to improve physical & mental health and wellbeing, reducing inequalities and the demand for acute services.
- Keep Bristol on course to be run entirely on clean energy by 2050 whilst improving our environment to ensure people enjoy cleaner air, cleaner streets and access to parks and green spaces.
- Tackle food and fuel poverty.
- Keep Bristol a leading cultural city, helping make culture, sport and play accessible to all.

Our Obligations

These Key Commitments are not an exhaustive list of everything we will do. Indeed, much of our work is 'business as usual' meeting statutory and regulatory obligations which are set out in legislation.

Some of these are covered within our Key Commitments, but it can be taken as read that we'll make sure that we meet all of our legal obligations. Others include, but aren't limited to:

Highway Maintenance; Road Network Management; Public Health Strategy; Public Sector Equality Duty; Planning; Licensing; Care Act 2014; Waste Collection; Environmental Health And Enforcement; Elections; Registrar Services; Coroner Services; Special Educational Needs; Harbour; Information and Advice; Emergency Planning; Homelessness; Trading Standards; Libraries (Core Service); Tax Collection; Land Charges; Community Safety; Landlord Services; Property Services; General Data Protection Regulation

Helping us achieve our priorities

One City Plan: The long-term city-wide plan for Bristol, created and owned by partners across the city. It guides our thinking around all key issues.

Regional Devolution: Working as a key member of the West of England Combined Authority to help shape how £900m of investment is spent to improve transport, provide jobs and strengthen adult education.

Medium Term Financial Plan: Providing us with a five-year forward look at the financial environment and the principles by which we can make good financial decisions.

Health and Social Care integration: Working with our NHS partners to bring health and social care closer together and make the most of joint commissioning opportunities, with a bigger focus on prevention.

Business Infrastructure: Working with back office services to identify what needs to change to be a more effective and efficient council.

Workforce Plan: Sets out how the council will support our colleagues to be able to deliver for our citizens by developing their skills and careers as a model employer.

Our Services

The following core services are provided by the council:

Core Services:

Adults, Children, Education and Public Health

- Education, Learning and Skills Improvement
- Safeguarding vulnerable adults and children
- Social care and support for adults including the elderly
- Support for carers Commissioning services
- Public Health
- Coordinates Bristol's response to crime, community safety and antisocial behaviour

Growth & Regeneration

- Culture including major projects such as the Colston Hall
- Property
- Economic development
- Energy services and City Leap
- Library services
- Community Services Parks and open spaces
- Licencing
- Housing and Landlord Services

Resources

Provides internal support services including:

- ICT
- Finance, Workforce and Change
- Policy Strategy and Communications
- Legal and Democratic Services
- Commercialisation and Citizen Services

Ring-fenced Accounts:

• Housing Revenue Account

Accounts for the management and maintenance of around 27,000 council homes in Bristol.

• Dedicated Schools Grant

Grant funding the majority of the council's expenditure on schools. The grant can only be used to meet expenditure properly included in the schools budget.

• Public Health

An annual ring fenced grant from the Department of Health. Funds the council's statutory duties to improve public health.

We work with local partners (including charities, businesses and other public services providers like the police and the NHS) and residents to determine and deliver local priorities. Typically councils like us provide over 700 services, either directly ourselves or by commissioning services from outside organisations.

In future we will still provide hundreds of day to day services, from being a landlord to cleaning the streets to huge projects worth hundreds of millions of pounds.

Our services

Financially the council has significant challenges in the coming years including:

- Continuing budget pressures, in the past seven years the council has had to save over £200m with a further £14m proposed for 2019/20
- The move away from central government grant funding towards a greater reliance on locally sourced taxation such as council tax and business rates.
- Demographic growth, and an increasingly aging population will continue to put pressure on the council's budget.
- The financial impact of Brexit is as yet uncertain. While there is a level of assurance over council planning, the lack of clarity over Brexit nationally presents significant challenges and threats. The council has received £210k national non-ring-fenced funding from the Government over two years for Brexit preparedness and has set aside an additional £250k in reserves. Of this it has, to date, allocated £145k to specific activities.

This means we will have an increasing role as an enabler and facilitator of others, as well as our traditional role as the steward of the social, economic and environmental wellbeing of the city and a direct provider or commissioner of services.

Our Leadership and Workforce

Our 70 elected councillors represent the people of Bristol and set the overall policy of the council.

Mayor, Marvin Rees, elected mayor for Bristol, with city council responsibilities that include ultimate responsibility for all major policy decisions, setting the vision and direction of the council; and making 'executive' decisions within the budget and policy framework set by Full Council.

Cabinet members, appointed by our Mayor, with responsibilities for particular portfolios. The Cabinet is made up of the Mayor and Cabinet members and the role of the Cabinet is to:

- provide leadership
- propose the budget and policy framework
- implement policy through executive directors
- make executive decisions as delegated by the mayor

Scrutiny Commissions provide local accountability, openness and involvement in decision-making, aiming to improve results for people in Bristol.

Regulatory Committees that we have to have by law and other committees such as the Audit Committee which is responsible for:

- oversight of the council's accounts and governance arrangements
- codes of conduct and protocols

Senior officers – Which include 3 Executive Directors and Statutory Officers responsible for:

- Advising councillors on policy;
- Implementing councillors' decisions; and
- Service performance; and
- Ensuring that we are legally compliant and operating within our budget

Our workforce - Overall, our workforce comprises 7,393 'full time equivalent' employees. Of this total, 2,154 are employed within our locally maintained schools

Our Performance

Communities and living

- The Bristol Quality of Life survey 2018/19 highlighted 77% of residents were 'satisfied with their local area as a place to live' and two out of three people (68%) did voluntary work or helped out in the community regularly (at least three times a year).

Housing

- During 2017/18, 1,640 new homes were built in Bristol, including 186 units of student accommodation.
- During 2017-18, 184 new affordable homes were built, and we helped to return 381 private sector empty properties back into occupation.
- Addressing homelessness is a priority issue, and our outreach teams continue to actively work with rough sleepers. Latest figures found 82 people sleeping rough on the street in a single night in Bristol (Nov 2018), a rapid rise over the last seven years (8 in Nov 2011).
- As of April 2018 there were 721 homeless households that the council had a duty to house. This is a 123% increase over a five year period (324 in 2012/13).

Economy and employment

- 246,100 working age residents were in employment in June 2018. This is equivalent to an employment rate of 78.9% which is the highest of British Core Cities and 3.9 percentage points above the national (GB) average.
- Bristol contributed £14.20bn (inflation adjusted) to the UK economy (Gross Value Added, GVA) in 2017 - up from £14.05bn in 2016).

Culture and creativity

- Bristol was named Museum Destination of the Year 2018 (Luxury Travel Guides Awards 2018).
- Just under half of Bristol residents (46%) participate in cultural activities at least once a month (Quality of Life survey 2018/19).
- Bristol continues to be a major destination for tourists and entertainment. It had 13.6 million day visitors in 2017, 2.1m domestic staying trips (spend £348m) and over 570,000 overseas staying trips - making Bristol the 8th most visited town or city in Britain.
- We run and maintain eight leisure centres and swimming pools, where over 2.7 million individual visits occurred during 2018/19.

Our performance

Transport and Sustainability

- The number of people cycling to work in Bristol increased by 64% between 2011 (15,800) and 2018 (25,900).
- The number of bus passenger journeys (per head of population) in Bristol in 2017/18 was 92.1, a significant increase of 45% compared to 2012/13 (63.7). This compares to a national decrease in journeys of 8% over the same five year period.
- There were over 42 million local bus passenger journeys (originating in the Bristol local authority) in 2018/19, an increase of 6.4% compared to the previous year.
- Citywide CO2 emissions have decreased by 37% (2005-2016), and the renewable energy capacity in Bristol has doubled since 2013, and is now 57 MegaWatt Equivalent (MWe) of energy (2017/18), of which 18 MWe is solar and 22 MWe onshore wind turbines.
- Despite increased numbers of people using public transport, walking and cycling, continued levels of vehicle use mean that reported air pollution levels of nitrogen dioxide still exceed the UK and EU air quality limits.
- In 2018 the council has reduced carbon emissions from its own operations by 71% since 2005 (already exceeding its 2020 target).
- 45% of household waste was sent for reuse, recycling and composting as at December 2018, up from 35.5% in 2008.
- 14% of municipal waste was sent to landfill (Dec 2018). 142kg of waste per household was landfilled in 2017/18, compared with 230kg in 2016/17.

Education

- The percentage of children with a good level of development at Early Years is 69.0% (2018), much improved from its inception in 2013 (49.5%), but slightly below the England average of 71.5%.
- For Key Stage 2 pupils (at 11 years of age), new 2018 data shows 63% achieved the expected standard in Reading, Writing and Maths combined. This is much improved from 54% in 2016, but just below the England average (65%).
- For Key Stage 4 (at age 16), 2018 data shows the average Attainment 8 score per pupil is 45.5 points, up from 44 points in 2017. [Attainment 8 is a student's average achievement across eight subjects, with extra weighting given to maths and English].
- Of the 151 schools in Bristol inspected by Ofsted (December 2018), 78.8% are rated as Good or Better for overall effectiveness.

Adult social care

- At the end of 2018/19, around 6,110 adults were being supported by adult social care. Of these, 65.1% of service users (3,977 people) are supported to live independently in the community, with around 2,135 people in care homes.
- 52% of eligible adult social care service users (around 3,120 people at end 2018/19) receive 'self-directed support' to meet their needs, giving people more choice and control to live their life independently - doing the things they want to do when they want to.
- In addition, around 2,270 carers had received support from adult social care during 2018/19.

Financial Performance

The Council is a large and diverse organisation and our accounts are by their nature technical and complex. This section of the report provides an explanatory narrative to the key elements of the statements and sections in the accounts and also provides a summary of our financial performance of 2018/19.

- The Council collects £218.3m of business rates of which £152m is retained in year by the council. This is net of adjustments including a tariff the council returns to central government. We also collect business rates on behalf of the West of England Combined Authority and Avon Fire Authority.
- The council also collects £240.8m of council tax (on behalf of Avon and Somerset Police and Crime Commissioner, Avon Fire Authority and itself), of which £198.1m is retained in year by the council.
- Council tax in-year collection for 2018/19 reached its highest level ever at 96.82%. This percentage

placed us second across our comparable group of Core Cities. This is a great achievement when the number of cases being sent to enforcement agents continued to fall with a 25% reduction since 2016.

- Business Rate in-year collection rose to 98.31%. Another significant achievement when set against a year of proactive anti-fraud work including a full review of Small Business Rate relief and a backdrop of administering numerous new reliefs.
- The council holds £3.184b of fixed assets, comprising £2.935b of operational assets for delivering services and £0.249b of investment property.
- The council is responsible for managing cashflows with an annual churn exceeding £1.3b.
- The council generates £775m of fees, charges and grants used to deliver services and keep council tax down.

West of England Combined Authority (WECA)

As part of the governments West of England devolution deal Bristol, Bath and North East Somerset and South Gloucestershire Councils agreed to the establishment of the West of England Combined Authority (WECA) to support economic growth and development across the region.

The creation of WECA enables the participating authorities to deliver joint aspirations for the region and take more local control over funding and decision-making. This includes how £900m of investment is spent to improve transport, provide jobs and strengthen adult education as part of the region's devolution deal.

A further benefit includes the opportunity to take part in a 100% Business Rates Retention Pilot. This enables the three Council's to retain the majority of their business rates, in return for significantly reduced core funding from Central Government.

Financial performance

Revenue Financial Summary 2018/19

Revenue expenditure covers the cost of the council's day to day operations and contributions to and from reserves.

Net revenue expenditure across all services was £361.7m. To meet funding challenges in 2018/19 the council identified savings in its net revenue budget of £34.5m. These reductions have been achieved through a combination of ongoing deliverable savings, one-off tactical savings or additional non-recurring income.

The gross cost of services during the year was £1.101b (£1.094b in 2017/18). This includes both General Fund services and the Housing Revenue Account (HRA). After deducting specific grants and income from fees and charges, the net cost of services was £365.3m (£337.4m in 2017/18). The breakdown of net expenditure between the different service areas is shown in the following chart.

Council Spending in £'s per Household

Directorate Net Expenditure (£m)

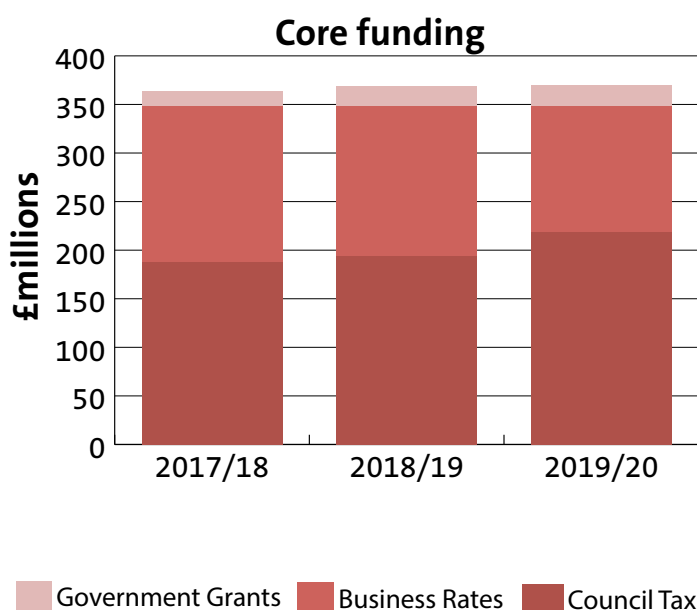

Financial performance

Sources of Funding

2018/19 was the second year the council has been piloting 100% business rates retention. Pilot authorities retain 100% of locally raised business rates. In return they forgo Revenue Support Grant (RSG) and a number of other funding streams. Each pilot authority's tariffs and top-ups calculated by central government are adjusted to ensure the change is cost neutral for central government.

In tandem with this, during the last nine years, there has been a move away from central government core funding towards a greater reliance on locally sourced taxation such as business rates and council tax. The chart below shows where the council gets its core funding.

From 2016/17 the government allowed councils to apply an additional levy on council tax to fund adult social care pressures. In 2018/19 this levy was 2% raising £13m towards social care services.

The budget for 2019/20

Despite an on-going backdrop of increased service costs and reduced central government funding the council is required to set a balanced budget. To meet these pressures the council has had to identify significant savings since 2010 with a further £14m proposed for 2019/20.

In 2019/20 the council will spend over £1.2bn on both capital investments and running day to day services including schools and welfare benefits. Spending by schools and on benefits is largely funded by the government. This specific funding, together with the income the council receives from people who use its services, amount to £670m in 2019/20 leaving a total to spend on day to day services made up of council tax, business rates and some government grants and amounts to £376m.

Further details of the council's budget are included in the Budget Report 2019/20 which is available on the council's [website](#).

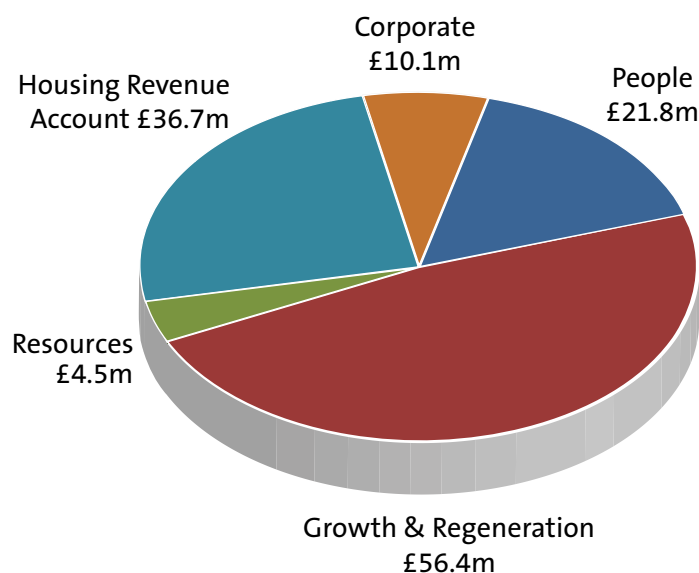

Financial performance

Capital Investment

Capital expenditure forms a large part of our spending. The council has an ambitious capital programme to deliver projects that are fundamental to the council achieving its aspiration to re-shape how we deliver our services, as well as helping to unlock revenue savings and efficiencies to secure our on-going financial stability.

Overall the Capital Programme for 2018/19 was originally set at £244.3m. Capital spending during the year totalled £129.5m. An analysis of capital investment by directorate and sources of capital funding are shown in these charts. The Capital Programme was financed from a combination of borrowing (£32.7m) and from grants, contributions and reserves (£96.8m).

Capital Investment

The major areas of investment have included:

- £35.8m invested in the council's housing stock.
- £33.1m invested in transport schemes including the Metrobus programme, Temple Meads development, A4/A4174, cycling network improvements, traffic infrastructure and maintenance.
- £17.4m invested in schools buildings to provide additional pupil capacity to meet increased demand.
- £12.2m invested in preparatory work and infrastructure development for major projects including Colston Hall refurbishment and Cattle Market Road development.
- £6.7m significant property investment including acquisition of Hawkfield Business Park.
- £6.1m invested in housing enabling works to accelerate the affordable provision including Hengrove and Lockleaze regeneration programmes.

Capital Financing

Financial performance

Housing Revenue Account (HRA)

The HRA Income and Expenditure Statement sets out the financial position for the year, before taking account of the statutory adjustments required to be made to the accounts. The Statement of Movement on the HRA Balance reflects these statutory adjustments and shows how the financial performance for the year has impacted on HRA reserves.

- The HRA Income and Expenditure Statement shows a net surplus for the year of £7.4m.
- The council's housing stock is a ring-fenced landlord account.
- The council manages 26,937 homes.
- The council collected £110.5m in dwelling rent in 2018/19 (£112m in 2017/18).
- The council spent £36.8m in 2018/19 (£32.4m in 2017/18) on new builds and improvements to existing housing stock.

Treasury Management

The 2017–2020 Treasury Strategy identified a medium term borrowing requirement of £370m to support the existing and future Capital Programme. The council's strategy is to defer borrowing while it has significant levels of cash balances (£86m at March 2019).

Deferring borrowing will reduce the 'net' revenue interest cost of the Authority as well as reducing the council's exposure to counter party risk for its investments. The council recognises that utilising investments in lieu of borrowing has a finite duration and that future borrowing will be required to support capital expenditure.

Net debt (borrowing less investment) was £322m at the end of the year. The average level of funds available for investment purposes during the year was £128m. The return for the period was 0.76% compared to the recognised benchmark of 0.51% (seven day Libid average for period).

The council has complied with all treasury management legislative and regulatory requirements during the period and all transactions were in accordance with the approved Treasury Management Strategy.

Pensions

The city council is a member of the Avon Pension Fund. The pension liability as at 31 March 2019 is £978m. This represents the value of what the Council owes across future years offset by the value of assets invested in the pension fund. The pension fund is revalued every three years. The 2016 valuation set contribution rates for three years commencing on 1 April 2017.

The current funding level is an estimated 97%. Employers are paying additional contributions over a period of 17 years in order to meet the shortfall.

Contingencies

The council has set aside a provision of £26.9m within the collection fund for any business rates appeals against rateable values in future years. The increase of £2.9m from 2017/18 reflects the ongoing fact that the council, as a business rates retention pilot, has a significantly greater exposure to the risk of business rates appeals. The annual contribution is in line with government recommendations. There were approximately 403 appeals outstanding at the 31 March 2019.

Financial performance

The Statement of Accounts

The Statement of Accounts is set out in the accompanying document; they consist of the following statements that are required under the Code of Practice.

The Core Statements are:

- **The Comprehensive Income and Expenditure Statement** – this records all the Council's income and expenditure for the year. The top half of the statement provides an analysis by service area. The bottom half of the statement deals with corporate transactions and funding. Expenditure represents a combination of:
 - Service and activities that the council is required to carry out by law (statutory duties) such as street cleaning, planning and registration
 - Discretionary expenditure focussed on local priorities and needs.
- **The Movement in Reserves Statement** is a summary of the changes to our reserves over the course of the year. Reserves are divided into 'usable', which can be invested in capital projects or service improvements, and 'unusable' which must be set aside for specific purposes. We continually review the money we have in reserves for specific purposes to make sure they are at the right levels, and that our reserves continue to meet our needs.
- **The Balance Sheet** is a 'snap shot' of the council's assets, liabilities, cash balances and reserves at the year-end date.
- **The Cash Flow Statement** shows the reasons for changes in the council's cash balances during the year, and whether that change is due to operating activities, new investment, or financing activities (such as repayment of borrowing and other long term liabilities).
- **Group Accounts** - The council is required to produce Group Accounts alongside its own financial statements where it has material interests in subsidiaries, associates and/or joint ventures. The Group Accounts included as part of the Statement of Accounts fully incorporate the results of Bristol Holding Limited, Bristol Waste

Company Limited and Bristol Energy Limited. Full details of the relationship can be found in the Group Accounts section of the Statement.

- Other entities which fall within the group boundary, but which are not consolidated into the Group Accounts as they are not considered to be material, are detailed within the Related Parties note within the Statement of Accounts.

The Supplementary Financial Statements are:

- **The Housing Revenue Account** – this separately identifies the council's statutory landlord function as a provider of social housing under the Local Government and Housing Act 1989.
- **The Collection Fund** summarises the collection of council tax and business rates, and the redistribution of some of that money to Avon Fire Authority, the Avon and Somerset Police and Crime Commissioner and central government.

The Notes to these financial statements provide more detail about the council's accounting policies and individual transactions. Our Annual Governance Statement sets out the governance structure of the council. It summarises the outcome of our review of the Governance Framework that has been in place during 2018/19 and our system of internal control, which is a critical component of our overall governance arrangements.

(Section 151 Officer)**

Statement of Responsibilities

The Authority's Responsibilities

The Council is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Council that officer is the Director of Finance;
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- Approve the Statement of Accounts.

The Director of Finance Responsibilities

The Director of Finance is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Director of Finance has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code.

The Director of Finance has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate of the Director of Finance

I hereby certify that this Statement of Accounts, provides a true and fair view of the financial position, financial performance and cash flows of Bristol City Council for the period ending 31 March 2019.

Independent auditor's report to the members of Bristol City Council

Report on the Audit of the Financial Statements

Opinion

Our opinion on the financial statements is unmodified

We have audited the financial statements of Bristol City Council (the 'Authority') and its subsidiaries (the 'group') for the year ended 31 March 2019 which comprise the Comprehensive Income and Expenditure Statement, the Movement in Reserves Statement, the Balance Sheet, the Cash Flow Statement, the HRA Income and Expenditure Statement, the Statement of movement on the HRA balance, the Collection Fund Income and Expenditure Statement, the group Comprehensive Income and Expenditure Account, the group Movement in Reserves Statement, the group Consolidated Balance Sheet, the group Cash Flow Statement and notes to the financial statements, including the Accounting Policies. The notes to the financial statements comprise the notes to the accounts, the notes to the housing revenue account, the notes to the collection fund income and expenditure account and notes to the group accounts. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC code of practice on local authority accounting in the United Kingdom 2018/19.

In our opinion, the financial statements:

- give a true and fair view of the financial position of the group and of the Authority as at 31 March 2019 and of the group's expenditure and income and the Authority's expenditure and income for the year then ended;
- have been prepared properly in accordance with the CIPFA/LASAAC code of practice on local authority accounting in the United Kingdom 2018/19; and
- have been prepared in accordance with the requirements of the Local Audit and Accountability Act 2014.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report. We are independent of the group and the Authority in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The impact of macro-economic uncertainties on our audit

Our audit of the financial statements requires us to obtain an understanding of all relevant uncertainties, including those arising as a consequence of the effects of macro-economic uncertainties such as Covid-19 and Brexit. All audits assess and challenge the reasonableness of estimates made by the Director of Finance and the related disclosures and the appropriateness of the going concern basis of preparation of the financial statements. All of these depend on assessments of the future economic environment and the group's and Authority's future operational arrangements.

Covid-19 and Brexit are amongst the most significant economic events currently faced by the UK, and at the date of this report their effects are subject to unprecedented levels of uncertainty, with the full range of possible outcomes and their impacts unknown. We applied a standardised firm-wide approach in response to these uncertainties when assessing the group's and Authority's future operational arrangements. However, no audit should be expected to predict the unknowable factors or all possible future implications for an authority associated with these particular events.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Director of Finance's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Director of Finance has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the group's or the Authority's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

In our evaluation of the Director of Finance's conclusions, and in accordance with the expectation set out within the CIPFA/LASAAC code of practice on local authority accounting in the United Kingdom 2018/19 that the Authority's financial statements shall be prepared on a going concern basis, we considered the risks associated with the group's and Authority's operating activities, including effects arising from macro-economic uncertainties such as Covid-19 and Brexit. We analysed how those risks might affect the group's and Authority's financial resources or ability to continue operations over the period of at least twelve months from the date when the financial statements are authorised for issue. In accordance with the above, we have nothing to report in these respects.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the absence of reference to a material uncertainty in this auditor's report is not a guarantee that the Authority or group will continue in operation.

Overview of our audit approach

Financial statements audit

- Overall materiality: £17,500,000, which represents 1.5% of the group's gross expenditure.
- Key audit matters were identified as:
 - Valuation of land and buildings
 - Valuation of net defined benefit pension liability
 - Valuation of long-term investments
- Bristol City Council consolidate their financial statements with those of Bristol Holding Limited, Bristol Waste Company Limited and Bristol Energy Limited to form the group, as in the prior year. Full scope audit procedures of the group's three subsidiary components were performed by a component auditor.

Grant Thornton

Conclusion on the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

- We identified two significant risks in respect of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources in respect of financial planning and future financial sustainability and in respect of governance arrangements at the Authority (see Report on other legal and regulatory requirements section).

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those

that had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter – Authority	How the matter was addressed in the audit – Authority
<p>Risk 1: Valuation of land and buildings</p> <p>The Authority revalues its land and buildings on a rolling five-yearly basis. This valuation represents a significant estimate by management in the financial statements due to the size of the numbers involved and the sensitivity of this estimate to changes in key assumptions. Additionally, management need to ensure the carrying value of land and buildings in the Authority's financial statements that was not valued in year is not materially different from the current value or the fair value of these assets at the financial statements date.</p> <p>We therefore identified the valuation of land and buildings as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>Our audit work included, but was not restricted to:</p> <ul style="list-style-type: none"> evaluating the competence, capabilities and objectivity of the Authority's valuation expert; discussing with the valuer the basis on which the valuation was carried out and challenging the information and assumptions used by the valuer to assess completeness and consistency with our understanding; engaging our own valuation expert to assess the reasonableness of the assumptions adopted by management; testing a sample of revaluations made during the year to determine if they had been input correctly into the Authority's asset register; and evaluating the assumptions made by management for those assets not revalued during the year and how management has satisfied themselves that these are not materially different to current value or fair value at year end. <p>The Authority's accounting policy on the valuation of land and buildings is shown in note (xx) to the financial statements and related disclosures are included in note 19.</p> <p>Key observations</p> <p>As a result of our procedures, the notes to the financial statements were updated to reflect a decrease to the carrying value of Council Dwellings of £27.2 million, an increase to Other Land and Buildings assets of £26.5 million and an increase to Surplus assets of £0.7 million to reflect updated valuations undertaken by the Council's valuer. No adjustment was made to the Balance Sheet as these adjustments netted off.</p> <p>Following the above adjustment, we obtained sufficient audit evidence to conclude:</p> <ul style="list-style-type: none"> the basis of the valuation included in the balance sheet was appropriate and the assumptions and processes used by management in determining the estimate were reasonable; and the valuation of land and buildings recognised in the financial statements is reasonable.
<p>Risk 2: Valuation of net defined benefit pension liability</p> <p>The Authority's pension fund net liability, as reflected in its balance sheet, represents a significant estimate in the financial statements.</p> <p>The pension fund net liability is considered a significant estimate due to the size of the numbers involved and the sensitivity of the estimate to changes in key assumptions.</p> <p>We therefore identified the valuation of net defined benefit pension liability as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>Our audit work included, but was not restricted to:</p> <ul style="list-style-type: none"> understanding the processes and controls put in place by management to ensure that the Authority's pension fund net liability is not materially misstated and evaluating the design of the associated controls; evaluating the instructions issued by management to their expert (an actuary) for this estimate and the scope of the actuary's work;

Key Audit Matter – Authority

How the matter was addressed in the audit – Authority

- assessing the competence, capabilities and objectivity of the actuary who carried out the Authority's pension fund valuation;
- assessing the accuracy and completeness of the information provided by the Authority to the actuary to estimate the liability;
- testing the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuary's report;
- undertaking procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of a consulting actuary (as an auditor's expert) and performing any additional procedures suggested within the report; and
- obtaining assurances from the auditor of the Avon Pension Fund as to the controls surrounding the validity and accuracy of membership data, contributions data and benefits data sent to the actuary by the pension fund and the fund's asset valuation in the pension fund financial statements.

The Authority's accounting policy on the valuation of the net defined benefit pension liability is shown in note (vii) to the financial statements and related disclosures are included in note 32.

Key observations

The pension fund net liability included in the balance sheet was updated to include the additional pension fund liabilities relating to the McCloud / Sargeant legal judgement together with a more up to date estimate of liabilities. This resulted in an increase to the net defined pension liability of £32.7 million.

Following the adjustment above, we obtained sufficient audit evidence to conclude:

- the basis of the valuation included in the balance sheet was appropriate and the assumptions and processes used by management in determining the estimate were reasonable; and
- the valuation of the pension fund net liability recognised in the financial statements is reasonable.

Our audit work included, but was not restricted to:

- discussing the valuation techniques adopted with management and obtaining their calculations for the valuation of the unquoted equity investments; and
- engaging internal valuations experts to assess management's estimates in respect of the unquoted equity investment and the valuation of Bristol Energy Limited.

The Authority's accounting policy on fair value measurement is shown in note (ix) to the financial statements and the Authority's accounting policy on interests in companies and other entities is shown in note (xiii). The related disclosures are included in note 22.

Key observations

We obtained sufficient audit evidence to conclude:

Risk 3: Valuation of long-term investments

The Authority's long-term investments include an unquoted equity investment and also the Authority's investment in its subsidiary, Bristol Energy Limited.

These are by their nature hard to value estimates, and management have estimated their value based upon a range of estimation techniques.

We therefore identified the valuation of long-term investments as a significant risk, which was one of the most significant assessed risks of material misstatement.

Key Audit Matter – Authority

How the matter was addressed in the audit – Authority

- the basis of the valuation included in the balance sheet was appropriate and the assumptions and processes used by management in determining the estimate were reasonable; and
- the valuation of the long-term investments recognised in the financial statements is reasonable.

Our application of materiality

We define materiality as the magnitude of misstatement in the financial statements that makes it probable that the economic decisions of a reasonably knowledgeable person would be changed or influenced. We use materiality in determining the nature, timing and extent of our audit work and in evaluating the results of that work.

Materiality was determined as follows:

Materiality Measure	Group	Authority
Financial statements as a whole	£17,500,000 which is 1.5% of the group's gross expenditure. This benchmark is considered the most appropriate because we consider users of the financial statements to be most interested in how the group has expended its revenue and other funding. Materiality for the current year is lower than the level the previous auditor determined for the year ended 31 March 2018.	£16,500,000 which is 1.5% of the Authority's gross expenditure. This benchmark is considered the most appropriate because we consider users of the financial statements to be most interested in how the Authority has expended its revenue and other funding. Materiality for the current year is lower than the level the previous auditor determined for the year ended 31 March 2018.
Performance materiality used to drive the extent of our testing	70% of financial statement materiality	70% of financial statement materiality
Specific materiality	We determined a lower level of specific materiality for director remuneration disclosures.	We determined a lower level of specific materiality for senior officer remuneration disclosures.
Communication of misstatements to the Audit Committee	£875,000 and misstatements below that threshold that, in our view, warrant reporting on qualitative grounds.	£825,000 and misstatements below that threshold that, in our view, warrant reporting on qualitative grounds.

The graph below illustrates how performance materiality interacts with our overall materiality and the tolerance for potential uncorrected misstatements.

Overall materiality – Group

Overall materiality – Authority

■ Tolerance for potential uncorrected mis-statements ■ Performance materiality

An overview of the scope of our audit

Our audit approach was a risk-based approach founded on a thorough understanding of the group's business, and in particular included:

- Evaluation by the group audit team of identified components to assess the significance of that component and to determine the planned audit response based on a measure of materiality and significance of the component as a percentage of the group's gross revenue expenditure, income, assets, liabilities and equity;
- Gaining an understanding of and evaluating the group's internal control environment, including its financial and IT systems and controls;
- Performance of full scope audit procedures for the Authority; and
- Issuing group instructions to component auditors in respect of their audits of Bristol Holding Limited, Bristol Waste Company Limited and Bristol Energy Limited for the year ended 31 March 2019 and evaluating the results of their audits to provide us with assurance over the components as group auditor.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

The objectives of our audit are to identify and assess the risks of material misstatement of the financial statements due to fraud or error; to obtain sufficient appropriate audit evidence regarding the assessed risks of material misstatement due to fraud or error; and to respond appropriately to those risks. Owing to the inherent limitations of an audit, there is an unavoidable risk that material misstatements in the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (UK).

In identifying and assessing risks of material misstatement in respect of fraud, including irregularities and non-compliance with laws and regulations, our procedures included the following:

- We obtained an understanding of the legal and regulatory frameworks applicable to the Authority and the group and sectors in which they operate. We determined that the following laws and regulations were most significant:
 - the Accounts and Audit Regulations 2015
 - the Local Government Finance Act 1988
 - the Local Government Act 2003.
- We understood how the Authority and the group is complying with those legal and regulatory frameworks by making inquiries to the Authority's legal team and internal auditors. We corroborated our inquiries through our review of papers provided to the Audit Committee.
- We assessed the susceptibility of the Authority's and group's financial statements to material misstatement, including how fraud might occur. Audit procedures performed by the group engagement team and component auditors included:
 - identifying and assessing the design effectiveness of controls management has in place to prevent and detect fraud;
 - understanding how those charged with governance considered and addressed the potential for override of controls or other inappropriate influence by management over the financial reporting process;
 - challenging assumptions and judgments made by management in its significant accounting estimates, such as the assumptions relating to the valuation of property, plant and equipment and the assumptions applied to the estimation of the net defined benefit pension liability; and
 - identifying and testing journal entries, in particular any journal entries posted which we deemed to be unusual.

We communicated relevant laws and regulations identified at group level to the component auditors and both the group engagement team and component auditors performed the audit

procedures as above. Any instances of non-compliance with laws and regulations were communicated by/to components and considered in our audit approach, if applicable.

- We did not identify any key audit matters relating to irregularities, including fraud.

Other information

The Director of Finance is responsible for the other information. The other information comprises the information included in the Statement of Accounts, other than the Authority and group financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge of the group and Authority obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Other information we are required to report on by exception under the Code of Audit Practice

Under the Code of Audit Practice published by the National Audit Office on behalf of the Comptroller and Auditor General (the Code of Audit Practice) we are required to consider whether the Annual Governance Statement does not comply with the 'Delivering Good Governance in Local Government: Framework (2016)' published by CIPFA and SOLACE or is misleading or inconsistent with the information of which we are aware from our audit. We are not required to consider whether the Annual Governance Statement addresses all risks and controls or that risks are satisfactorily addressed by internal controls.

We have nothing to report in this regard.

Opinion on other matter required by the Code of Audit Practice

In our opinion, based on the work undertaken in the course of the audit of the financial statements and our knowledge of the Authority gained through our work in relation to the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources, the other information published together with the financial statements in the Statement of Accounts for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

Under the Code of Audit Practice, we are required to report to you if:

- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make a written recommendation to the Authority under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or;
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014, in the course of, or at the conclusion of the audit.

We have nothing to report in respect of the above matters.

Responsibilities of the Authority, the Director of Finance and Those Charged with Governance for the financial statements

As explained more fully in the Statement of Responsibilities set out on page 22, the Authority is required to make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this authority, that officer is the Director of Finance. The Director of Finance is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC code of practice on local authority accounting in the United Kingdom 2018/19, for being satisfied that they give a true and fair view, and for such internal control as the Director of Finance determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Director of Finance is responsible for assessing the group's and the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless there is an intention by government that the services provided by the Authority will no longer be provided.

The Audit Committee is Those Charged with Governance. Those Charged With Governance are responsible for overseeing the Authority's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Authority's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Other matters which we are required to address

We were appointed by Public Sector Audit Appointments Ltd in December 2017 to audit the financial statements for the year ending 31 March 2019 and subsequent financial periods. This is our first year of uninterrupted engagement.

The non-audit services prohibited by the FRC's Ethical Standard were not provided to the Authority or its subsidiaries and we remain independent of the Authority and the group in conducting our audit.

The non-audit services delivered during the course of the 2018/19 financial year are as follows:

- Agreed-upon procedures in relation to the Housing Benefit Subsidy Claim and the Teachers' Pensions returns for 2018-19;
- Agreed-upon procedures in relation to the Pooling of Housing Capital Receipts return for each of the financial years for 2015-16 to 2018-19;
- Agreed-upon procedures in relation to the Strategic School Improvement Fund grant for the Department for Education;
- 'Brexiteer Room' – Facilitated workshop in respect of Brexit planning; and
- Smart Meter Installation Code of Practice (SMICoP) compliance review for Bristol Energy Limited

Our audit opinion is consistent with the additional report to the Audit Committee.

Report on other legal and regulatory requirements – Conclusion on the Authority’s arrangements for securing economy, efficiency and effectiveness in its use of resources

Conclusion

On the basis of our work, having regard to the guidance on the specified criterion issued by the Comptroller and Auditor General in November 2017, we are satisfied that the Authority put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2019.

Significant risks

Under the Code of Audit Practice, we are required to report on how our work addressed the significant risks we identified in forming our conclusion on the adequacy of the Authority’s arrangements for securing economy, efficiency and effectiveness in its use of resources. Significant risks are those risks that in our view had the potential to cause us to reach an inappropriate conclusion on the audited body’s arrangements. The table below sets out the significant risks we have identified. These significant risks were addressed in the context of our conclusion on the Authority’s arrangements as a whole, and in forming our conclusion thereon, and we do not provide a separate opinion on these risks.

Significant risks	How the matter was addressed in the audit
<p>Risk 1: Financial planning and future financial sustainability</p> <p>The Authority continues to need to meet the challenges of increasing demand for certain services against a backdrop of reducing Government funding as a reflection of the continued effects of austerity. The Authority’s medium-term financial plan identifies revenue shortfalls in the short to medium term that will require financing. The Authority also has a significant capital programme over the medium term that will be key to ensuring the Authority achieves its role in shaping the city. Given the wider financial pressures and a history of significant underspends on the capital budget, there is a risk that the Authority may find it difficult to fulfil its capital programme or do this in accordance with its planned schedule.</p> <p>The Authority also need to ensure that their future financial plans and the assumptions that underpin them remain realistic and sustainable. If they are not, there is a risk that the Authority does not deliver balanced budgets in the short to medium term and that the Authority’s resource deployment is not sustainable. The key areas of focus include the delivery of the planned break-even revenue budget in 18/19, the arrangements for monitoring and managing the budget, the arrangements of developing the 19/20 budget and MTFP and the adequacy of reserves levels.</p>	<p>Our audit work included, but was not restricted to:</p> <ul style="list-style-type: none"> • reviewing the Authority’s revenue outturn position, including the balance between recurrent and non-recurrent steps taken in delivering the outturn; • assessing the arrangements for monitoring and managing delivery of budget and savings plans for 2018/19; • reviewing the Authority’s arrangements for developing and agreeing its 2019/20 budget and updated medium term financial plan, including the identification of savings plans, and considering the level of risk associated with these plans; • assessing the adequacy of the Authority’s reserves; and • reviewing the Authority’s capital planning and reporting arrangements and considering how these link to the Authority’s growth and regeneration plans. <p>Key findings</p> <p>The 2018/19 revenue budget outturn was an underspend of £3.2 million (0.9%) against the revised balanced budget, after transfers to reserves. The Authority actively monitored and managed the budget through 2018/19 to deliver this outturn position. To balance the budget, the Authority budgeted for £34.5m of savings. £29.1m of these were delivered on an on-going basis with the remaining £5.4m delivered using non-recurrent methods.</p> <p>The Authority approved a balanced 2019/20 general fund revenue budget which totals £376.2 million, a net increase of £12.8 million from 2018/19. The Authority projects balanced budgets for 2020/21 and 2021/22 in its MTFP also. No new savings were required to deliver the balanced revenue budget in 2019/20 over those previously identified and agreed.</p> <p>The Authority held £23.5 million in its general fund at 31 March 2019, and an additional £81.2 million of</p>

Significant risks

How the matter was addressed in the audit

earmarked revenue reserves. The Authority projects that its general fund will remain at 5-6% of the net revenue budget over the medium term.

The capital programme to 2023/24 is fully funded, with total planned expenditure of £858m and this incorporates any slippage from prior years.

Risk 2: Governance arrangements at the Authority.

In March 2019 the previous auditor issued Statutory Recommendations under Schedule 7 of the Local Audit and Accountability Act 2014 following a review of senior officer remuneration.

The Authority also has a number of other recommendations that have arisen through external reviews, such as the report issued by Steve Bundred in 2017 entitled 'Review of 2016/17 Forecast Budget Deficit' ('the Bundred report'), along with recommendations and actions that have been reported in the Annual Governance Statements in the Statement of Accounts.

The Authority need to ensure that the recommendations raised are responded to appropriately the key risk is that the Council fails to implement adequate governance arrangements.

Our audit work included, but was not restricted to:

- reviewing the Authority's progress against its action plan and the Statutory Recommendations issued in March 2019;
- reviewing actions taken against the Annual Governance Statement tracker, including the progress of actions taken against the recommendations from 'the Bundred report'; and
- understanding the Authority's wider governance structure to ensure that this is appropriate.

Key findings

The Authority has responded to the Statutory Recommendations issued in the prior year, updating Terms of Reference and policies as appropriate.

In the period to 31 March 2019 the Authority continued to complete and close the remaining outstanding actions from 'the Bundred report' and has also continued to complete the other agreed actions as reflected in the Annual Governance Statement trackers.

The governance arrangements of Authority companies has continued to evolve throughout the year to 31 March 2019.

Responsibilities of the Authority

The Authority is responsible for putting in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities for the review of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to be satisfied that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criterion issued by the Comptroller and Auditor General in November 2017, as to whether in all significant respects, the Authority had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The Comptroller and Auditor General determined this criterion as that necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether the Authority put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2019.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to be satisfied that the Authority has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

Report on other legal and regulatory requirements - Delay in certification of completion of the audit

We cannot formally conclude the audit and issue an audit certificate in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice until we have completed the work necessary to issue our Whole of Government Accounts (WGA) Component Assurance statement for the Authority for the year ended 31 March 2019. We are satisfied that this work does not have a material effect on the financial statements or on our conclusion on the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2019.

Use of our report

This report is made solely to the members of the Authority, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our audit work has been undertaken so that we might state to the Authority's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's members as a body, for our audit work, for this report, or for the opinions we have formed.

Annual Governance Statement 2018-19

Annual Governance Statement 2018/19

Purpose of Statement

The purpose of this Annual Governance Statement (AGS) is to provide an overview of how the Council's governance arrangements operated, during the period 2018-19 and the subsequent period, up to the sign off of the 2018/19 financial statements and how the Council has reviewed the effectiveness of these arrangements. This statement includes an appraisal of the key controls in place to manage the principal governance risks. Where significant governance issues are identified, an explanation of what actions have been taken to bring about required improvement and the work still to be undertaken are recorded in an action plan.

It also meets the requirements of the Accounts and Audit Regulations 2015, which require the Council to publish an AGS in accordance with proper practice in relation to internal control.

The draft statement was presented to Directors and to the Audit Committee in May 2019, following which the statement has been finalised and formally approved.

Scope of Responsibility

We, the Council, are responsible for ensuring that our business is conducted in accordance with the law and proper standards, and for ensuring that public money is safeguarded, properly accounted for and used economically, efficiently and effectively. We also have a duty under the Local Government Act 1999 to continually review and improve the way we work, while at the same time offering value for money and an efficient and effective service.

What is Governance?

"Governance comprises the arrangements put in place to ensure that the intended outcomes for stakeholders are defined and achieved."

The Code of Corporate Governance

The Council has approved and adopted a Code of Corporate Governance (the Code) which was refreshed and approved by the Audit Committee in January 2018. The Code is consistent with the principles of the Chartered Institute of Public Finance and Accountancy / Society of Local Authority Chief Executives (CIPFA/SOLACE) Framework - Delivering Good Governance in Local Government.

A copy of the Code is available on the Council's website. This statement explains how the Council has complied with the Code.

1 The Governance Framework

The governance framework comprises the systems and processes, culture and values, by which the authority is directed and controlled and its activities through which it accounts to, engages with and leads the community.

The approach to governance, takes account of the environment in which the Council now operates; its aim is to ensure that resources are directed in accordance with agreed policy and according to priorities, that there is sound and inclusive decision making and that there is clear accountability for the use of those resources in order to achieve desired outcomes for service users and communities.

- All Members have an important role to play in representing their constituents, as well as acting together as the Council.
- Officers serve the Council as a corporate body rather than any political group, combination of groups or individual member.

Members and Officers should work in an atmosphere of mutual trust and respect. Members determine the Council's policies and Officers are responsible for implementing decisions taken by the Council, Mayor, Cabinet and/or the appropriate committee as well as taking decisions delegated to them under the Scheme of Delegation. Committees review and scrutinise decisions, they cannot start or stop executive action but can challenge reasonably holding Members and officers to account.

In discharging these duties all parties should act in an open, honest and transparent manner. The Council must seek to ensure that the highest standards are met and that governance arrangements are not only sound but are seen to be sound.

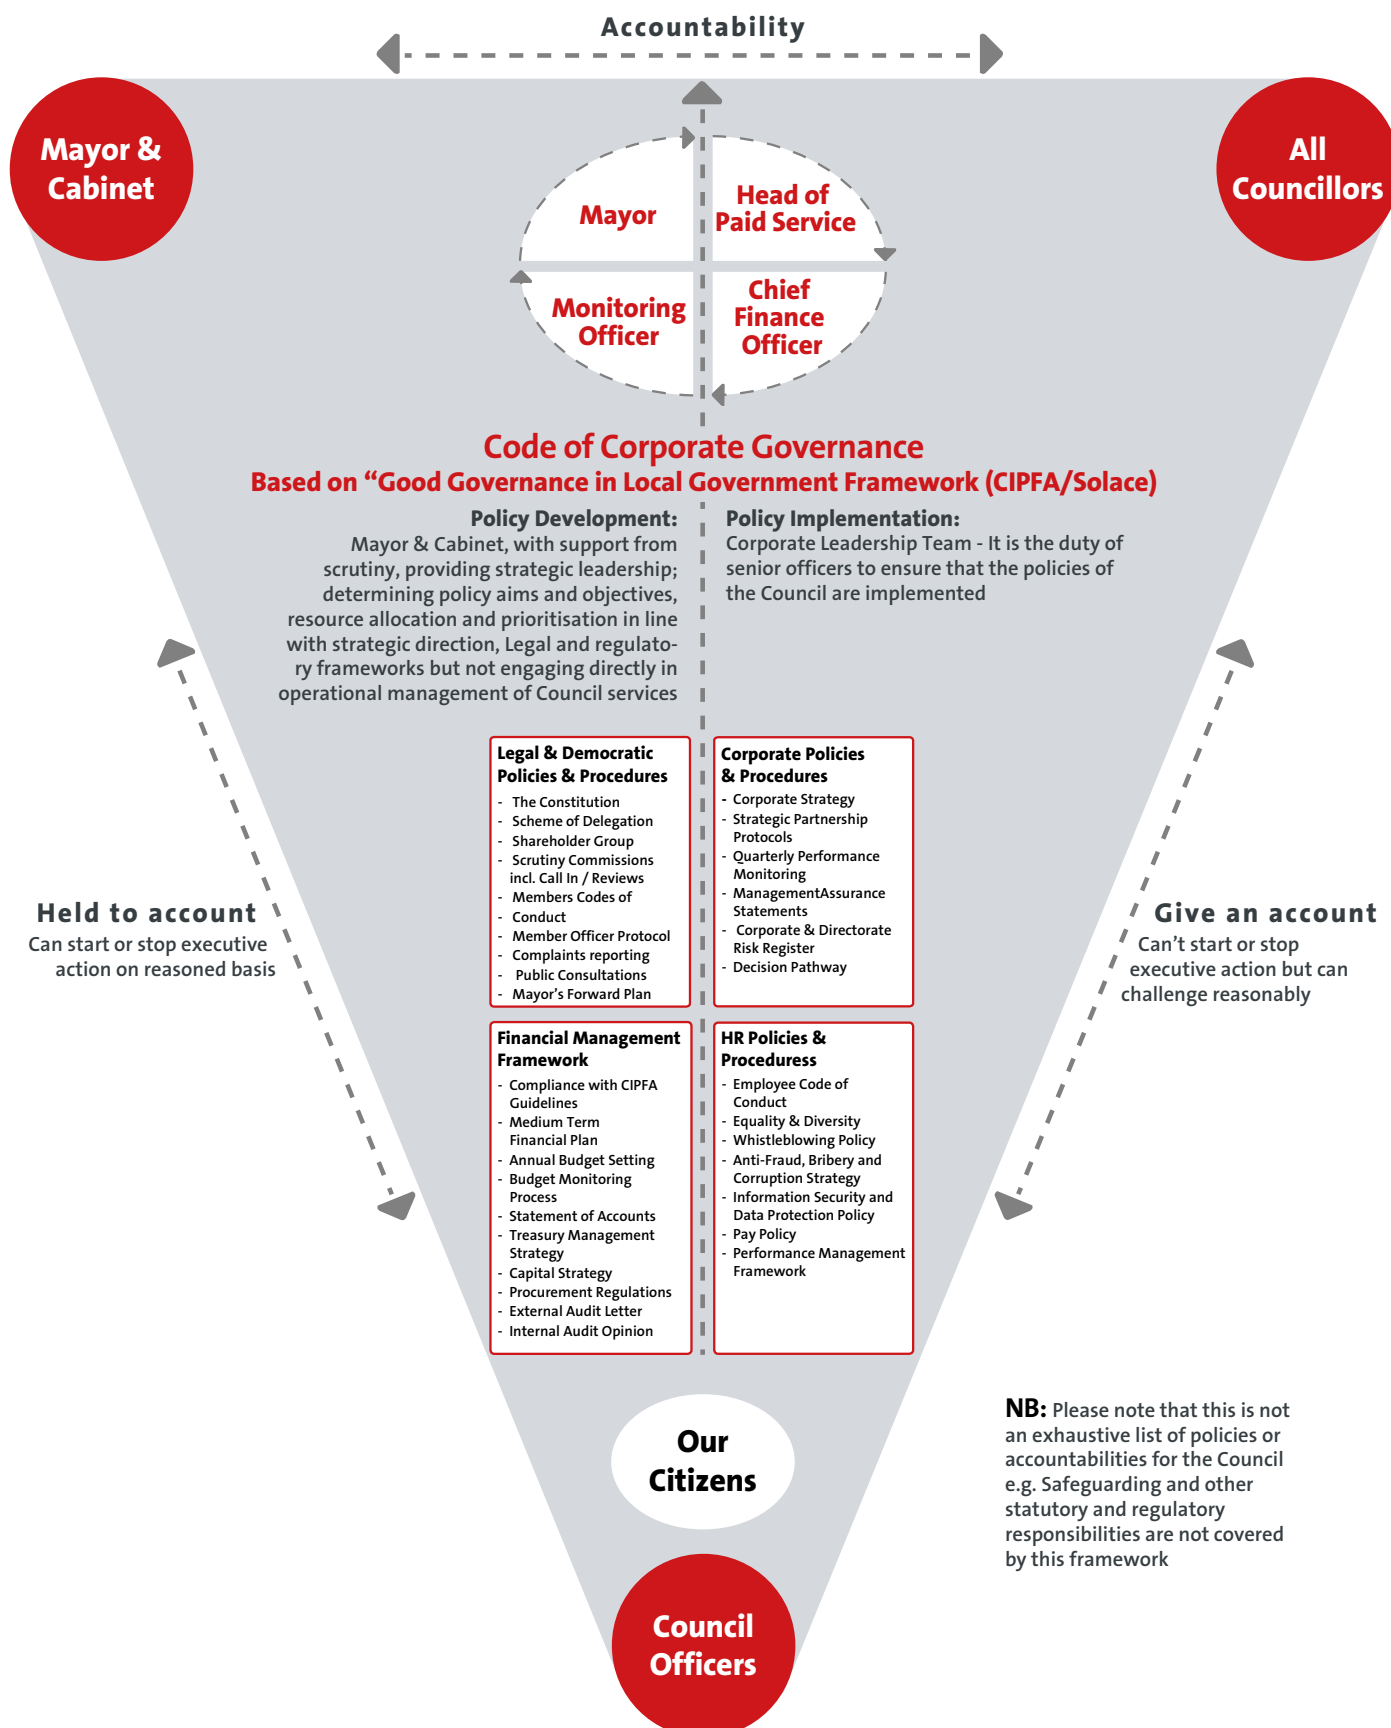

Legislation requires that certain functions be exercised by a 'proper officer'. The functions of the Mayor, Executive, Head of Paid Service, Chief Finance Officer (S151), Monitoring Officer and Statutory Scrutiny Officer are outlined in the Council's Constitution.

Accountability within the Governance Framework

O&S Management Board and Audit Committee

2 Statement - How did we do?

The Council is making good progress on its improvement journey, at the heart of which is the desire to deliver the best possible services and outcomes for the residents of Bristol. This is against a backdrop of pronounced financial pressures, increasing demand for public services and scarce resources.

One City Plan

In January 2019 Bristol published its first ever **One City Plan**, developed by many different partners covering almost every aspect of life in Bristol. The plan is built on six themes and thematic boards made up of its partners that have been instrumental in setting the vision and timelines. The City Boards will support the delivery of the One City Plan and bring together a number of existing partnership boards in 2019 to which the Council is aligned.

The Corporate Strategy 2018 – 2023

The **Corporate Strategy 2018 – 2023** sets out the council's contribution to the city as part of the One City Approach and is our main strategic document outlining what we do and how we plan and prioritise our resources for the future. This is providing the framework for strategic business planning, with the annual Business Plan making clear how the strategy is being delivered and an associated Performance Framework detailing how progress is measured. The Business Plan is derived from service and team planning, creating a 'golden thread' that at its best should run through to each employee's objectives.

Capital Strategy

The Council adopted a **Capital Strategy** in 2018 to provide a framework for planning and decision making to ensure capital expenditure and investment decisions are affordable, prudent and sustainable. The Capital Strategy sets out how capital investment will play its part in delivering the long term strategic objectives of the Council and how associated risk is managed. It covers all capital expenditure and capital investment decisions, not only as an individual authority but also those entered into under group arrangements. Due to timing it was developed as an outline strategy and will be refreshed annually in line with the Medium Term Financial Plan (MTFP) and Treasury Management Strategy, to better reflect the long term aspirations of the One City Plan and other strategies, including asset management.

Bristol Local Plan

The draft **Bristol Local Plan** was published for consultation between 18th March 2019 and 24th May 2019. The Draft Local Plan; review policies that promote advancement in sustainability, identify locations for increased housing development, reinforce protection for open spaces and support employment locations. Policies will guide development to ensure a sustainable and inclusive future for residents, enable a reduction in inequality and deprivation, enable improved accessibility and continued growth of the city as a regional economic centre. Consultation has resulted in responses from over 900 individuals and organisations, with a range of drop-in events and community and interest groups across the city. The next step thereafter will be consideration by Full Council.

The key areas of reflection for 2018/19

Senior Leadership Team

- Responding to the challenges and opportunities facing the Council over the medium term requires a **Senior Leadership Team** structure that is flexible, has the capacity to deliver strategic options and ensure excellent outcomes in service delivery. The new structure created a smaller strategic leadership team accountable to Members for the overall organisation performance, delivery of the agreed outcomes and creation of functional service areas with clear responsibility for delivery of specific services. The restructure facilitated permanent appointments to a number of key roles including the Executive Director Resources, Head of Paid Service and Interim appointments for key hard to fill roles (with permanent recruitment anticipated in 2019) and sought to formalise the leadership skills, values and management standards by which the organisation expects the senior management to achieve. It is recognised that the instability was unsettling for some members of our workforce and that changing strategic direction and resource gaps could have exposed the Council to risks. Senior officers are clear in the vision, priorities, values, accountability and ownership of the Council's improvement agenda and that the structural changes will need to be matched by system and cultural changes.

Through the improvement work undertaken the Council has started to develop a level of maturity in inviting challenge and benchmarking with peer authorities. To that end, the Council has commissioned support from key national bodies such as the Local Government Association (LGA) and the Chartered Institute of Public Finance and

Accountancy (CIPFA). This has taken a 'value-added' approach rather than replicating day-to-day governance arrangements, to avoid duplication of work.

LGA Corporate Peer Review

- **LGA Corporate Peer Review** - A formal peer challenge was undertaken in 2018 and examined the Council's leadership, governance, financial planning and capacity to deliver its priorities. An assessment was made of the progress and identified further areas for improvement. The outcome of the review gave external validation of improving culture and strengthening leadership, improved budget management and a better grip on our finances. However, churn in senior leadership had diluted managerial capacity and impacted on both the Council and on working effectively with partners. A new executive team is starting to address this but there remain a significant number of managers who are interims. The review also identified opportunities for developing a systemised approach to learning and reviewing the balance of control processes and empowerment and accountability. An action plan was developed to meet the recommendations, approved by Cabinet January 2019 and its implementation will be reviewed by Cabinet bi-annually.

CIPFA

- **CIPFA** has and will be continuing to provide a personalised programme of support to the finance function, focusing on building strategic financial capability and capacity and good governance. This commenced with the development of a financial competency framework and development assessments for the finance function.

External Auditors

- The Council's **External Auditors** independently audit the Council and provide an opinion on the truth and fairness of the financial statements, the Council's use of resources and provide a value for money judgement. The External Auditors for the year ended 31st March 2018 were BDO. The Council's audit for that year was delayed. The review of the Senior Executive Remuneration, which concluded in March 2019, found that it was inappropriate to conclude that all of the final payment made to the former Chief Executive was contractual. A number of statutory recommendations were made. Statutory recommendations are covered by Schedule 7 of the Local Audit and Accountability Act 2014 and as such, must be considered by Council. The points were considered and the action plan developed was agreed by Council. These actions have been implemented in 2019 and reported to Council by the Head of Paid Service. Ongoing monitoring of these arrangements will be undertaken by the Council's new External Auditors (Grant Thornton).
- Given the above, BDO have issued a qualified 'except for' use of resources conclusion for 2017/18, and whilst this is an improvement on prior year conclusion it remains, disappointing given the journey to date. An unqualified opinion has been issued by BDO for the 2017/18 accounts and we will respond to any improvements suggested in the ISA260 report.

Special Educational Needs and Disabilities (SEND)

- A judicial review found that we did not follow the correct process when proposing to Council the Dedicated Schools Grant (DSG) Budget and recovery plan being co-developed for addressing the historic deficits and enable a sustainable position to be achieved within the funding provided by government for

Children with Additional Educational Needs and **Special Educational Needs and Disabilities (SEND)**.

We accepted that mistakes were made; we are drawing up a new plan in consultation with families, schools and partners and changed the 2018/19 accounting treatment to reflect the 'spending envelope' actually provided by government noting the flexibility to overspend, as had occurred in previous financial years as opposed to a budget which forecast a move towards a balanced outturn. We need to overcome the issues we are facing, from increasing demand for statutory plans to a chronic shortage of sufficient, sustainable funding from Government.

Internal Auditors (IA)

- The Council's Internal **Auditors (IA)** provide an objective opinion on the degree to which the internal control environment supports and promotes the achievements of the Councils' objectives, by evaluating the adequacy of governance, risk management and internal controls through their scheduled audit work. A limited assurance conclusion was reached for 2018/19, which indicates that there are some weaknesses in the internal control system which could put the delivery objectives at risk. This is a 3 year decreasing trend and the senior leadership team have delved further into the details to obtain greater clarity as to the root of the issue and consider the improvement actions required.

The following three themes were noted:

- Greater transparency, openness and self-identified concerns from management have improved the risk based focus being applied by IA. Following the reviews and embedded assurance work the findings have provided support to service leads on the actions required to rectify the issues. This should continue to be encouraged along with a continuation of the trend

in the number of IA recommendations actually implemented following these reviews.

- Complexity of the landscape of systems and processes was another key contributing factor. Many of the systems and processes were not efficient enhancing the potential for error and exposure to risks. Some of which would benefit from replacement, rationalisation or integration into core systems and platforms that would reduce the level of manual interventions and officer resource. The IT Transformation Programme has been established with an ITTP Board to oversee the programme and delivery partner engaged to realign the operating model to the business and drive Line of Business system rationalisation and improvements. Similarly additional resources and capacity is being commissioned to support the Procurement work programme and enhance skills, functionalities and efficiencies across the business.
- Pace of organisational change and lack of resilience has on occasion resulted in loss of management information, gaps in business knowledge, need for wider training and development and inconsistency in approach. Via the Organisational Improvement action plan we are seeking to improve processes and policies, internal communication and engagement, continue the development of our teams and individuals. We believe that this will create the conditions that enable the improvements we seek.

We recognise that the above are not short term actions but much wider programmes and work streams that are in train, and whilst led corporately will require the support and input of teams and managers across the Council to be successful.

Overview & Scrutiny Management Board

- **Overview & Scrutiny Management Board** agreed a work programme for 2018-19, after taking into consideration areas proposed by the portfolio holders and Executive Directors. Scrutiny Task & Finish groups undertook a number of reviews and provided valuable input into some specified areas of policy development e.g. Social Value and the MTFP / annual Budget process. This demonstrates how effective a Task & Finish group can be in delivering priority objectives, when there is a clear scope, consistency in attendees engaged for the duration, well constituted and efficiently chaired.

Consultation

- The Council has throughout the year continued to engage and consult with residents, listening to their feedback on how they feel we are performing. This included formal feedback mechanisms such as the Residents' Survey and our various consultations which have provided a range of opportunities for residents to influence services, spending and decision making.

Delivery of Plans:

- **Delivery of Plans:** The resources and commitment required across the organisation in getting the basics right, stabilise, restructure and redesign services to facilitate our transformation should not be underestimated. This impacted on the capacity to twin track baselining activities with the delivery of the wide ranging strategic priorities, action and improvement plans. A huge amount has been achieved which can be overshadowed by improvements 'still to go' and areas where 'we are just not there yet'.

Budget Savings

- The Council is aware that some of the implementation plans in support of budget savings were not as advanced in their depth, rigour and with assurance regarding capacity to deliver, as would be ideal when developing budgets. However, the analysis of feasibility and risk in the budget process represents a clear step forward for the Council. Continued challenge and support has been provided through the Project Management Office, senior officers and political leadership, following which collectively £30.8m (72%) of the savings / efficiencies identified have been delivered. Similarly the Council has recognised the importance of bridging beyond solely project managing delivery of savings, and is increasingly adopting a one Council approach to the programme management of change, transformation and for 2019 Capital management.

Significant Governance Issues

- As is the case with some plans, the activities included within it may be subject to change. This can be as a result of changes in the external environment that guides the work, as well as the internal environment that dictates whether the Service has the capacity to achieve its stated objectives. 6 significant governance issues identified in previous Annual Governance Statements have been carried forward together with their relevant actions. These activities require incremental change and positive movement has taken place in these areas, however they require further work and/or recalibration of actions and timescale. The Council is committed to progressing agreed actions in 2019 and delivering the fundamental changes required. A further assessment has been undertaken to inform the action plan in the updated version of the report for the July Audit Committee.

There remains much to do and there is no room for complacency. The Council must ensure that it builds on the substantial progress that has already been made, prioritises activities and resources to address the proposals for improvement, maintains momentum and preserves a concerted approach to good governance, prudent financial discipline and transparency. We will continue to develop our use of intelligence, data analysis and insight to ensure that our decision making rests on a solid evidence base, allowing us to move confidently and decisively to improve service delivery outcomes and ensure that changes are sustainable and run through all levels of the organisation.

3 Review of Effectiveness

The Council has responsibility to review the effectiveness of its governance. This review has been co-ordinated by the Internal Audit Team and included managers from each Directorate collating, reviewing and evidencing compliance and identifying any governance improvements required within their areas. Issues identified by an employee survey, External Reviews, Internal and External Audit were also considered for inclusion in this statement. Key officers, including the s151 Officer, were also consulted. Where the issues identified are considered significant, these will be outlined in the 2018/19 Annual Governance Statement action plan.

Effective Interventions and Decision Making

The **Constitution** establishes how the Council operates, outlining the roles and responsibilities of the executive, non-executive, scrutiny functions. It sets out the terms of reference for each of the Committees and includes a schedule of matters reserved for decision by Full Council and delegation arrangements to Members and Officers. Supporting procedures underpin the Constitution for example Financial Regulations, Contract Procurement Rules, Member/Officer Protocols and other procedures of how decisions are taken. A number of protocols and guidance notes which flow from these documents need to be refreshed to ensure consistency and avoid confusion with implementation.

All Council and Committee meetings are held in public other than in limited circumstances where consideration of confidential or exempt information means the public are excluded.

The **Cabinet** is responsible for the key decisions of the Council. The Cabinet met frequently and made decisions in line with the Council's overall policies and budget.

The **Mayor** holds executive decision making powers in relation to all policy decisions not reserved for the Council. Requests made by Councillors for greater visibility of future decisions has resulted in the Cabinet decision that the Forward Plan, recording decisions due to be taken, will be maintained four months in advance of decisions. This allows for increased opportunity to scrutinise decisions and gives greater transparency. The plan is kept under review and published monthly. The Mayor will take (or delegate to Cabinet members) key decisions in public.

Delegation of decision making to officers is detailed in the Scheme of Delegations so that they can deal with the day-to-day running of the service. An internal audit review of delegation schemes identified that they require updating to take account of revised directorate structures and that control procedures were not in place to ensure scheme revisions are completed in an expedient and effective manner.

Decision Pathway

A 'Decision Pathway' was in place during the year to support the decision making process aiming to ensure that decisions were lawful, properly consulted and made based on full and accurate information. Gateways in the decision making process provide assurance that the process is followed.

Practical application of the pathway however identified that, whilst some improvements during 2018/19 were made, it is still causing delays in delivery and the need for timely and regular engagement with the relevant professionals from inception to completion is not consistently understood. Communication and training will be key to improving the effectiveness of the pathway going forward. Ownership and accountability of previous decisions has also been an issue with changes in management.

An internal audit review of business cases confirmed that improvements had been made to strengthen the quality of decision making.

Records

Records - Decisions made by Committees, Council and Cabinet, (under their delegated powers) are recorded and published online for transparency. Senior Officers decisions (with a value of £100K to £499K) are recorded in meeting minutes, including meetings with the Executive Member and the relevant management team.

An audit review of the publishing of Officer Executive decisions has been undertaken. Improvements recommended as a result of this review have been fully implemented and seen improved guidance and communication of requirements refreshed, greater clarification of the type of decision being taken (Cabinet or Officer) included in papers and quarterly monitoring by the Monitoring Officer.

Consulting Members

Consulting Members in decision making is a core part of the democratic process. Cabinet Members are engaged through a variety of methods including weekly Cabinet Member/Portfolio holder briefings. Action points and decisions made at these meetings are recorded. Scrutiny is the main mechanism for enabling other Members to engage in decision making processes.

The Council publishes a calendar of meetings for decisions to be made in the next four months and deadlines are in place for the submission of agenda items. Agendas and reports are produced promptly and provided to the relevant Members 7 days in advance of decisions unless the need has arisen to use the special urgency provisions. Where urgency provisions are used, this must be reported to Cabinet.

The decisions of the Cabinet are subject to scrutiny through the Overview and Scrutiny Management Board and can be 'called in' to ensure that they are soundly based and consistent with Council policy.

Following Members' ongoing review of scrutiny arrangements, a combination of Scrutiny Commissions and Task and Finish Groups are in place in addition to the Overview and Scrutiny Management Board. The task and finish groups were not public meetings; the groups included wide Member involvement and aimed to undertake 'deep dives' of identified areas with a view to service or policy improvement.

The Overview and Scrutiny Management Board

The Overview and Scrutiny Management Board, which met 10 times (originally agreed meetings 6) during 2018/19, will continue to meet going forward and will overview the work of the other scrutiny commissions.

The 2018/9 Scrutiny Task and Finish

Groups were:

- Assets
- Procurement, Social Value and SME's
- Budget and Medium Term Financial Plan
- SEND
- Vulnerable People*

The groups had varying degrees of success which should feed into the learning for the 2019 programme. **Not yet met*

Human Resources Committee

The role of the **Human Resources Committee** includes the employment and remuneration of Executive Directors and Directors. Full Council has delegated to the Committee the power to determine the terms and conditions on which employees hold office including procedures for their dismissal and functions relating to local government pensions. Terms of reference for the Committee are currently being reviewed following recommendations from the Council's external auditor (referred to above).

The Audit Committee

The **Audit Committee** meets independently of the Executive and Scrutiny functions. Whilst it has no routine decision making authority (outside of approving the annual statement of accounts), it provides assurance to Full Council that decision making processes are sound. A key purpose of the Audit Committee is to hold officers and the Executive to account where decision making and risk management processes have not been robust.

The West of England Combined Authority (WECA)

The West of England Combined Authority (WECA) is a separate legal entity, made up of three local authorities and West of England elected Mayor, working in partnership to deliver region's transport, housing, adult education and skills and wider economic growth. WECA has raised the profile of our region with central government and in addition to the £30m per year from our devolution deal; WECA has secured further infrastructure investment. WECA also provides support to the West of England LEP Board and to the West of England Joint Committee, which includes North Somerset Council.

Scrutiny and Audit Committees have been established to scrutinise and hold to account the new Combined Authority and West of England Mayor. The relationship has matured over the year, more collegiate and good progress being made with the strategies and planning. Decision making timetables between WECA/Joint Committee and the Council have been aligned with the Council's own decision pathway.

Behaving with Integrity, Openness and Transparency

Monitoring Officer

The Council's **Monitoring Officer** has legal responsibility to look into matters of potential unlawfulness and has confirmed that there has not been the need to make a report concerning any proposal, decision or omission, that would give rise to unlawfulness or maladministration, since his appointment in November 2018. Decisions have been made in accordance with the relevant policy framework.

However, a high court concluded that the Council's decision regarding budget allocation of the SEND resource was unlawful due to lack of consultation. Budgets were subsequently re-aligned to rectify this matter.

Consultation

The Council informs, consults and involves residents in significant decisions including service and budget setting and changes.

However the Quality of Life survey reports a significant drop in the % of people who feel they can influence local decisions.

Code of Conduct

The Council's **Code of Conduct**; all new employees are required to declare any potential conflicts of interest and to sign the Code of Conduct upon commencement of employment. If it appears that the Code of Conduct may have been broken by an employee that would warrant disciplinary action, this would be referred to the relevant service (HR or Audit) for investigation.

The Council also has a Code of Conduct for elected and co-opted Members. The **Values and Ethics Committee** (a sub Committee of the Audit Committee) monitors standards of conduct of Members and when it appears that a breach may have occurred, these are referred to the Committee by the Monitoring Officer for a hearing.

Entries made in the Register of Members Interests were reviewed by the Monitoring Officer.

Leadership framework

A new leadership framework was launched in June 2018 which sets out organisational values and behaviours expected from all employees. It also details leadership behaviours and qualities expected from management. Assurances from management, confirmed by the employee survey demonstrate there is a strong understanding of the standards expected and many examples of good practice. However, it is recognised that more work is required in embedding Council Values.

Key policies

Employees are made aware of core policies such as the **Anti-Fraud and Corruption Policy**, the **Whistleblowing Policy** and the **IT Security Policy** upon induction and updates are shared through "The Source" (Council intranet) or cascaded through leadership and team meetings.

Bribery and Corruption Review

An audit review of Bribery and Corruption controls concluded that management in highest risk areas demonstrated good understanding of the potential bribery and corruption risks and had implemented appropriate control measures to manage these risks. A number of recommendations were made to strengthen arrangements regarding gifts and hospitality, declarations of interest and increasing awareness.

Whistleblowing arrangements

The annual review of Whistleblowing arrangements occurred in 2018/19. Whilst employee awareness about whistleblowing processes has significantly improved, employees do not feel confident that concerns will be dealt with effectively. An employee survey has confirmed that just under half of those who responded did not have that confidence. Options are being considered to address this.

A **Member-Officer Protocol** is in place to ensure trust and positive working arrangements are in place between Members and Officers.

This is currently under review following a recommendation in the LGA Peer Review that the Council needed to make improvements in Member-Officer working.

Social Value Policy

In planning its services, the Council aims to consider the social, economic and environmental impact of its approaches. These aims are at the heart of public service and are captured in our **Social Value Policy** which was refreshed and approved by Cabinet in January 2019. The policy sets out our social value outcomes and how we will monitor them going forward.

There are many examples of how Council services deliver 'social value' of this kind. More specifically the Council considers Social Value at pre-tender and tender stage to ensure that appropriate desirable outcomes can be offered by suppliers

in their tender submission. The Social Value element of the contract procedure rules has been strengthened.

Further work is required to ensure that social value outcomes are effectively monitored going forward and a toolkit is under development to assist with this. Improvements to data capture, analysis and reporting are being made to monitor procurement spend with micro, small and medium size enterprises.

The Council has yet to agree and submit plans to the government for Nitrogen Dioxide compliance in line with EU requirements. However, it is planned that an outline business case will be submitted in September 2019. A report to Cabinet in June sought approval to go out to public consultation on options for compliance that will inform the final recommendation for the outline business case. A full business case is due to be submitted in December 2019.

Defining Outcomes and Managing Performance

An extensive consultation exercise in 2017 led to a new Corporate Strategy for the period 2018-23. It was adopted by Full Council meeting in February 2018 as part of the Council's Policy Framework. Our Corporate Strategy describes our vision and key priorities which support the wider One City Plan. This strategy together, with our Medium Term Financial Plan (MTFP) and the annual business plan, clearly highlights what we need to do, alongside the budget we need to work within, to achieve our goals to the highest standards possible. Individual service plans aligned to the Corporate Strategy are also developed. This is the basis on which the Council's Performance framework (including individual officer performance) is grounded.

Annual Business Plan

To keep the **Annual Business Plan** relatively short and simple, only the top level actions and most important measures of our success are included. Some actions may relate to more than one commitment, but are listed next to the most relevant one. To ensure the plans and the milestones and high level performance indicators remain relevant, they are periodically refined in response to internal and external changes. Top level outcomes and key performance indicators have been subject to pre-decision scrutiny for continued relevance and considered by Cabinet on 2nd April 2019.

Performance

Performance is monitored in line with business plan themes, directorate and key service plan drivers. In some areas such as Children's services, a legal and statutory performance requirement is in place and performance is measured and monitored via national professional standards.

Quarter four performance reports indicate that only 44% of Key Performance Target had been met however in 62% of those with a direct comparator last year the direction of travel was positive. A

review of the approach to target setting will take place in 2019/20.

The Council's approach to managing **employee performance** requires regular, quality conversations and periodic online assessment. Online completion of employee performance review is monitored but inconsistent application has been identified with only 44% of employees having registered completion of the review on the HR system. A recent employee survey indicates that completion rates are at around 63%. Manager assurances in this area confirm that the level of turnover in management at the Council has contributed to the inconsistency in completion of performance reviews. The introduction of a new HR system and initiatives in the OIP are anticipated to assist in improvement in this area going forward.

The average working days lost to **sickness** during the year was 9.09 days against a target of 8 days indicating that sickness levels have remained constant when compared to 2017/18 (9.10 days) despite planned actions to improve the number of days lost to sickness. These measures will continue, together with improved staff engagement and emphasise on health and wellbeing.

Organisational Improvement Plan (OIP)

Our people play a vital part in this and so our **new Organisational Improvement Plan (OIP)** provides the framework for our transformation journey, moving us closer to our vision to create an inclusive, high performing, healthy and motivated work place and become an employer of choice. Effectiveness of the plan will be reviewed once it has had the chance to embed.

Senior Management Development programme

A Senior Management Development programme for very senior management is under way to ensure leadership at the Council is strengthened.

The Council's apprenticeship scheme has been successful in providing apprenticeship training opportunities.

Developing Capacity

Partnership working

Partnership working is fundamental to the work of the Council and delivery of the Corporate Strategy and One City Plan. There are many forms of collaboration with other organisations and these are governed in many ways – constitutional governance groups, contractual arrangements, partnership/service level agreements and information sharing arrangements. Some work-streams, however, would benefit from a more formalised approach than is currently taken. A refresh of the Partnership Policy is underway and will be based on a full awareness of all partnership arrangements. Work to identify and maintain a register of partnerships has been completed and partnership leads review ongoing fitness for purpose of partnerships.

To comply with GDPR arrangements, data sharing agreements should be in place when working with partners. An audit review of this area is currently underway to confirm compliance with this requirement.

Complaints

The Council has a procedure for tracking, handling and reporting formal complaints. These are reviewed and reported through the performance reporting framework.

During 2018/19, the Council responded to 85.69% (76.46% in 2017/18) of non-statutory complaints and 53.13% (46.76% in 2017/18) of statutory complaint within the required timescales. Whilst this demonstrates progress when compared to 2017/18, we recognise that improvements are required to achieve higher levels of compliance, particularly in respect of statutory complaints.

Additionally, to further enhance performance the Council must ensure that they learn from complaints received. A new complaints systems being implemented in 2019/20 should provide enhanced opportunity to do so.

Member Development

In 2016/17, a need to enhance **Member Development** arrangements was identified. Ensuring Members have the correct skills to support community leadership and decision making is an important aspect of delivering the Council's aims and objectives. Additional resources have been allocated to develop a robust Member development programme going forward. This focuses on ongoing development for existing Members and preparing an induction programme for the 2020 cohort of Members following elections.

30 Member briefings and various programmes of training have been delivered (e.g. to the Audit Committee) with the aim of providing Members with information they need at the time when they need it. A member online library containing items such as technical briefing is also available.

The Council continues to work with the LGA in areas such as; designing a tailored programme of Member development activities and peer support arrangements that will enable Members to develop the skills and competencies they need to successfully carry out their roles. This includes: mentoring and formal support offer to Council political groups through the LGA political offices.

Information Technology and Information Security

The Council has an information security policy which is currently being refreshed to include strengthened requirements brought by the General Data Protection Regulations (GDPR).

The holder of the Senior Information Risk Owner (SIRO) role has changed during the year with a new SIRO appointed in November 2018.

A Statutory Data Protection Officer was appointed and in place from August 2018.

A new Information Governance Service has been established to bring together all aspects of information management and develop a mature approach to information governance. The service will develop and manage the following areas:

- Data Protection Compliance
- Information security arrangements
- Records management
- Freedom of Information Requests
- Subject Access Requests
- Monitoring data accuracy and quality

The previous information Assurance Board was wound up in 2018 when a temporary GDPR Programme Board was set up to manage implementation around GDPR. There are a number of on-going actions arising from the implementation of GDPR that are now being undertaken by the Information Governance Service.

A new Information Governance Board (IGB), chaired by the SIRO, has more recently been established to have oversight and accountability for the information governance framework. Development of a robust information governance strategy and risk management framework is a priority for the Board as well as strengthening arrangements relating to cyber security, and ensuring ongoing GDPR compliance.

The Council does not have an accurate information asset register and this has been escalated to the IGB.

For all known information systems appropriate data sharing protocols should be in place and approved by Directors, who are the Information Asset Owners.

The SIRO and management assurances have confirmed that Information Governance awareness has improved in 2018/19 with the embedding of GDPR. Information security training is mandatory for all staff and escalation procedures are in place if it is not completed.

Whilst the Council has responded to 76.6% of Freedom of information requests within required timeframes, 48% of subject access requests were responded to within required timescales.

Procedures were in place during 2018/19 to report information security breaches internally and report levels to senior management. Some 478 such reports were made during the year (280 in 2017/18), of which 8 (2 in 2017/18) were reported to the Information Commissioner's Office. This increase could reflect a greater awareness of the need to report.

Senior managers have provided assurance that action has been taken by them, in consultation with experts in the Council, to respond to those breaches appropriately.

An Information and Communications Technology (ICT) Transformation Programme

An Information and Communications Technology (ICT) Transformation Programme aims to achieve a modern, flexible and stable ICT infrastructure. If implemented effectively, it will help to ensure that the Council's ICT works to support departments in delivery of Council services going forward and enables the Council's digital ambitions, as these become clearer, to be realised.

A Programme Board is in place to oversee delivery with approximately 80% of the programme to be delivered in conjunction with an experienced delivery partner. Internal Audit attendance at the board has provided the opportunity for independent assurance and challenge as this route to delivery has progressed. Internal Audit

consider the correct approach is being taken to IT Transformation but there are significant risks attached. An assessment of risk was completed and considered by board members in advance of a decision being made.

The Council is currently operating without a business led Digital Strategy to co-ordinate and drive digital development across the Council but it is anticipated it will be developed during 2019/20.

A Director (Digital Transformation) has been appointed to lead the ICT Transformation and

ensure the IT team is skilled and resourced correctly.

An internal audit review of third party access to systems identified improvements required in this area. Data sharing is currently the subject of an internal audit, the outcome of which is awaited.

Risk Management Arrangements

The Council's Risk Management Policy/ Strategy was reviewed, endorsed by the Audit Committee and approved by Cabinet (January 2019). However, whilst the policy was approved, training and awareness needs to be addressed to ensure consistent application and continued embedding. Risk training options are currently being reviewed and refreshed including consideration of on-line tools.

The **Corporate Risk Report** is part of this framework and is an articulation of the key risks impacting the Council. It is intended to be used to inform decision making, provide assurance over actions being taken to manage key risks and to inform directorate level risk management planning and mitigation activities. The Corporate Risk Report was refreshed quarterly using new methodologies as outlined in the revised policy.

For the key strategic risks, named risk owners are identified in the Report. Risk management should be an integral component of the business planning, project management and other corporate processes, such as the budget,

linking risk to the achievement, monitoring and resourcing of objectives at directorate level.

Investment has been made in this area and a **Risk and Insurance Manager** has been appointed to drive forward improvements and assist managers and advise Members on the management of risks and issues. Resources are available for the appointment of further Risk and Insurance Officers.

However, further investment into risk management systems and people is required for the Council to gain the full benefit that risk maturity can achieve, including reducing risk aversion and promoting a greater risk appetite which in turn highlights greater opportunities

A review of management assurance statements confirms that in 2018/19, there have been both improvements in the engagement and management of service and directorate risks.

Management assurances received confirmed that business continuity plans have been developed for all critical services. However, there was inconsistent assurance that plans are tested to ensure they would be effective should a threat to service continuity occur.

An Internal Audit review of Risk Management arrangements is currently being concluded, however, in summary, the key findings include:

- Risk Management has been recognised as a key part of managing the Council's delivery of services;
- There is an expanding level of buy-in from senior management and Members;
- The Corporate Risk Report provides an overview of the significant risks facing the Council and how they are being managed. This report is considered by senior management and Members.
- Directorate Risk Reports are considered by directorate management teams on a regular basis.

However, there remains a body of work which needs to be advanced in order for the Council to move further towards risk maturity. This includes:

- The need to communicate the revised policies and guidance more widely across the Council;
- The provision of more training resource in order to move Risk Management from an isolated task to business as usual, using the process to support decision making and performance management
- The need for a management culture shift which can be achieved by buy in from all stakeholders (management, members, staff and partners);
- The investment of adequate resources in order for the Council to gain the full benefit that risk maturity can achieved, including reducing risk aversion and promoting a greater risk appetite which in turn highlights greater opportunities.

Financial Arrangements

Director of Finance

The Director of Finance has confirmed that the principles outlined in the CIPFA Statement on the Role of the Chief Financial Officer (S151 Officer) in Local Government have been complied with in performing her duties.

The S151 Officer is a member of the Councils Corporate Leadership Team and as such is ideally placed to develop and implement strategic objectives within the Council, influence material business decisions and oversee corporate governance arrangements, the audit and risk management framework and the annual budget strategy and planning processes.

The Council's approach to Financial Management ensures that public money is safeguarded and used to best effect in supporting both long term achievement of objectives and shorter term financial and operational performance when ensuring value for money is achieved.

Changes to the local government finance system, and delivery of continued significant savings continues to present significant risks to the Council's priorities and ambitions. Through effective leadership the key focus for 2018/19 has been:

- Delivering our core strategic framework (of which the financial framework is integral), improved financial management and quality of the reporting
- Stabilising of Council finances within the challenging financial climate.
- Implementation of a strengthened regime of governance and assurance.
- Ensuring sufficiency of resources with appropriate skills and capabilities.

Greater emphasis has been given to strategy development, implementation and resourcing, whilst ensuring compliance is maintained and minimising risks of financial complacency, given the Council's improved financial position.

Progress

Good progress has been made in the following areas:

Core strategic framework

- Refreshed 5 year rolling MTFP
- Developed a Capital Strategy
- Refreshed Treasury Management Strategy
- Contract procedure regulations.
- Social Value Policy

Stabilising of Council finances

- Annual budget, including 5 year capital programme
- Supporting the enhancement of the Council's material shareholder interest with new Business Plans
- Development of bids for major projects.
- Budgets have been managed within delegated limits – c. 1% outturn variation for 2018/19.
- Collection rates for Council Tax and Business rates exceeded
- Investments in line with Treasury Management & Capital Strategy
- General fund reserve maintained within agreed policy parameters

The above has been delivered, approved by Cabinet and or Council and provides a framework to shape business decisions. We strongly support innovation, collective ownership of strategy, risks and delivery. Seeking to optimise the funds available and ensuring public interest and value for money remains at the heart of what we do.

Strengthened governance and assurance

- Governance of savings programme via the Delivery Executive and budget management via Budget Scrutiny and Budget Executive – Member involvement.
- Increased capacity and profile of Internal Audit, with improved inspection and assurance regime.
- The MTFP and budget process involved the engagement of members via the Scrutiny Task and Finish Group.

Sufficiency of resources with appropriate skills and capabilities

- Finance function restructured to be right sized; in terms of skills and capacity and to provide greater agility and risk based targeting of resources.
- Additional skills and capacity commissioned as and when required and secured via interim resources.

Further work is required in the following areas:

- Embedding the improved governance arrangements for capital delivery and monitoring of the Capital Programme.
- Zero based reviews of a number of operational services
- Supporting the continued professional development of the finance function
- New budget holder training programme for 2019
- Improve procurement forward planning and compliance
- Implementation of outstanding audit recommendations and finance, revenues and benefits systems and process improvements.

Dedicated Schools Grant

The ring-fenced Dedicated School Grant ended 2018-19 year with an overall underspend of £-1.962m. There was an in year surplus of £-2.978m, and so has recovered the overall deficit from 2017-18. This has been achieved through underspends in the Early Years, High Needs and Schools Central Services blocks, and a windfall reimbursement of recouped Schools Block funding.

Individual School Balances

In 2018-19 individual school balances improved by £3m on revenue and by £1m on capital (Revenue balances in 2017/18 totaled £5.371m and now total £8.365m. Capital balances totalled £3.522m in 2017/18 and are now £4.436m at end of 2018/19).

All school sectors have overall accumulated surplus balances for both revenue and capital, except for nursery schools revenue balance which remains in overall deficit. This situation is improving though, as the overall revenue deficit balance on Nursery

Schools has reduced by £0.249m during 2018/19, from £1.544m at the close of 2017/18 to £1.295m at the close of 2018/19.

During 2018/19 nine schools converted to academy status. At the beginning of 2018/19, 17 out of 87 LA maintained schools had revenue deficits; by the end of 2018/19, the number of schools with deficit balances reduced to 15 of 78 remaining LA maintained schools. Part of this improvement is attributable to the efforts made by schools to keep budgets under control, alongside more robust monitoring arrangements in the LA.

We have worked with schools and chair of governors whom are now in position to set balanced budgets for 2019/20 and in the medium term going forward. It is also the case that some of the improvement is due to a small number of schools converting to academy status but leaving their accumulated deficit with the local authority. At the end of 2018/19 there are deficits to be written off against the Council's general fund budget (non-DSG funds) of £1.523m.

Capital Programme

The Council has an ambitious 5 year Capital Programme with a significant proportion of the 2018/19 annual spend profile aligned to large infrastructure investments that will support long term regeneration across the city, such as a programme of new house building, major Transport schemes and developing the Temple Quarter area.

Over optimism in public sector projects is not a new phenomenon and it is one that persists at the Council, frequently undermining projects as complexity, delivery timescale and costs are under estimated. The consequences of this over optimism are evident in the in-year and 2018/19 outturn capital programme reporting of slippage, delays, costs overruns and unnecessary revenue provisions for capital financing. This is a trend which we have seen reflected in prior years (identified in the

2016/17 & 2017/18 AGS review) and improvement is required to strengthen project management and capital governance.

Over programming is not the answer as much of this could be avoided with greater incorporation into estimates of the potential impact of external factors on the project. This indicates that internal mechanisms need to change. Greater accountability is required in ensuring that firm investment decisions are based on realistic estimates and assumptions, inherent uncertainty is identified and built in to forecast of time and money unless there are clear plans for mitigation.

Internal reporting board has been established for infrastructure projects chaired by the Executive Director Resources and CLB and Delivery Executive will take on an enhanced monitoring function for the programme.

Procurement

In response to previous concerns regarding procurement, the Council has introduced a Category Management approach to assist with better contract management through whole life contract management. This includes a central resource to act as the main hub for leading and managing the way contract management is undertaken during the operation of the procurement cycle. A change of management has seen progress delayed in delivering this but more recently appointments to Category Manager roles has taken place as this new way of working now progresses.

Audit findings for work completed during 2018/19 demonstrated inconsistent contract monitoring practices with some very good practice seen but also some very poor practice. A review of Contract

Management/Monitoring within the Council, an area Internal Audit have looked at on a number of occasions, concluded Limited assurance that the controls in place are effective. Specifically, the review concluded the following:

- Contract Management arrangements require further improvement with 48% of contracts sampled failing to have adequate management arrangements;
- Inconsistent use of the Council's contract management system;
- The contract monitoring module of that system is not fit for purpose;
- Insufficient training is available for contract managers;
- There are insufficient level of measurable outcomes (KPIs)

Council Owned Companies

Bristol is Open (BiO) Ltd is a Joint Venture company in which both the Council and the University of Bristol own a 50% stake. The proposition has resulted in a Smart City Research and Development network platform with multiple communication technologies installed around the city. This platform is allowing companies of all sizes to come and test new technology in a real-world environment rather than just inside a laboratory. The company has established itself and grown its own body of knowledge and experience and in the light of other technology developments such as 5G, proposals for a revised ownership structure were put forward, by both the Council and University of Bristol. Cabinet has endorsed a proposition for the Council to acquire the University of Bristol's shares in BiO and following finalisation of the necessary

legal documents the Council is expected to become the sole shareholder.

BiO will support the development of the extension of the current city network to the south of Bristol, creating a facility to develop skills and education development and support health and social care change research to provide better care and services through the use of digital connectivity and the wider city in our bid to meet the ambitions of the One City Plan. The Councils performance oversight continues to be provided by the Shareholder group and reach back capacity to support the transition has been provided by the Council. The financial turnover of BIO does not meet the materiality threshold and as such the company accounts are not consolidated within the Council's 2018/19 accounts.

The companies **Bristol Energy** and **Bristol Waste** are wholly owned by the Council through Bristol Holding Limited. The companies produce their own accounts which are subject to independent external audit and consolidated into the Council's accounts.

- Bristol Energy is a 'social' supplier of gas and electricity to domestic and business customers
- Bristol Waste provides recycling, waste collection, disposal and street cleansing services on behalf of the Council and because of the nature of the business the company is permitted an exemption (Teckal Company) from public procurement.

The need to maintain a robust risk, governance and control environment is pivotal to the effective operations of the companies. The governance arrangements have been strengthened and the action plan produced in response to the recommendations from the 2017 governance review has been implemented. This included the following activities:

- Changes to the companies' Articles of Association and Shareholders' Agreement, including the revision of the reserved matters by which the council exercises control of the companies

- The Shareholder group maintain an oversight of performance and the Terms of Reference for the group were revised and adopted
- A recruitment and selection process for council appointed directors with the relevant skills and experience for the role was undertaken and training sessions provided in order to ensure new directors fully understood their fiduciary duties under company law.
- Funding was identified and subsequently allocated in the MTFP to provide the resources to ensure the council can support an efficient and effective client and shareholder liaison function.
- Build relationships as appropriate with lead officers within the council and support collaboration.

The Council retained a thin Holding Company; however in considering the varied and sometimes complex activities of existing companies and those that are and will be established in the future, propositions are in development to revise its resource and capacity and expand the Holding Company with greater delegation of function. The Council's Audit Committee is due to receive an Audit Committee to Audit Committee report, on company's audit and assurance arrangements.

Assurance statements based on the model used by Council managers have been completed on behalf of each company to provide reassurance that governance arrangements are sound.

Each company has put in place their own governance arrangements which reflect the commercial environment within which they operate. The companies operate in accordance with agreed business plans and progress against them is monitored internally and reported to the Council's Shareholder group.

Bristol Energy

The energy market is both huge and complex and will always be punctuated by periods of shorter-term price volatility. Due to the cyclical nature of the market and the costs to serve, the investment horizon in the energy market is generally long term and **Bristol Energy (BE)** remains committed to their plan for meeting long- term growth and social value.

In 2018/19, the energy wholesale and retail market condition continued to be volatile and challenging which resulted in the adverse end of year position. The business had seen steady growth through the year and the customer margins have improved over the second half of the financial year and the company is now performing within the agreed

business plan. Over the latter 6 months of 2018/19, BE had taken significant steps with the Council in restructuring its business operations and repositioning its strategy to one more closely aligned with the Council's strategic objectives and strong focus on innovation. 2018/19 had seen the changes to the board structure and steps taken in transforming the business from 'pure supply' to a combined energy supply and services model support Bristol in its 'City Leap' ambition and achieving the goals set out in the One City plan, whilst pursuing a realistic plan for a sustainable business with social value at its heart.

Given its importance to company strategy, work has continued with the council in monitoring and reporting the indicative 'social value' achievement and delivered £11.9m back to the community to 2018/19. This is in addition to direct savings to Bristol residents and Business through favourable tariffs. The data verified by Social Value Portal indicates a growing annual trend that will increase further as the company scales their business.

The Governance arrangements continue to be strengthened on an iterative basis. A Risk Management Framework is in place with regular review of key risks of the business reported to the Board and the Audit and Risk Committee. Risk management process has been adopted, with risk table, log, matrix etc. and incorporates consideration of fraud risk. BE continues to work to embed its data retention strategy across key business applications and in common with BCC is working to strengthen subject access request processes. The Business Continuity Plan was reviewed and updated in early 2019 based on a desktop test exercise/review carried out by a third party Business continuity specialist consultancy in conjunction with representatives from key business functions.

The arrangements above will support robust decision making and achieving the aim to provide a wide range of benefits to residents and local businesses, deliver positive social impacts through job creation and tackling fuel poverty.

Bristol Waste Company (BWC)

Bristol Waste Company (BWC) Governance has been strengthened following the recruitment of two additional Non-Executive Directors, Executives (Managing Director and Finance Director), which has provided the business with some stability and a clear strategic vision and values which reflects those of the council.

Bristol Waste has achieved its expected performance targets set in its business plan and generated a net surplus for the year. During 2018/19 BWC had implemented a number of initiatives including 'Slim My Waste' which has significantly reduced household residual waste and waste to landfill.

Work continues on refining the business and financial models to ensure continued compliance with Teckal status and ensure clear demonstration that trading outside of BCC is appropriately accounted for and does not exceed the permitted 20% of turnover, based on a three-year average (so in one year, the amount may be exceeded, as long as the average across the three years is only 20%).

Bristol Waste maintains a risk register which is regularly reported at Board and through to the Shareholder Group. This needs to be further expanded to a Risk Management Policy that reflects a more rigorous approach to identifying and reporting of risk. Access to information and data sharing are in place when working in partnerships as required and ensure GDPR compliance. External support has been commissioned to conduct a Health and Safety audit of every site and BWC have also implemented a new team who are currently working with the contractors to put any improvements in place that are needed.

In respect of an Audit and Risk Committee, this has been established since mid-2018 and a programme of Internal Audits are to be provided by Bristol City Council Internal Audit department. This was agreed during the course of the year but for a variety of reasons has not yet commenced.

Audit Arrangements

The preparation of the Annual Governance Statement has continued to be based on a robust approach whereby Managers and relevant budget holders from across the Council complete assurance statements for each of their areas, acknowledging responsibility for internal control and risk management.

Each of these employees have certified or otherwise their satisfaction with the arrangements in place during 2018/19. Several areas for improvement have been identified.

Audit Committee

The Audit Committee provides independent assurance to Full Council on the adequacy of the governance arrangements in the Council and has cross party representation as well independent members who were appointed in 2017/18 to strengthen the Committee.

The Committee met formally on six occasions during 2018/19 considering reports from the Chief Internal Auditor, including the annual Internal Audit Report, the s151 Officer, the Monitoring Officer and the External Auditor. Two additional extraordinary meetings were held to consider the progress of the external audit of the council's draft statement of accounts for 2017/18.

The Committee has concluded from their work that the Council's systems of checks and balances are not consistently as robust as required.

The Annual assessments of the effectiveness of the Committee was undertaken (following CIPFA good practice guidance) to identify any areas where improvements are necessary to increase its effectiveness. Notably these were around agenda management in order to ensure that all agenda items receive the depth of consideration relevant to item being discussed.

Internal Audit Team

The **Internal Audit Team** has undertaken a programme of reviews around governance arrangements, internal control and risk management arrangements at the Council. Overall, their opinion is, for the third consecutive year, that only **limited assurance** could be provided in respect of 2018/19 with only half of planned audit reviews completed concluding controls were effective. Whilst, to some degree, a risk based approach to audit planning does focus attention on higher risk areas, the downward trend in the level of assurance provided continued.

In addition, a number of action plans to address previously identified governance issues had not progressed significantly.

An external peer review of the Internal Audit service was completed in 2017/18, which concluded that the team was generally compliant with professional standards (97% fully or partially compliant).

An action plan for improvement was agreed and during 2018/19 all but one recommendation was either completed or progressed. This was monitored via the Audit Committee.

The inclusion of a strategic Chief Internal Auditor role to the team has had positive impact on the performance and profile of the team.

The Audit Committee received regular reports on **counter fraud and fraud investigations** throughout 2018/19.

A review of the Council's position against the CIPFA Code of Practice on Managing the Risk of Fraud and Corruption was completed during 2017/18 and 8 areas for improvement noted. During 2018/19, 6 of these were completed – notably matters concerning resourcing and skilling the fraud team strategy have been resolved.

Fraud work continues to identify potential recoverable savings.

External Inspections

Ofsted inspection for Children's Social Care services

An Ofsted inspection for Children's Social Care services concluded overall 'requires improvement to be good'. An improvement plan was submitted to Ofsted in January 2019 which includes a development programme and technological solutions to assist frontline managers and practitioners in improving the written record.

Bristol North Rehabilitation Care Services

A Care Quality Commission inspection of Bristol North Rehabilitation Care Services concluded an overall rating of Good. No improvement recommendations were made.

Details of external inspection reports

For the first time in 2018/19, the Audit Committee reviewed details of external inspection reports together with details of action plans developed to address an issues raised. The Committee will continue to do so going forward.

Bristol Youth Offending Services

An inspection of Bristol Youth Offending Services was undertaken by HM Inspectorate of Probation Services during the summer of 2018. Overall Bristol YOT was rated as: Requires improvement. An improvement plan has been developed and is being implemented.

Ofsted

Ofsted have inspected a total of thirty two schools in the city since April 2018, of which 11 were Bristol City Council maintained schools.

The outcomes of the maintained school inspections were judgements of:

- 8 schools were good
- 1 requiring improvement
- 2 inadequate

Of 21 academies inspected:

- 1 one was outstanding
- 8 were good
- 7 requiring improvement
- 5 inadequate

4 Improvements made in 2018/19

During 2018/19, the Council has made progress in enhancing its' governance arrangements via the following:

- Forward plan for Cabinet decisions has been developed to be more transparent and now sets out decision requirements 4 months in advance – this allows for increased scrutiny and challenge to cabinet reports.
- Processes for ensuring Officer Executive decisions are correctly recorded and published have been improved.
- The Council's Equality and Inclusion function has benefited from independent review which informed a new Equality and Inclusion Policy and Strategy, approved by Full Council in November 2018. This included an action plan for the year ahead and the imminent appointment of a new Head of Equality and Inclusion will assist in driving equality, diversity and inclusion improvement.
- An Organisational Improvement Plan has been developed which sets out how we aim to create the conditions for everyone to perform at their best, each and every day. Its progress and success will be monitored to ensure it is effective.
- A Senior Management Development Programme has focussed on assessment of strengths and weaknesses of all our senior leaders and monitoring of development of leadership qualities via performance contracts and reviews.
- An Information Governance Service and Information Governance Board to enhance focus on information management and security has been established. Its effectiveness will be monitored.
- The appointment of a dedicated Risk and Insurance Manager and quarterly review of corporate risks has helped to ensure that managing risk is seen as a key process in delivery of the council's services with an expanding level of buy in from senior management and Members.
- Creation of a separate Values and Ethics Committee (a sub of Audit Committee) should allow the Audit Committee to focus on Governance, Risk Management and Internal Control matters.
- Results of external inspections are now reported to Audit Committee on an annual basis. The Committee receive assurances from management regarding responses to any negative external inspection reports. This will continue to be included in the Audit Committee's annual work programme.
- Greater financial stability has been achieved (caveat national uncertainty) and improvement in financial monitoring arrangements that have enabled remedial action to be taken within the year.
- The Council adopted a Capital Strategy in 2018 to better reflect the long term aspirations of the One City Plan and other strategies, including asset management. It provides a framework for planning and decision making to ensure capital expenditure and investment decisions are affordable, prudent and sustainable.

- In anticipation of the UK's planned exit from the European Union in 2019 the Council is proactively involved with local, regional and national working groups assessing the risks and opportunities of the UK's withdrawal and the potential impact upon the Council, residents and stakeholders of a no deal situation.
- In January 2019, Cabinet approved a refreshed Social Value Policy which clarifies our commitment and sets out how we will monitor social value going forward.
- 150 colleagues have been through the Bristol Leads management development programme to improve people management skills and confidence and make specific business improvements in their work place.
- A new HR/Payroll solution has been implemented which combines four HR systems into one to enable improved management information for workforce decision making moving forward.

5 Significant Governance Issues

No systems of control can provide absolute assurance against material misstatement or loss. In concluding this review a number of issues have been identified that need to be addressed to ensure continuous improvement in the governance framework. Some of these, identified below, are significant and, where necessary, additional improvements have been identified in a separate internally monitored action plan.

The following represent the significant governance issues for 2018/19:

Key – Significant Governance Criteria:

The criteria for “significant governance” are issues/ areas which:

- Seriously prejudiced or prevented achievement of a principle objective;
- Resulted in the need to seek additional funding to allow it to be resolved;
- Required a significant diversion of resources;
- Had a material impact on the accounts;
- Resulted in significant public interest or has seriously damaged reputation;
- Resulted in formal actions being taken by the Chief Financial Officer or Monitoring Officer;
- Received significant adverse commentary in external inspection reports that has not been able to be addressed in a timely manner

Issue Number	Issue Identified
1	<p>A number of complaints of racial discrimination were raised by the BAME staff led group and whilst close working with the staff led group has enabled us to identify, explore and progress action to address the concerns raised by employees further work is required in this regard.</p> <p>Proposed Approach/Actions:</p> <p>A new post of Head of Equality and Inclusion has been established together with an Equalities Board to oversee progress and monitor improvements. Early improvements include putting in place revised HR policies with staff led groups and trade unions, introducing career development workshops, further training for managers in interview skills and additional equalities training for relevant service areas. With regard to the individual complaints, they are being progressed or are now resolved, with a small number awaiting other actions to be taken. The Employee Engagement Survey 2019 identified areas that need attention, including making sure that all employees feel they have a voice and this will be progressed with the wider organisation wide action plan that is currently underway.</p>
2	<p>Following the review undertaken by the External Auditors (BDO) regarding Senior Officer Remuneration Statutory recommendations were made to Full Council March 2019 for consideration in Public and action plan formulated to address the weaknesses identified..</p> <p>Proposed Approach/Actions:</p> <p>The report and action plan was considered and subject to minor changes approach agreed by Council and BDO. All of the recommendations within the action plan have been implemented in line with the timescale agreed and a subsequent report of the Head of Paid Service was presented to Council in July 2019 to confirm the position. The adherence to the policy will be tested on a ongoing basis by External Auditors.</p>

Issue Number	Issue Identified
3	<p>A number of known governance improvements identified in previous Annual Governance statements remain outstanding. Whilst it is acknowledged that some of these are longer term issues to remedy, the level of change in senior management during the part of the year has contributed to delays in the following areas:</p> <ul style="list-style-type: none"> • Capital Programme Management (reported in the 2016/17 AGS) • Contract Management Arrangements (reported in the 2016/17 AGS) • Performance management of our employees has been inconsistent (reported in the 2016/17 AGS) • Development of a partnership policy (reported in the 2016/17 AGS) • IT Transformation (reported in the 2017/18 AGS) • Digital Strategy (reported in the 2017/18 AGS) <p>Proposed Approach / Actions:</p> <p>Priority focus has been given to these residual items. A number are complete as at July 2019 and the residual actions taken will continue to be progressed and reported to the Audit Committee in 2019/20.</p>
4	<p>The Chief Internal Auditor has, for the third year running, concluded that only limited assurance can be provided on the internal control, governance and risk management arrangements at the Council. Root-cause review was carried out in conjunction with the Corporate Leadership Board to determine the underlying reasons for this to assist in changing this pattern moving forward.</p> <p>Proposed Approach / Actions:</p> <p>An overview of key drivers for limited assurance is outlined in the 'How did we do' section above. The two key themes requiring ongoing action to address the issues were:</p> <ul style="list-style-type: none"> • Complexity of the landscape of systems and processes • Pace of organisational change and lack of resilience <p>A range of organisational wide programmes / work streams are underway which will enable long term sustainable solutions to be developed. For the two specific areas outlined above these are primarily the IT Transformation Programme has been established with an ITTP Board to oversee the programme and Organisational Improvement Plan with an organisation wide action plan which will be reviewed and refreshed on an annual basis to ensure it remains relevant, focused on driving our organisational improvements and will be overseen by the Executive.</p> <p>Many other corporate improvement programmes are also in place such as the action plan from the LGA Peer Review and Employee Engagement Survey action plan with activities that will also address the weaknesses identified and facilitate sustainable improvements.</p>

6 Statement of Commitment

Good governance is about running things properly. It is the means by which the Council shows it is taking decisions for the good of the people of Bristol, in an inclusive and open way. It requires standards of behaviour that support good decision making, collective responsibility, individual integrity, openness and honesty. It is fundamental to showing that public money is well spent, as without good governance the Council will struggle to improve services.

From the review, self-assessments, work undertaken and on-going monitoring supported by the work of Internal Audit, we have reached the opinion that a number of key systems are not operating soundly and that there remains a need for improvement.

We are clear that governance improvements and internal controls does not rest simply on the individuals party to this statement but the organisation as a whole and therefore requires the action plan outlined in this statement to be translated into clear, aligned, agreed activities, collectively owned by the leadership team and proactively monitored with a view to successful outcomes as opposed to merely implementation.

We will therefore monitor their implementation and operation over the coming year through the Corporate Risk Report, Directorate Service and operational plans as required and Statutory Policy Board. In addition during the year the Audit Committee will monitor progress against the issues identified in this statement.

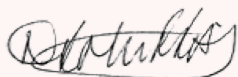

Events after the Balance Sheet Date

The challenges for the energy sector have increased significantly post the balance sheet date due to market conditions and more recently the coronavirus pandemic. Bristol Energy has net liabilities and will continue to require the Council's commitment of financial support to operate as a going concern. Bristol Energy will need to have robust control over their cash flow during peak periods for their business and this will be closely monitored by the Council, and Bristol Holding Co, along with the periodic funding requirements.

Notes to the Accounts

1 Accounting Policies

(i) General Principles

The Statement of Accounts summarises the Council's transactions for the 2018/19 financial year and its position at the year-end of 31 March 2019. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit (England) Regulations 2015, which require the accounts to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2018/19 (the Code) supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments. The Statement of Accounts has been prepared on a 'going concern' basis.

(ii) Recognition of Income and Expenditure

Activity is accounted for in the year in which it takes place, which may not be the same year in which cash payments are made or received.

The Council adopted IFRS 15: Revenue Recognition from Contracts with Customers from 1st April 2018, such that revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract. The Council has made use of the transitional provisions to not restate the prior year's financial statements and therefore prior year comparatives are produced under the previous accounting standard, IAS 18: Revenue. The main change is that revenue recognition is now based on the transfer of control over goods and services to a customer rather than risks and rewards, which may result in changes to the pattern of revenue recognition. In local government, the generation of revenues from charges to service recipients is only a minor funding stream and contracts with customers tend to be accounted for and delivered within each financial year.

Revenue from the sale of goods and disposal of assets is recognised when the Council transfers the risks and rewards of ownership to the purchaser. Revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.

Government grants and third party contributions are recognised when there is reasonable assurance that the Council will comply with any conditions attached to the payments, and that the grants or contributions will be received. Where conditions attached to grants or contributions have not been satisfied, monies received to date are carried in the Balance Sheet as creditors and credited to the CIES when the conditions are satisfied. Where capital grants are credited to the Comprehensive Income and Expenditure Statement they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Supplies are recorded as expenditure when they are consumed. If there is a gap between the date supplies are received and their consumption, they are carried as inventories in the Balance Sheet. Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.

(iii) Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in three

months or less from the date of acquisition and are readily convertible to known amounts of cash with low risk of change in value.

Cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management strategy.

(iv) Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service;
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off;
- Amortisation of intangible fixed assets attributable to the service.

(v) City Region Deal

The Council has applied the principles of IPSAS 23 'Revenue from non-Exchange transactions (Taxes and Transfers)' in accounting for the transactions and balances relating to the City Region Deal.

Growth paid to the accountable body (South Gloucestershire Council) for the Business Rates Pool (BRP) is recognised by the Council as a debtor until such point that the funds are paid out by the BRP or committed by the Economic Development Fund (EDF) to fund future EDF payments in respect of approved programmes.

- Income - Income receivable by the Council from the BRP is recognised as revenue in the year in which it occurs. The council recognises revenue and a debtor balance to the extent that future EDF disbursements are to be received, have been committed to by the EDF, and sufficient uncommitted cash remains in the BRP to fund future payments.
- Expenditure – Expenditure is recognised by the Council on the earlier of payments being made by the BRP or where future EDF payments are committed to. Expenditure is recognised in proportion to the degree that the Council has contributed to the BRP through its growth figure, and is capped at the limit of the Council's payment of growth to the BRP in this period, and any previous growth figures paid over which have not been previously paid or committed by the BRP.

(vi) Collection Fund and Local Taxation

Bristol City Council is a billing authority for local taxation and collects:

- Council Tax on behalf of the Avon and Somerset Police and Crime Commissioner, Avon Fire Authority and itself; and
- Non Domestic Rates on behalf of Avon Fire Authority, the West of England Combined Authority (WECA) and itself.

The Collection Fund shows the transactions of the billing authority in relation to the collection from taxpayers and the distribution to local authorities, central government and precepting bodies of council tax and non-domestic rates (NDR). There is no requirement for a separate Collection Fund Balance Sheet since the assets and liabilities arising from collecting non-domestic rates and council tax belong to the bodies (i.e. major preceptors, the billing authority and the Government). The Collection Fund is effectively an agency account therefore income, expenditure and balance sheet transactions are apportioned between the Council, central government and precepting bodies.

The council tax and NDR income included in the Comprehensive Income and Expenditure Statement is the Council's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the Council's General Fund. Therefore, the difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund

is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement. The Balance Sheet includes the Council's share of the end of year balances in respect of council tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

(vii) Employee Benefits

Benefits Payable During Employment

Monetary benefits such as wages and salaries, paid leave and bonuses, and non-monetary benefits (e.g. cars) for current employees are recognised as an expense in the year in which employees render service to the Council. An accrual is made to represent the cost of holiday entitlement earned but not taken at each year end, to meet Code and IAS requirements.

Termination Benefits

When the Council is demonstrably committed to the termination of the employment of an officer or group of officers or making an offer to encourage voluntary redundancy, these costs are charged on an accruals basis to the respective Service line in the Comprehensive Income and Expenditure Statement.

Post-Employment Benefits

Employees of the Council are members of three separate pension schemes:

- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education.
- The Local Government Pension Scheme, administered by Bath and North East Somerset Council.
- The NHS Pension Scheme, for Public Health employees, administered by NHS Pensions.

All of the above schemes provide defined benefits to members e.g. retirement lump sums and pensions, earned as employees working for the Council.

However, the arrangements for the Teachers' scheme and NHS Scheme mean that liabilities for these benefits cannot ordinarily be identified for the Council. These schemes are therefore accounted for as if they were defined contributions schemes and no liability for future payments of benefits is recognised in the Balance Sheet. The CIES is charged with the employer's contributions payable to Teachers pensions and NHS pensions in the year.

The Local Government Pension Scheme

The Local Government Pension Scheme is accounted for as a defined benefits scheme:

The liabilities of the Avon Pension Fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method - i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc., and projections of projected earnings for current employees. Liabilities are measured on an actuarial basis discounted to present value, using the projected unit method. The discount rate to be used is determined in reference to market yields at balance sheet date of high quality corporate bonds.

The assets of Avon Pension Fund attributable to the Council are included in the Balance Sheet at their fair value:

- Quoted securities - current bid price;
- Unquoted securities - professional estimate;
- Unlisted securities - current bid price;
- Property - market value.

The change in the net pension liability of the Council is analysed into the following components:

- Current Service Cost - the increase in liabilities as a result of years of service earned this year - allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked.
- Past Service Cost - the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years - debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
- Net interest on the net defined benefit liability/asset, i.e. net interest expense for the Council – the change during the period in the net defined benefit liability/asset that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement. This is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability/asset at the beginning of the period, taking into account any changes in the net defined benefit liability/asset during the period as a result of contribution and benefit payments.
- Re-measurement of the return on plan assets – excluding amounts included in net interest on the net defined benefit liability/asset, charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
- Actuarial gains and losses - changes in the net pension's liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions. These changes are debited to the Pensions Reserve as Other Income and Expenditure.
- Contributions paid to the Avon Pension Fund - cash paid as employer's contributions to the Pension Fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the Pension Fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the Pension Fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits earned by employees.

In 2017/18, the Council made an up-front payment of the LGPS deficit contributions for the three years 2017/18 - 2019/20 totalling £44.183m (net of academy conversions). The up-front payment took advantage of the independent Actuary's calculation of the return these contributions could achieve once invested by the Pension Fund. The discount calculated by the Actuary for making the up-front payment (net of academy conversions) rather than the typical approach of monthly payments in arrears over the three year period was £2.968m, reducing total payments from £47.151m to £44.183m. The result of this accounting treatment is that the Pension Liability and the Pension Reserve will not be aligned until the close of 2019/20, by which time the total contribution will have been charged to the General Fund. The return was judged to be far greater than could have been achieved by investing the amounts as part of the Council's Treasury Management Strategy and the approach represented good value for money for the Council.

Discretionary Benefits

The Council has restricted powers to provide discretionary post-employment benefits. Any such benefits are accrued for in the year of the decision to make the award and are charged to the Comprehensive Income and Expenditure Statement against the service in which the employees worked.

(viii) Events After The Reporting Period

Events after the balance sheet date are those events, both favourable and unfavourable, which occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period. In this instance, the Statement of Accounts is adjusted to reflect such events.
- Those relating to conditions that arose after the reporting period. In this instance, the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date when the Statement of Accounts is authorised for issue are not reflected in the Statement of Accounts.

(ix) Fair Value Measurement

The Council measures some of its non-financial assets such as surplus assets and investment properties and some of its financial instruments such as equity shareholdings at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) in the principal market for the asset or liability, or
- b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The Council measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Council uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the Council's financial statements are categorised within the fair value hierarchy, as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Council can access at the measurement date

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – unobservable inputs for the asset or liability.

(x) Financial Instruments

The Council adopted the IFRS 9 Financial Instruments accounting standard with effect from 1st April 2018. The accounting policies set out below are those required by IFRS 9. The Council has made use of the transitional provisions in IFRS 9 to not restate the prior year's financial statements and therefore prior year comparatives are produced under the previous accounting standard IAS 39 Financial Instruments: Recognition and Measurement. The main changes include the reclassification and remeasurement of financial assets so that they now reflect the Council's business model for holding the assets and their cashflow characteristics; and the earlier recognition of the impairment of financial assets under the Expected Credit Loss model. The effects of these changes arising from the transition are set out in Note 22 Financial Instruments.

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. As annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are

based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument, the effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the Council's borrowings this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest). Interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund balance to be spread over future years. The council has a policy of spreading the gain or loss over the term of the replacement loan that was used to refinance the loan against which the premium was payable or discount receivable. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified using an approach that is based on the business model for holding the financial assets and their cashflow characteristics.

There are three main classes of financial assets measured at:

- amortised cost
- fair value through profit or loss (FVPL), and
- fair value through other comprehensive income (FVOCI)

The council's business model for most of its investments is to hold them to collect contractual cash flows. Financial assets are therefore classified as amortised cost. There are some exceptions, where the council holds strategic investments to help it meet other policy objectives, such as the support of economic development in the county. This means that some investments are ones where contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the council, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

However, from time to time the Council makes loans to voluntary organisations at less than market rates (soft loans). When soft loans are made, a loss is recorded in the CIES (debited to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal. Interest is credited to the Financing and Investment Income and Expenditure line in the CIES at a marginally higher effective rate of interest than the rate receivable from the voluntary organisations, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the CIES to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement. Any gains and losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

In addition, the council does have deferred payment policies where individuals are allowed to defer payment against an invoice raised by the council, for example where the council holds a legal

charge against a property that enable sums to be reimbursed from sale proceeds at a later date. These are similar to loans at less than market rates and are referred to as soft loans. If any the lost interest against the soft loan was significant then adjustments would be made to the relevant service revenue account and Balance Sheet. However the impact on the council's revenue account of soft loans and lost interest is not financially significant and the accounts have not been adjusted to reflect these requirements.

Expected Credit Loss Model

The council recognises expected credit losses on all of its financial assets held at amortised cost or FVOCI, either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the council.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

Financial Assets Measured at Fair Value through Profit or Loss (FVPL)

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

The fair value measurements of the financial assets are based on the following techniques:

- instruments with quoted market prices – the market price
- other instruments with fixed and determinable payments – discounted cash flow analysis.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the council can access at the measurement date.
- Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.
- Level 3 inputs – unobservable inputs for the asset.

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

An equity instrument can be elected into a FVOCI treatment rather than a FVPL treatment if it is not held for trading. The council has reviewed its assets that would be measured at FVPL on the basis of the business model and has elected to classify instruments as either FVPL or FVOCI on an instrument-by-instrument basis based on the assessed benefit to the council from the chosen classification.

(xi) Government Grants and Contributions

Whether paid on account, by instalments or in arrears, Government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- The Council will comply with the conditions attached to the payments; and
- The grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

(xii) Heritage Assets

The Council's Heritage Assets are predominantly on display in museum buildings and galleries in the city, held in storage or loaned out to other educational or cultural organisations. The Bristol museums and art galleries are home to a significant number of objects from all over the world which are held to support the primary objective of increasing the knowledge, understanding and appreciation of history and culture through the following:

- Art, Eastern art and applied art;
- Archaeology, Ethnography and foreign archaeology including Egyptology and Geology;
- Natural history, social history, industrial and maritime history.

These assets are all valued on a historic cost basis or an annual insurance valuation basis.

The Council holds numerous ancient monuments and statues which are not recognised on the Balance Sheet because of the diverse and often unique nature of the assets held and the lack of comparable market values.

There is no depreciation charge against heritage assets because it is estimated that the assets have an extended and indeterminate useful life such that any depreciation charge would be negligible. The carrying values of Heritage Assets are reviewed when there is evidence of impairments e.g. when an asset has suffered physical deterioration or breakage or where doubts arise as to its authenticity. Any reductions to the carrying value of the assets are recognised and measured in accordance with the Council's general policy on impairments.

(xiii) Interests in Companies and Other Entities

(a) Subsidiaries

Subsidiaries are all entities over which the Council has control. The Council controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The Council's material subsidiaries are Bristol Holding Limited (which is directly held) and Bristol Waste Company Limited and Bristol Energy Limited (which are both indirectly held). There are no non-controlling interests.

In the single entity accounts, the Council has opted to account for its investments in subsidiaries in accordance with Chapter 7 of the Code, Financial Instruments. The investments are accordingly classified as fair value through other comprehensive income (FVOCI) and are carried in the Balance Sheet at fair value. Changes in the fair value of the Council's investments in subsidiaries are recognised in Other Comprehensive Income. Impairments are recognised directly in the Surplus/Deficit on the Provision of Services.

In the group accounts, the subsidiaries are consolidated on a line by line basis with adjustments to eliminate intra-group transactions, balance and unrealised gains on transactions between the group entities. Where necessary, amounts reported by subsidiaries have been adjusted to conform to the Council's accounting policies.

b) Joint Arrangements

A Joint Arrangement is an arrangement of which two or more parties have joint control where the parties are bound by contractual arrangement and the contractual arrangement gives two or more of those parties joint control of the arrangement. Joint Arrangements are classified as Joint Ventures or Joint Operations.

The Council has no material Joint Ventures.

A Joint Operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement.

The Council has one Joint Operation being the West of England Local Enterprise Partnership. In respect of this, the Council accounts for:

- Its assets, including its share of any assets jointly held
- Its liabilities, including its share of any liabilities joint held
- Its revenue from the sale of its share of the output arising from the joint operation
- Its share of the revenue from the sale of the output by the joint operation
- Its expenses, including its share of any expenses incurred jointly.

(xiv) Investment Property

Investment properties are those that are used solely to earn rental income and/or for capital appreciation. The definition does not apply if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on “the highest or best price that can be obtained in the most advantageous market, in an arms’ length transaction between knowledgeable participants at the measurement date”. Investment Properties are not depreciated but are revalued annually according to market conditions at the year-end

Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rental Income received in relation to investment properties is credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and, for sale proceeds, the Capital Receipts Reserve.

(xv) Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all of the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases. Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Council as Lessee

Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred. Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment - applied to write down the lease liability; and

- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Council at the end of the lease period).

The Council is not required to raise Council Tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease; even if this does not match the pattern of payments (e.g. if there is a rent-free period at the commencement of the lease).

The Council as Lessor

Finance Leases

To date the Council has not granted any Finance Leases.

Operating Leases

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. if there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

(xvi) Minimum Revenue Provision (MRP)

The Council is not required to use Council Tax to fund depreciation, revaluation and impairment losses or amortisation of non-current assets. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to either an amount calculated on a prudent basis or as determined by the Council in accordance with statutory guidance. The basis for this provision was approved by Full Council in the 2018-19 budget report on the 20 February 2018.

(xvii) Overheads And Support Services

The Council operates and manages its support services within the Resources Directorate and this is how these services are reported to management. The costs of overheads and support services are therefore not re-apportioned (with the exception of ring fenced accounts such as the HRA, Public Health and Licencing).

(xviii) Prior Period Adjustments

Prior period adjustments arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are only accounted for prospectively i.e. in the current and future years which are affected by the changes, they do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices, or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change

in accounting policy is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances for the current year and comparative amounts for the prior period as if the new policy had always been applied.

Where material errors are discovered in prior period figures they are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

(xix) Service Concessions

Service concessions are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the contractor. As the Council is deemed to control the services that are provided under these schemes, and as ownership of the property, plant and equipment will pass to the Council at the end of the contracts for no additional charge, the Council carries the assets used under the contracts on its Balance Sheet as part of Property, Plant and Equipment.

The original recognition of these assets at fair value (based on the cost to purchase the property, plant and equipment) is balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment.

Non-current assets related to these contracts and recognised on the Balance Sheet are revalued and depreciated in the same way as property, plant and equipment owned by the Council.

The amounts payable to the contract operator are analysed into the following elements:

- Fair value of any services received during the year;
- Finance cost - an interest charge of the effective rate of interest on the outstanding Balance Sheet liability;
- Contingent rent payable under the agreement;
- Lifecycle replacement costs where applicable;
- Payment towards liability - applied to write down the Balance Sheet liability to the PFI operator (the profile of write-downs is calculated using the same principles as for a finance lease).

(xx) Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Capital schemes above £0.25m are subject to annual review and any expenditure incurred which has not enhanced the asset's value is charged as an expense in the financial year that it is incurred. Expenditure on capital assets totalling less than £20,000 in any single financial year is classed as de-minimis and therefore is not capitalised but charged as an expense.

Measurement

Assets are initially measured at cost, comprising:

- The purchase price;
- Any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

The Council does not capitalise borrowing costs.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows

of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are then carried in the Balance Sheet using the following measurement bases:

- Infrastructure and community assets - depreciated historical cost;
- Assets under construction - historical cost;
- Dwellings - fair value, determined using the basis of existing use value for social housing (EUV-SH);
- Surplus assets – the current value measurement base is fair value, defined as “the highest or best price that can be obtained in the most advantageous market, in an arms’ length transaction between knowledgeable participants at the measurement date”;
- All other assets – current value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV).

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value.

Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

When decreases in value are identified, they are accounted for in the same way as an impairment.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for as follows:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line in the Comprehensive Income and Expenditure Statement.
- Where an impairment loss is subsequently reversed, the reversal is credited to the relevant service line in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for the depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land, car parks, quay walls and lock gates, some Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- Council dwellings - are depreciated based upon component accounting basis. In the year of disposal six month depreciation is charged to the accounts.

- Other buildings - straight-line allocation over the useful life of the property as estimated by a qualified valuer;
- Vehicles, plant and equipment - a percentage of the value of each class of assets in the Balance Sheet;
- Infrastructure, (excluding quay walls and lock gates) - straight-line allocation over 25 years;
- Infrastructure, quay walls and lock gates in city docks are not depreciated as their economic life is beyond 100 years.

The Council applies component accounting to all assets with a net book value in excess of £5m - where the item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, identified components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals and Non-current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previously losses recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as Held for Sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

When an asset is disposed of or is decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10k are categorised as capital receipts. A proportion of receipts relating to housing disposals is payable to the government. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the HRA's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against Council Tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

(xxi) Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place whereby the Council has a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the relevant provision. Estimated settlements are reviewed at the end of each financial year, where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made); the provision is reversed and credited back to the relevant service.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably. Contingent liabilities are not recognised in the Balance Sheet but are disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent assets are not recognised in the Balance Sheet but are disclosed in a note to the accounts.

(xxii) Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against Council Tax for the expenditure.

The category of unusable reserves includes those reserves which are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council. These reserves are explained in the relevant notes.

(xxiii) Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account reverses out the amounts charged so that there is no impact on the level of council tax.

(xxiv) Schools

The Code of Practice on Local Authority Accounting in the United Kingdom 2018/19 confirms that the balance of control for local authority maintained schools (i.e. those categories of school identified in the School Standards and Framework Act 1998, as amended) lies with the local authority. The Code also stipulates that those schools' assets, liabilities, reserves and cash flows are recognised in the single entity accounts of the Council (and not the Group Accounts). Therefore schools' transactions, cash flows and balances are recognised in each of the financial statements of the Council as if they were the transactions, cash flows and balances of the Council.

Schools within the Council's group fall into the following categories

- 53 Community (12 Nurseries, 33 Primaries, 6 Special and 1 Alternative Provision Site)
- 1 Foundation Primary

Other types of school, such as voluntary aided and voluntary controlled schools, academies and free schools are outside of the Council's control and therefore not included in this Statement of Accounts.

(xxv) Value Added Tax

The Comprehensive Income and Expenditure Account excludes amounts relating to VAT and will be included as an expense only if it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income within the Council's Income and Expenditure account.

2 Accounting Standards that have been issued but have not yet been adopted

The Code of Practice on Local Council Accounting in the United Kingdom (the Code) requires the Council to disclose information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted.

At the balance sheet date, the following new standards and amendments to existing standards have been published but not yet adopted by the Code of Practice of Local Authority Accounting in the United Kingdom:

IFRS 16 Leases will require local authorities that are lessees to recognise most leases on their balance sheets as right-of-use assets with corresponding lease liabilities (there is recognition for low-value and short term-leases). CIPFA/LASAAC has deferred implementation of IFRS16 for local government to 1 April 2020.

IAS 40 Investment Property: Transfers of Investment Property provides further explanation of the instances in which a property can be classified as investment property. We do not anticipate this having any impact on the Council

IFRIC 22 Foreign Currency Transactions and Advanced Consideration clarifies the treatment of payments in a foreign currency made in advance of obtaining or delivering services or goods. The Council does not have any material transactions likely to be affected by this

IFRIC 23 Uncertainty over Income Tax Treatments provides additional guidance on income tax treatment where there is uncertainty. There is unlikely to be any impact on the Council.

IFRS 9 Financial Instruments: prepayment features with negative compensation amends IFRS9 to make clear that amortised cost should be used where prepayments are substantially lower than the unpaid principal and interest. There will be no impact as the Council does not have any such loans.

3 Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in Note 1, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are as follows:

- The Council has completed a school by school assessment across the different types of school it controls within the City. The Council has assessed the legal framework underlying each type of school and determined the treatment of non-current assets within the financial statements according to whether it owns or has some responsibility for, control over or benefit from the service potential of the premises and land occupied. The Council has considered its accounting classification for each school on an individual case basis in conjunction with the relevant dioceses for voluntary aided and voluntary controlled schools.

All community schools are owned by the Council and the land and buildings used by the schools are included on the Council's Balance Sheet.

Legal ownership of Voluntary Controlled (VC) and Voluntary Aided (VA) school land and buildings usually rests with a charity, normally by a religious body. Legal ownership of 10 VA schools rests with Clifton Diocese. Legal ownership of the remaining VA and VC schools rests with Bristol Diocese. We understand that the Diocese have granted a licence to the schools to use the land and buildings. Under this licence arrangement, the rights of use have not transferred to the schools and thus are not included on the Council's Balance Sheet.

There are two Foundation Trusts in Bristol - the South East Bristol Educational Trust and the Trust in Learning – who own 3 schools in the City. The Council exercises no control over these Trusts so these assets are not included on the Council's Balance Sheet.

Academies are not considered to be maintained schools in the Councils control. The land and building assets are either, not owned by the Council, or let on a long term lease (125 years) by the Council and therefore not included on the Council's Balance Sheet.

- There is a high degree of uncertainty about future levels of funding for Local Government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision.
- The costs of the Schools Private Finance Initiative (PFI) Contracts exceed the income received from the Government Grant and School Contributions, leaving the Council with a liability under the PFI Contracts. All PFI Schools have now transferred to Academy status and these assets have been removed from the Council's balance sheet. Following a review of the costs and benefits, the Council considers the contract not to be onerous as the benefits significantly outweigh the costs.
- In the single entity accounts, the Council has opted to account for its investments in subsidiaries in accordance with Chapter 7 of the Code, Financial Instruments. The investments are accordingly classified as fair value through other comprehensive income (FVOCI) and are carried in the Balance Sheet at fair value. Changes in the fair value of the Council's investments in subsidiaries are recognised in Other Comprehensive Income. Impairments are recognised directly in the Surplus/Deficit on the Provision of Services.

4 Assumptions made about the Future and other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future, or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's Balance Sheet at 31 March 2019 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Consequence if actual results differ from assumptions
Property, Plant and Equipment (excluding Council dwellings)	Asset valuations are based on market prices and are periodically re-valued using a 5-year rolling programme to ensure that the Council does not materially misstate its property, plant and equipment. If market prices change significantly, over time there will be a corresponding increase or reduction in the value of Council land and buildings.	A reduction in estimated valuations would result in reductions to the Revaluation Reserve and/or a loss recorded in the Comprehensive Income and Expenditure Statement. If the value of the Council's property, plant and equipment was to reduce by say 10%, this would result in a £95m change in cost value charged against the Revaluation Reserve and/or the Comprehensive Income and Expenditure Statement. A corresponding increase in estimated valuations would result in a combination of increases to the Revaluation Reserve and / or reversals of previous negative revaluations charged to the Comprehensive Income and Expenditure Statement.
Pensions Liability	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to: the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on Pension Fund investments. The Council has engaged Mercer Ltd, a firm of consulting actuaries, to provide expert advice about the assumptions to be applied.	Variations in the key assumptions will have the following impact on the net pension liability <ul style="list-style-type: none"> • a 0.1% increase in the discount rate will reduce the net pension liability by £45m • a 0.1% increase in the assumed level of pension increases will increase the net pension liability by £46m • a 0.1% increase in the assumed level of pay inflation will increase the net pension liability by £5.4m • an increase of one year in longevity will increase the net pension liability by £51m

Fair Value Estimation	<p>Asset valuations are based on either:</p> <ul style="list-style-type: none"> market prices for investment property, surplus assets and non-current assets held for sale: or the adjusted net worth of unquoted companies in which the Council has a controlling or significant interest. <p>If valuations change significantly there will be a corresponding increase or reduction in the Balance Sheet value of these assets.</p>	<p>If the value of the Council's investment property, surplus property and non-current assets held for sale, was to reduce by 10%, this would result in a £29m reduction to Property, Plant and Equipment and a corresponding reduction to Unusable Reserves in the Balance Sheet.</p>
Britain leaving the European Union: asset values and pension liability	<p>There is a high level of uncertainty about the implications of Britain leaving the European Union. At the current time there are three possible scenarios: a “no deal” Brexit, an agreement with a transition period and an extension to EU membership of unknown length. It is not possible to predict which path will be taken and whether asset values and the discount rate will consequently change. The assumption has been made that this will not significantly impair the value of the Council's assets or change the discount rate. However this assumption needs to be revisited and reviewed regularly.</p>	<p>Higher impairment allowances may need to be charged in the future if asset values fall. If the discount rate changes, the size of the net pension liability will also vary.</p>

5 Events after the Balance Sheet Date

The Statement of Accounts was authorised for issue by the Section 151 Officer on 28 May 2019. Events taking place after this date are not reflected in the financial statements or Notes. However there have been two significant events since the 31 March 2019 up to the date the accounts were authorised for issue by the S151 Officer. The primary statements have not been adjusted for these however details are set out below.

The outbreak of the Coronavirus will have a significant impact on short to medium term, economic activity in the UK.

It is difficult to determine how COVID-19 will specifically impact on the City Council but at a very high level the Council has modelled a number of potential scenarios based on varying assumptions of longevity and severity with a medium case that indicates that the potential impact on the Council's finances by 31 March 2021 could be in the region of £113m. This includes circa. £33m which will be in the Collection Fund and as such if materialises the timing difference would create a budget impact in the financial year 2021/22.

Areas of the financial statements that could be significantly impacted include the Council's investment properties, expected credit losses related to receivables, net defined benefit pension liability and other investments, including those in the Council's subsidiaries, however at this point it is not possible to make a reliable estimate of the financial impact this may have on the Council. .

Government, have pledged to provide councils with the resources they need to meet this challenge and to date the Council has received additional funding of £30.4m towards mitigating measures. The Council does have some specific reserves the most relevant of which is £20m general reserves which could provide some short term alleviation but would need to be replenished shortly after to support further unknown cost pressures.

The Council continue to work proactively with the government to produce the additional information / evidence sought in relation to costs and loss of income being incurred and this will support decisions in relation to a further tranche of funding. Failure to deliver on the pledge to

meet the true costs / impact of the pandemic will have long term effect on the Council as it transitions from the crisis into recovery and the Council like many others will need to explore alternative options to sustain the authority whilst protecting the most vulnerable.

During the last six months of 2019/20 there has been a down turn in the market conditions Bristol Energy operates under. This, in part, has been caused by a sharp fall in oil, gas and electricity retail prices along with weather related reduced customer consumption. These conditions were not in place at the end of 2018/19 and could not have been reasonably forecasted at the time.

Since 31 March 2019 the Council has invested a further £7.7m of its planned cash investment in Bristol Holding Limited. This took the form of ordinary share capital £1.9m and £5.8m in preference share capital (this will be reflected in the valuation of the Council's long-term investments and explained further in note 22). However given market conditions, the coronavirus pandemic and more recently the uncertainty regarding the final outcomes of decisions the Council may take regarding Bristol Energy's future (including its recent decision to progress the sale of the business and or assets), the carrying value of this investment and the liability arising from the Council's Parent Company Guarantees combined, could be materially impacted at the end of March 2020.

Given the extent of uncertainty regarding the final outcome of the matters currently under consideration, the Council cannot make a reliable estimate of the financial implications to its accounts at this time. A further disclosure has been provided in the Group accounts at page 175.

6 Expenditure and Funding Analysis for the year ended 31 March 2019

The objective of the Expenditure and Funding Analysis is to demonstrate to council tax and rent payers how the funding available to the Council (i.e. government grants, rents, council tax and business rates) for the year has been used in providing services in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. The Expenditure and Funding Analysis also shows how this expenditure is allocated for decision making purposes between the Council's directorates. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

Adjustments from General Fund to arrive at the Comprehensive Income & Expenditure Statement amounts	Net Expenditure Chargeable to the General Fund and HRA Balances						Net Expenditure in the Comprehensive Income and Expenditure Statement	
	Revised Outturn	Adjustments (EFA Note 1)	Adjustments for Capital Purposes (EFA Note 2)	Net change for the Pension Adjustments (EFA Note 3)	Other Differences (EFA Note 4)	Total Adjustments

* For a split of this balance between the General Fund and the HRA -see movements in Reserves Statement

EFA Note 1 – Adjustments

The reallocation of transactions to/from service areas below the net cost of services to Other Income and Expenditure for example interest receivable and interest payable from Corporate Funding and Expenditure to Other Income and Expenditure. The removal of transfers to/from reserves included in outturn in Corporate Funding & Expenditure as these are not shown on the face of the CIES.

EFA Note 2 - Adjustments for Capital Purposes

Adjustments for capital purposes - this column adds in depreciation, impairment and revaluation gains and losses in the services line for:

- Other Operating Expenditure - adjusts for capital disposals with a transfer of income on disposal of asset and the amounts written off for those assets.
- Financing and investment income and expenditure - the statutory charges for capital financing i.e. Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.
- Taxation and non-specific grant income and expenditure - capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year. The taxation and Non Specific Grant Income and Expenditure line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

EFA Note 3 - Net change for Pension Adjustments

Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income:

- For Services this represents the removal of the employer pension contributions made by the Council as allowed by statute and the replacement with current service costs and past service costs.
- For Financing and investment income and expenditure this is the net interest on the defined benefit liability is charged to the CIES

EFA Note 4 - Other Differences

Other differences between amounts debited/credited to the Comprehensive Income and Expenditure Statements and amounts payable/receivable to be recognised under statute:

- For Financing and investment income and expenditure the other differences column recognises adjustments to the General Fund for the timing differences for premiums and discounts.
- The charge under Taxation and non-specific grant income and expenditure represents the difference between what is chargeable under statutory regulations for council tax and NDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

7 Expenditure & Income Analysed By Nature

	2018/19	2017/18 Revised
Expenditure & Income Analysed By Nature	£000	£000
Expenditure		
Employee Benefits Expense	361,641	345,990
Depreciation, Amortisation & Impairment	67,880	88,091
Other Service Expenditure	757,608	750,877
Total Expenditure	1,187,129	1,184,958
Income		
Fees, Charges and Other Service Income	(303,722)	(304,645)
Interest & Investment Income	(10,402)	(9,856)
Income from Council Tax & Non-domestic Rates	(350,161)	(346,096)
Government Grants, Other Grants and Contributions	(482,971)	(511,091)
Total Income	(1,147,306)	(1,171,688)
Surplus or deficit on the Provision of Services	39,823	13,270

7a Revenue from Contracts with Customers

Further to a review of this area, the Council can confirm that there is no material contractual revenue income from customers to disclose. There are therefore no additional disclosures in relation to the introduction of IFRS 15-Revenues from Contracts with Customers. However the table below sets out the material items of income within fees, charges and other service income in the table above.

	2018/19 £'000	2017/18 £'000
Contributions from Other Organisations	57,053	55,453
Health Authorities	20,452	20,710
Other Local Authorities	11,571	12,033
Social Care Charges	24,724	23,571
Sales of Services	9,018	9,545
Car Parking	13,294	11,960
Housing Revenue Account Income	119,168	121,817
Commercial Rents	17,828	15,727

8 Other Operating Expenditure

	2018/19 £'000	2017/18 £'000
Precepts and levies	7,691	9,993
Payments to the Government housing capital receipts pool	2,614	6,055
Losses/(gains) on the disposal of non-current assets	15,641	14,132
Total	25,946	30,180

9 Financing and Investment Income and Expenditure

	2018/19	2017/18
	£'000	£'000
Interest payable and similar charges	35,354	47,466
Pensions net interest cost	21,106	21,374
Interest receivable and similar income	(10,213)	(9,854)
Income and expenditure in relation to Investment Properties	(11,272)	(10,991)

11 Pooled Budgets

Better Care Fund

The Better Care Fund was established by the Government to provide funds to local areas to support the integration of health and social care and to seek to achieve the National Conditions and Local Objectives. It is a requirement of the Better Care Fund that NHS Bristol Clinical Commissioning Group and Bristol City Council establish a pooled fund for this purpose which was achieved in 2018/19 through a jointly signed agreement under Section 75 of the National Health Service Act 2006. The formal governance of the Better Care Fund is through the Joint Commissioning Board and the Bristol Health and Well Being Board.

Under this Section 75 agreement there are five funds totalling £57.529m in 2018/19 and administered by whichever body undertook the contracting arrangements.

Fund 1 is administered by Bristol Clinical Commissioning Group and totals £13.405m. The fund includes contributions from the CCG only, which have been paid to providers contracted to support the sub schemes Reduction in Hospitals Admissions, Frail and Complex, Falls Prevention and Reablement. The CCG controls this fund in its entirety and wholly owns any risk relating to this fund as per the Section 75 agreement.

Fund 2 is administered by Bristol City Council and totals £6.785m. The source of funding for this is a mixture of existing CCG expenditure streams with Bristol City Council and the former NHS England funding, previously transferred under Section 256 agreement in 2014/15, which now forms part of the CCGs allocation including funding allocated under Preparing for Better Care

Fund 3 is administered by Bristol City Council and totals £9.366m. The fund includes contributions from the CCG only. The City Council is the Lead Commissioner for the services commissioned through this fund.

Fund 4 is hosted by Bristol City Council and totals £2.882m, which is wholly made up of the Disabled Facilities Grant. The fund includes contributions from the City Council only, which are paid directly to providers. This fund was increased in to £3.218m following an increase in DFG grant. The City Council controls this fund in its entirety and wholly owns any risk relating to this fund as per the Section 75 agreement.

Fund 5 is hosted by Bristol City Council and totals £12.009m, which is wholly made up of the improved Better Care Fund (iBCF). The fund includes contributions from the City Council only, which are paid directly to providers. The City Council controls this fund in its entirety and wholly owns any risk relating to this fund as per the Section 75 agreement.

Better Care Fund	Fund 1	Fund 2	Fund 3	Fund 4	Fund 5	Total
	£'000	£'000	£'000	£'000	£'000	£'000
Funding provided to the pooled budget:

Total expenditure from Pooled Budget	13,405	9,242	9,366	3,266	12,009	47,288
Net surplus/(deficit) on the pooled budget during the year	-	(2,457)	-	(384)	-	(2,841)
Bristol City Council's share of the net surplus/(deficit) arising on the pooled budget	-	(52)	-	(384)	-	(436)

Drugs Action

The Council established a partnership agreement with the NHS Bristol, Working Links and other partners using powers under Section 31 of the Health Act 2006 to pool funds and create a single budget. The budget is used to commission Drug and Alcohol Treatment Services for Adults and Substance Misuse Services for Young People, but from 2018/19 no funding is received from external sources so this will no longer be treated as a pooled budget. Expenditure is shown below for comparison to previous years:

	2018/19	2017/18
	£'000	£'000
Funding provided to the pooled budget:		
Balance Brought Forward	1,986	1,986
Bristol City Council General Fund	1,106	1,611
Bristol City Council Public Health	7,178	7,456
Other Bodies		98
	10,270	11,151
Expenditure met from the pooled budget		
Drug and alcohol services for adults	8,285	9,165
Substance Misuse Services for Young People		-
	8,285	9,165
Net underspend carried forward	1,985	1,986

The Council paid the following amounts to members of the Council during the year.

	2018/19	2017/18
	£'000	£'000
Basic allowance	857	880
Special responsibility allowances	359	356
Travelling and subsistence allowance	3	5
Total	1,219	1,241

In addition to the above, the elected Mayor is paid an annual allowance amounting to £70,604.
(2017/18: £69,219)

The 2017/18 figure for Members allowance includes backdated payments relating to the period 1st January 2015 – 1st April 2017.

13 Officers' Remuneration & Exit Packages

Where a senior officer's annual salary is £50,000 or more, but less than £150,000, remuneration is disclosed individually by way of job title. For those senior officers whose salary is £150,000 or more, their name is also disclosed. The remuneration paid to the Executive Directors for Resources, Adults, Children and Education, Communities and Growth and Regeneration Directorates, Senior Coroner, Chief Financial Officer and Monitoring Officer during the year was as follows:

(Interim)* The amounts disclosed in the table below in respect of these posts are the costs incurred by the Council to secure the individuals services on this basis and not the amounts these individuals actually received (which will have been lower).

2018/19				Salary, Fees and Allowances	Compensation for Loss of Office	Pension Contribution	Total

1 D Murray acted into this position but retained S151

2. The Head of Paid Service post was covered by Executive Director Adults, Children and Education for no extra remuneration until this permanent appointment was made

3. This post was deleted from December 2018 when the structure move from four Directorates to three

4 The post of Her Majesty's Coroner for the area of Avon is shared across four Unitary Authorities. The current percentage share is: Bristol 40.04%, Bath & North East Somerset 16.45%, North Somerset 18.94% and South Gloucestershire 24.57%

5 The Service Director Care and Support Adults was an interim for the period April – December 2018. For the period January to March 2019 he was employed directly by the Council

6 S151 responsibilities were covered by the Acting Director of Resources

Fees paid in respect of individuals engaged on an interim basis

The Council also secured services from various individuals on an interim basis during 2017/18 and 2018/19. The fees payable by the Council in respect of these individuals amounted to £150,000 or more pro rata, in 2018/19 were as follows:

- N Greenhalgh, who holds the position of **Project Manager Growth & Regeneration** from March 2018 to March 2019 at a cost to the Council in 2018/19 of **£239,788** (2017/18 of **£15,448**);
- N Owens, who holds the position of **Specialist Project Manager** from August 2018 to March 2019 at a cost to the Council in 2018/19 of **£163,566**;
- S Somerfield, who held the position of **Interim Service Director ICT** from December 2017 to September 2018 at a cost to the Council in 2018/19 of **£109,319** (2017/18 of **£71,610**);
- A Stubbersfield, who holds the position of **Interim Service Director Education and Skills** from September 2018 to March 2019 at a cost to the Council in 2018/19 of **£109,984**;
- J Walsh, who holds the position of **Service Director Human Resources & Workforce** from July 2017 to March 2019 at a cost to the Council in 2018/19 of **£160,558** (2017/18 of **£152,610**);
- P Wharfe, who held the position of **Interim Service Director Housing** from February 2018 to December 2018 at a cost to the Council in 2018/19 of **£97,650** (2017/18 of **£24,180**);

Statutory Officers – Director of Public Health (Interim)*	Mar '19	S Milner		18,400	-	-	18,400

1. Post Deleted in Jan 18. Following a review of the remuneration paid to the Chief Executive, A Klonowski, we have re-categorised a proportion of her salary as compensation for loss of office. This has not resulted in any additional cost to the Council.

2. The services of the Director of Resources were secured on an interim basis.

3. The Head of Paid service post was covered by existing Strategic or Executive Directors as follows; 1 – 10 October 2017 the Strategic Director for Adults, Children and Education; 11 October 2017 – 21 January 2018 the Strategic Director of Resources; 22 January to 31 March 2018 the Executive Director for Care and Safeguarding. The Strategic Director for People and Care and the Executive Director for Safeguarding did not receive any additional remuneration while covering for this post.

4. Post title changed for Strategic Director to Executive Director of resources. D Murray acted into this position but retained S151 responsibilities.

5. Post title changed for Strategic Director to Executive Director and directorate changed from People to Care & Safeguarding.

6. Post title changed for Strategic Director to Executive Director and directorate changed from Neighbourhoods to Communities.
7. Post title changed for Strategic Director to Executive Director and directorate changed from Place to Growth & Regeneration.
8. S151 responsibilities were covered by Interim Acting Director of resources.

Fees paid in respect of individuals engaged on an interim basis

The fees payable by the Council in respect of these individuals amounted to £150,000 or more pro rata, in 2017/18 were as follows:

- D Leatham, who held the position of **Interim Service Director Housing** from September 2017 to February 2018 at a cost to the Council in 2017/18 of **£84,352**;
- J Mcgeachie, who held the position of **HR Director** from May 2017 to October 2017 at a cost to the Council in 2017/18 of **£114,980**;
- A Scholes, who held the position of **Interim Director Resources Transformation** from April 2017 to December 2017 at a cost to the Council in 2017/18 of **£142,050**;

The amounts disclosed in respect of these individuals are the costs incurred by the Council to secure their services. The amounts received by the individuals will have been lower.

In addition to the remuneration of senior employees set out above, the number of the Council's employees receiving more than £50,000 remuneration for the year (excluding employer's contributions) is set out in the table below:

Remuneration band	2018/19 Number of employees		2017/18 Number of employees	
	Schools	Non-Schools	Schools	Non-Schools
£50,000 - £54,999	25	27	34	32

14 External Audit Costs

The Council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Council's external auditors Grant Thornton.

	2018/19 £'000	2017/18 £'000
Fees payable to the External Auditor with regard to external audit services carried out by the appointed auditor for the year	233	214
Fees payable to the External Auditor for the certification of grant claims and returns for the year	31	29
Fees payable in respect of other services provided by the External Auditor during the year	10	32
Total	274	275

15 Dedicated Schools Grant

The Council's expenditure on schools is funded primarily by grant monies provided by the Education and Skills Funding Agency (ESFA), the Dedicated Schools Grant (DSG). Once allocated to a local Council an element is recouped by the ESFA to fund academy schools in the council's area. The DSG is ring-fenced and can only be applied to meet expenditure properly included in the Schools Budget, as defined in the School Finance and Early Years (England) Regulations 2018. The Schools Budget includes elements for a range of educational services provided on a Council wide basis and for the Individual Schools Budget (ISB), which is divided into a budget share for each maintained school.

Details of the deployment of DSG receivable are shown in the following table:

2017/18 £'000			2018/19 £'000		
Central Expenditure	ISB	Total	Notes Central Expenditure	ISB	Total
		329,526			343,431
		Final DSG before academy recoupment			
		(151,849)			(173,360)
		Less: Academy figure recouped for year	1		
		177,677			170,071
		Total DSG after academy recoupment			
		(1,630)			(1,016)
		Plus: Brought forward from previous year	2		
		0			(517)
		Less: Carry forward agreed in advance	3		
23,709	152,338	176,047		24,521	144,017
		Agreed initial budgeted distribution			168,538

		Final budgeted distribution			168,839
(25,385)	-	(25,385)		(23,377)	-
		Less: actual central expenditure			(23,377)
-	(152,520)	(152,520)		-	(148,117)
		Less: actual ISB deployed to schools			(148,117)
-	-	0		-	4,100
		Plus: LA contribution for year			4,100
(1,676)	660	(1,016)		1,445	0
		Carry forward			1,445
		0			517
		Carry forward agreed in advance			517
		(1,016)			1,962
		Total carried forward (Note 18)	5		

1. The academy recoupment in 2017/18 comprised 63 academies open at the start of the year plus 8 school conversions in the year. The academy recoupment in 2018/19 comprised 71 academies open at the start of the year plus 9 that converted in year.
2. This is the brought forward figure from 2017/18.
3. Agreement with School Forum and Cabinet in January 2019, to allow for funding to be carried forward in advance for continuing the local maintained nursery supplement in 2019/20.
4. The in-year estimated adjustment for the final early years block funding 2018/19, following the January 2019 census data up-date, due in summer 2019.
5. The total carry forward surplus is £1.962m for the year. Cabinet on 18th June 2019 will consider how that balance will be attributed to the blocks of the DSG. On 15th May 2019, Schools Forum agreed to a proposal that £0.414m was in the Schools Block for services with de-delegated funding, £1.115m was in the Early Years Block and £0.433m underspend was in the High Needs Block.

16 Grant Income

The Council credited the following grants and contributions to the Comprehensive Income and Expenditure Statement in 2018/19:

Credited to Taxation and Non Specific Grant Income:

	2018/19 £'000	2017/18 £'000
Capital grants and contributions (Note 10 & see below)	27,786	35,534
Non service related government grants (Note 10)	12,020	12,101
Total	39,806	47,635

Capital grants and contributions

	2018/19 £'000	Restated 2017/18 £'000
Government grants applied:		
Adults, Children and Education	2,033	2,207
Growth & Regeneration	23,846	31,837
Resources	60	571
Section 106 contributions	933	919
Total Government Grants & Contributions applied	26,872	35,534
Government grants unapplied	914	-
Total grants credited to the CIES	27,786	35,534

The 2017/18 figures have been restated to take account of changes in the reporting structure during 2018/19 and to ensure appropriate disclosure of comparatives.

Grants Credited to Services

17 Adjustments between Accounting Basis and Funding Basis under Regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year, in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

2018/19	General fund balance	Housing Revenue Account	Capital Receipts	Major Repairs Reserve	Capital Grants Unapplied	Total Movement Usable Reserves
	£'000	£'000	£'000	£'000	£'000	£'000
Adjustment involving the Capital Adjustment Account:						
Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement						
Charges for depreciation and impairment of non-current assets	(39,291)	(26,205)	-	-	-	(65,496)
Movement in the market value of Investment Properties	(3,474)	(46)	-	-	-	(3,520)
Amortisation and impairment of Intangible Assets	(2,383)	-	-	-	-	(2,383)
Capital grants and distributions	27,786	-	-	-	-	27,786
Revenue and expenditure funded from capital under statute	(6,147)	-	-	-	-	(6,147)
Amount of non-current assets written off on disposal or sale as part of the (loss) on disposal to the Comprehensive Income and Expenditure Statement	(28,465)	(7,700)	-	-	-	(36,165)
Insertion of items not debited or credited to the Comprehensive Income and Expenditure Statement:						
Statutory provision for the financing of capital investment	6,864	-	-	-	-	6,864
Capital expenditure charged against the General Fund and HRA balances	10,209	10,160	-	-	-	20,369
Adjustments involving the Capital Receipts Reserve:						
Transfer of sale proceeds credited as part of the (loss) on disposal to the Comprehensive Income and Expenditure Statement	8,405	12,406	(20,811)	-	-	-
Administrative costs of non-current asset disposals	(288)	-	288	-	-	-
Use of the Capital Receipts Reserve to finance new capital expenditure	-	-	10,558	-	-	10,558
Contribution from the Capital Receipts Reserve to finance the payments to the Government capital receipts pool	(2,614)	-	2,614	-	-	-
Adjustment Involving the Major Repairs Reserve (MRR):						
Excess depreciation transferred to the MRR	-	-	-	-	-	-
HRA depreciation credited to MRR	-	25,015	-	(25,015)	-	-
Use of the MRR to finance new capital expenditure	-	-	-	22,634	-	22,634
Adjustments involving the Capital Grants Unapplied Account:						
Application of grants and contributions to capital financing	-	-	-	-	(915)	(915)
Adjustments involving the Financial Instruments Adjustment Account:						
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	177	-	-	-	-	177
Adjustments involving the Pensions Reserve:						
Reversal of items relating to retirement benefits debited or credited to the Comprehensive Income and Expenditure Statement (see Note 32)	(78,347)	(8,479)	-	-	-	(86,826)
Employer's pensions contributions and direct payments to pensioners payable in the year	43,503	4,404	-	-	-	47,907
Adjustments involving the Collection Fund Adjustment Account:						
Amount by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from council tax income calculated for the year in accordance with statutory requirements	5,831	-	-	-	-	5,831
Adjustment involving the Accumulating Compensated Absences Adjustment Account:						
Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	(1,848)	-	-	-	-	(1,848)
Other Reserve Movements

18 Usable Reserves

Reserves represent the Council's net worth and show its spending power. Usable reserves result from the Council's activities and can be spent in the future. This note sets out the amounts set aside and posted back to Usable Reserves in 2018/19, they include:

- General Fund Strategic Reserve – to cushion the impact of unexpected events or emergencies
- Earmarked Reserves – to provide financing to meet known or predicted future General Fund expenditure plans
- School Balances/DSG – amounts required by statute to be set aside for future expenditure in schools
- Housing Revenue Account Reserves – amounts specifically required by statute to be set aside and ring-fenced for future investment in HRA
- Capital reserves – includes capital receipts and capital grants set aside to finance future capital spending plans

Details of the earmarked reserves are set out below:

RESERVE	PURPOSE
Capital Investment Reserve	The capital reserve is maintained to provide funding for the Council's capital investments and growth in Enterprise areas.
Business Transformation Reserves	Invest to save funds. The reserve will be used to fund one-off costs attributed to delivery of savings in the currently agreed programme.
Risk Reserves	Risk Reserves Funds set aside to mitigate known risks not otherwise provided for including, contribute to costs of Waste contract until Nov 2018. Volatility in Housing Benefit Subsidy and uninsured risks.
Statutory/Ring-fenced reserves	Amounts required by statute or accounting code of practice to be set aside and ring-fenced for specific purposes, e.g. Public Health Reserve, City Deal Business Rate Pooling and Stoke Park Dowry.
Technical/Financing Reserve	Technical Financial Reserves - Includes PFI sinking fund, grant income carried forward in accordance with accounting regulations and resources set aside to match known contract liabilities.
Service specific reserves	Amounts set aside to finance specific projects or to meet known expenditure plans, including: <ul style="list-style-type: none"> - Bristol Futures - to provide new technology to improve public services - Development Fund primarily to fund Docks Asset Survey existing and proposed regeneration schemes - Housing Support to provide support for homelessness issues

19 Property, Plant and Equipment Movements in 2018/19

The valuations, excluding vehicles, plant, equipment, infrastructure assets and community assets are carried out by Richard Fear, MRICS, Property Investment Manager – Growth & Regeneration. The basis for the valuation of all assets is set out in the statement of accounting policies.

- Movement of assets held at historic cost to depreciated replacement cost
- Specialised assets are valued on a depreciated replacement cost basis and are subject to a number of varying factors such as build costs

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. The following useful lives and depreciation rates have been used:

- Council Dwellings 16–50 years
- Other Land and Buildings 5–60 years
- Vehicles, Plant, Furniture and Equipment 3–8 years
- Infrastructure – 25 years (quay walls and lock gates in City Docks not depreciated as useful life beyond 100 years)

Capital Commitments

At 31 March 2019 the Council had entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment with outstanding contract commitments of £39.9m.

Significant contractual commitments outstanding at 31 March 2019 were as follows:

		£m
New Housing Provision	Willmott Dixon Construction Ltd	19.7
Priority Stock – New kitchens inc rewiring	Jistcourt	7.8
Priority Stock – Refurbishment	Rateavon	3.7
Priority Stock – Refurbishment	SERS	2.0
Transport Infrastructure – Airport Road Improvements	ETM Contractors Ltd	1.9
Cattle Market Road – Demolition and Enabling Works	Kier Construction Ltd	1.6
New Housing Provision	Kier Living Ltd	1.2
School Expansion – Bristol Cathedral Choir School	Bristol LEP Ltd (Skanska)	1.0
	Total	38.9

Bristol Arena

In September 2018 the Council decided not to progress the proposed Arena on Temple Island. As a result costs already incurred on the Arena Island Site, amounting to £11.7m have been reversed into revenue.

Revaluations

The Council carries out a rolling programme that ensures all Property, Plant and Equipment required to be measured at fair value is revalued at least every 5 years. All valuations were carried out internally. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Vehicles, Plant and Equipment are valued at historic cost, which is considered to be a suitable proxy for fair value.

The following table shows the effective valuation dates for all Property Plant and Equipment:

	Council Dwellings	Other Land and Buildings	Vehicles, Plant, etc.	Infrastructure	Community Assets	Assets Under Construction	Surplus Assets	Total Property, Plant and Equipment
	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Carried at historical cost	-	3,759	68,595	331,124	8,715	17,985	-	430,178
1 October 2018	1,664,252	416,391	-	-	-	5,730	40,717	2,127,090
1 December 2017	-	11,861	-	-	-	6,669	-	18,530
1 April 2016	-	36,184	-	-	-	-	18	36,202
1 April 2015	-	75,218	-	-	-	-	-	75,218
1 April 2014	-	42,542	-	-	-	-	2,393	44,935
Total cost valuation	1,664,252	585,955	68,595	331,124	8,715	30,384	43,128	2,732,153

In addition the Council has instructed its valuers to undertake a review of all assets held in the Other Land and Buildings category to ensure that the carrying value of assets last valued in previous years is not materially different from their fair value. In order to perform this exercise the Other Land and Building category was split into sub categories, e.g. schools, car parks, leisure and culture etc. The review concluded that the fair value was not materially different from the carrying value at the Balance Sheet date.

20 Heritage Assets

Reconciliation of the carrying value of Heritage Assets held by the Council.

The above collection of Heritage Assets are predominantly valued on an insurance valuation basis, and some items classified as “other” are valued at historic cost.

Heritage Assets: Further Information on the Museum's collections

Loans

The Museum occasionally makes available loan items from its collection to regional and national museums and borrows collections for specific exhibitions. Collections not on display are held in secure storage but access is permitted on an appointment basis.

Preservation

The collections have been under the care of conservators since the 1940s. They specialise in antiquities, paintings, paper and photographs, and preventive conservation and are based at Bristol Museum and Art Gallery. Our conservators:

- prepare artefacts for display
- set conservation standards for the refurbishment of permanent exhibitions
- prepare artefacts for loan to other institutions
- check new acquisitions
- assess the condition of objects and work on the installation of temporary exhibitions
- work to improve collections storage
- maintain permanent displays - this includes training staff and cleaning objects.

21 Investment Properties

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

	2018/19	2017/18
	£'000	£'000
Rental income from Investment Property	11,815	11,642
Direct operating expenses arising from Investment Property	(543)	(651)
Net gain	11,272	10,991

There are no restrictions on the Council's ability to realise the value inherent in its Investment Property or on the Council's right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop Investment Property or to carry out repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of Investment Properties over the year:

	2018/19	2017/18
	£'000	£'000
Balance at start of the year	255,415	253,976
Additions – purchases	64	142
Disposals	(2,512)	(6,081)
Net gains/losses from fair value adjustments	(3,520)	8,618
Transfers to/from Property, Plant and Equipment	(196)	(1,240)
Balance at end of the year	249,251	255,415

22 Financial Instruments

The borrowings and investments disclosed in the Balance Sheet are made up of the following categories of financial instruments. The value of debtors and creditors reported in the table are those amounts meeting the definition of a financial instrument. The balances of debtors and creditors reported in the balance sheet and associated notes also include balances which do not meet the definition of a financial instrument, such as tax-based debtors and creditors.

	Long-Term		Current	
	31 March 2019	31 March 2018	31 March 2019	31 March 2018
	£'000	Restated £'000	£'000	Restated £'000
Financial Liabilities at Amortised cost				
Borrowing	(430,488)	(430,489)	(4,998)	(4,997)
Service Concessions	(129,013)	(140,131)	(6,415)	(976)
Creditors	(78)	(8,567)	(115,020)	(116,307)
Total Financial Liabilities	(559,579)	(579,187)	(126,433)	(122,280)
Financial Assets				
Available-for-sale financial assets		19,960		-
Unquoted equity investment at cost		3,252		-
Loans & Receivables at Amortised Cost		3,973		118,135
Financial Assets at amortised cost				
Investments	2		67,461	
Debtors	1,677		70,217	
Financial Assets at Fair Value through Other Comprehensive Income				
Investment	550		-	
Debtors	-		-	
Financial Assets at Fair Value through profit and loss				
Investments	51,310		19,019	
Total Financial Assets	53,539	27,185	156,697	118,135

To aid transparency the Council has elected to expand the analysis in the above table in 2018/19 by further splitting out the financial assets and liabilities more fully than previously disclosed in the prior period. See note 23a for further details including the adjustment to the prior period due to a calculation error.

Movements

The increase in financial assets, circa £65m, primarily relates to the increase in value of long term investments through revaluation (£23m) and acquisition. In addition the increase in working capital and reserves has resulted in additional cash resources to invest in lieu of using these resources.

Reclassification and remeasurement of financial assets at 1 April 2018

	Carrying Amount brought forward at 1 April	New Classification at 1 April 2018		
		Amortised cost	Fair value through other comprehen sive income	Fair value through profit and loss
	£'000	£'000	£'000	£'000
Previous Classification				
Loans & Receivables - Amortised Cost	96,845	96,845	-	-
Cash and Cash equivalents - Amortised Cost	25,263	(3,608)	-	28,871
Available For Sale - Fair Value	19,960	-	-	19,960
Available For Sale - Unquoted Equity Investments	3,252	-	-	3,252
Reclassification amounts at 1 April 2018	145,321	93,238	-	52,083
Remeasurements at 1 April 2018		93,238	-	74,583
Remeasured carrying amount 01 April 2018		93,238	-	74,583
Impact on General Fund Balance				(22,500)
Statutory override for investments classed as capital expenditure				22,500
Impact on Financial Instruments Revaluation Reserve				-

Remeasurements at 1 April 2018

The Council's shareholding in Bristol Port Company Ltd was previously classified as an Unquoted Equity investment at cost (£2.5m) a classification no longer applicable with the adoption of IFRS9 on the 1st April 2018. The shareholding has been measured using various valuation techniques providing a range of valuations with the mid-point valuation of £25m being used as a prudent valuation. It is difficult to reliably measure this company because there are no established companies with similar aims in the Council's area whose shares are traded which might provide comparable market data. If the Council were to consider to realise it's holdings then the Council would also seek specialist external advice as part of the process.

Effect of Asset Reclassification and Remeasurement on the Balance Sheet

	Amortised Cost	Fair Value through Other Comprehensive Income	Fair Value through profit and loss	Non- financial instruments balances	Total Balance Sheet carrying amount
Remeasured carrying amounts at 1 April 2018	£'000	£'000	£'000	£'000	£'000
Non-current investments	1	-	45,712	-	45,713
Long-term debtors	3,973	-	-	-	3,973
Current investments	21,524	-	28,871	-	50,395
Current debtors	67,740	-	-	-	67,740

Borrowing

	31 March 2019 £'000	31 March 2018 £'000
Current borrowing		
Deposit loans (repayable at notice - up to 7 days)	101	101
Other short term borrowing (repayable within 1 year):		
- Public Works Loan Board	3,737	3,737
- Banks and other monetary sector	1,139	1,138
- Local bonds and property rent disposals	11	11
- Stocks	10	10
Total	4,998	4,997

	31 March 2019 £'000	31 March 2018 £'000
Non-current borrowing		
Public Works Loan Board	310,439	310,439
Lender Option Borrower Option (Lobo)	70,000	100,000
Market Debt	50,000	20,000
Stocks	49	50
Total	430,488	430,489

The Council did not undertake any new borrowing during year as set out in the Treasury Management Strategy to reduce the net financing costs and counter party risk of the Council. During the year £30m of Lobo's were converted to fixed rate loans when the options in these loans were unilaterally removed.

Income, Expense, Gains or Losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement for financial instruments are as follows:

Financial Instruments Gains and Losses 2018/19

	Financial Liabilities	Financial Assets			
	Measured at amortised cost	Loans and receivables	Fair Value through the CI	Fair Value through the P&L	Total
	£'000	£'000	£'000	£'000	£'000

Assets held for sale	-	3,572	-	-	1,539	-
Total non-recurring fair value measurements	-	3,572	-	-	1,539	-

* Investment properties are categorised further as Industrial (35%), Retail (30%), Office (21%), & Other (14%).

Valuation techniques and Inputs				
Description of asset	Valuation hierarchy	Basis of Valuation	Observable and Unobservable inputs	Key sensitivities affecting the valuations provided
Money Market Funds	Level 1	Unadjusted quoted prices in active markets for identical shares	Latest quoted prices	
Surplus assets	Level 2	All surplus assets have been valued by RICS qualified valuers to Fair Value less costs to sell, reflecting highest and best use.	Evidence of title, floor area, siting and site conditions, type/age and current use of the property have been taken into account together with general market conditions and advertised value of similar properties currently up for sale.	Not all assets are physically inspected every year. Latent defects, repair and maintenance backlogs, general changes in the market and other impairments could have a significant impact on the values provided.
Investment Properties	Level 2	All investment properties have been valued by the Council's in-house valuers (all RICS qualified) on an investment income basis which we are satisfied represents highest and best use overall.*	All valued on an investment income basis, using existing lease terms and current yields	Changes to market conditions, lease terms, covenant strength and occupancy levels could all affect the asset valuations provided.

* Regarding investment properties there is a strong market for such property within Bristol with different markets for different sectors. In determining the value of each asset we have taken into account quoted prices for similar properties within the local market, existing lease terms and rentals, current market rentals and yields, the covenant strength for existing tenants and data and market knowledge from managing the Council's investment property portfolio. The valuation inputs for each category of Investment property would be similar.

Bristol Port Company	Level 3	This investment has been valued using a variety of valuation techniques, including net asset, discounted cashflow, and multiple of earnings.	Calculations have been based on the latest audited accounts, dividends and limited comparable data.	Changes to market conditions (local and global), and the comparable data used within the valuations.
Bristol Holdings	Level 3	This investment has been valued at the Council's share of each company's net assets.	Calculations have been based on their unaudited accounts and adjusted for customer base valuation as at 31 March 2019.	Valuations could be affected by the difference between audited and unaudited accounts and changes in customer number and price per meter point.
Investments in unquoted companies	Level 3	These investments have been valued at the Council's share of each company.	Calculations have been based on their latest audited accounts	
Investments in Pooled Property Fund	Level 3	These investments have been valued at the Council's share within the pooled fund.	The valuation for Pooled Property Funds has been based on the latest quarterly financial report (31st December 2018).	Changes to housing market conditions could affect the valuation of the pooled property fund.

Transfers between levels of the fair value hierarchy

There were no transfers between levels 1 and 2 during the year.

Changes in valuation technique

There has been no change in valuation techniques used during the year.

Reconciliation of fair value measurements for assets at fair value within level 3

Description	31 March 2019	31 March 2018
	Non-traded securities	Non-traded securities
	£000	£000
Opening balance	20,360	12,108
Re-measurement 1/4/18	25,350	
Transfers into level 3	-	-
Transfers out of level 3	-	-
included in the surplus/(deficit) on the Provision of Services	(150)	(12,102)
included in Other Comprehensive Income and Expenditure	-	7,994
Total gains/(losses) for the period:	(150)	(4,108)
Additions	6,500	12,360
Disposals	(200)	-
Closing balance	51,860	20,360

Gains and losses included in the surplus/(deficit) on the Provision of Services for the current year relate to investments in the Homelessness Property Fund.

The Fair Values of Financial Assets and Financial Liabilities that are not measured at Fair Value

Except for the financial assets carried at fair value (described in the table above), all other financial liabilities and financial assets represented by loans and receivables and long term debtors and creditors are carried on the balance sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that take place over the remaining life of the instruments, using the following assumptions:

- For loans from the PWLB payable, prevailing market rates have been applied to provide the fair value under PWLB debt redemption procedures. An additional note to the tables sets out the alternative fair value measurement applying the premature repayment, highlighting the impact of the alternative valuation;
- For non-PWLB loans payable, prevailing interest rates have been applied to provide the fair value;
- No early repayment or impairment is recognised;
- Where an instrument has a maturity of less than 12 months or is a trade or other receivable the fair value is taken to be the carrying amount or the billed amount;
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

Financial Liabilities	31 March 2019		31 March 2018	
	Carrying amount	Fair value	Carrying amount	Fair value
	Restated	Restated	Restated	Restated
	£000	£000	£000	£000
Public Works Loan Board (PWLB)	314,176	478,900	314,176	472,800
Lender Option Borrower Option	70,670	104,500	100,821	147,542
Market Debt	50,469	72,700	20,317	26,658
Short Term Creditors	115,020	115,020	116,307	116,307
Service Concessions	135,428	224,104	140,130	230,787
Other	249	249	9,715	8,352
Total Liabilities	686,012	995,473	701,466	1,002,446

The Council has used a transfer value for the fair value of financial liabilities. We have also calculated an exit price fair value of £1.151bn an increase of £148m which is calculated using early repayment discount rates. The Council has no contractual obligation to pay these penalty costs and would not incur any additional cost if the loans run to their planned maturity date.

The fair value for financial liabilities and assets has been assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the assumptions detailed above, the fair value is arrived at by applying the discounted cash flow calculations based on the PWLB premium/discount calculations.

The fair value of the liabilities is higher than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the prevailing rates at the Balance Sheet date. This shows a notional future loss (based on economic conditions at 31 March 2019) arising from a commitment to pay interest to lenders above current market rates.

To aid transparency the Council has elected to expand the analysis in the above table further by splitting out the financial assets and liabilities than previously reported. The prior year has also been restated due to a calculation error as detailed in note 23a.

Financial Assets	31 March 2019		31 March 2018	
	Carrying amount	Fair value	Carrying amount	Fair value
	Restated	Restated	Restated	Restated
	£000	£000	£000	£000
Loans & Receivables				
Short term investments	60,063	60,063	25,132	25,132
Cash and Cash Equivalents	7,397	7,397	25,263	25,263
Long term investments	2	2	3,252	3,252
Debtors qualifying as loans and receivables	70,217	70,217	67,740	67,740
Total loans and receivables	137,679	137,679	121,387	121,387
Long term debtors	1,677	1,677	3,973	4,891
Total Financial Assets	139,356	139,356	125,360	126,278

The fair value of the assets is the same as the carrying value due to the majority of the assets having a maturity of less than 12 months or is a trade or other receivable where the fair value is taken to be the carrying amount or the billed amount.

Short-term debtors and creditors are carried at cost as this is a fair approximation of their value.

The Fair value hierarchy for financial assets and financial liabilities that are not measured at fair value identified in the above tables are calculated using other significant observable inputs (Level2).

Their fair value has been arrived at using a discounted cash flow analysis with the most significant inputs being the discount rate detailed above. The fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the assumptions detailed above, primarily for financial liabilities the fair value is arrived at by applying the discounted cash flow calculations based on the PWLB premium/discount calculations.

The Council's activities expose it to a variety of financial risks:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Council.
- Liquidity risk – the possibility that the Council might not have funds available to meet its commitments to make payments.
- Re-financing risk – the possibility that the Council might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms.
- Market risk – the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates and stock market movements.

The Council's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. Risk management is carried out by a central treasury team, under policies approved by the Council in the annual treasury management strategy, and compliance with the CIPFA Prudential Code of Practice, the CIPFA Treasury Management Code of Practice, and Investment Guidance that is issued under the Local Government Act 2003. The Council provides written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash. These are required to be reported and approved at or before the Council's annual Council Tax setting budget or before the start of the year to which they relate. These items are reported with the annual treasury management strategy that outlines the detailed approach to managing risk in relation to the Council's financial instrument exposure. Actual performance is also reported annually to Members.

The annual treasury management strategy which incorporates the prudential indicators was approved by Council on 20 February 2018 and is available on the Council website.

Credit risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers.

This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, in accordance with Fitch, Standard and Poor's and Moody's Credit Ratings Services. The Annual Investment Strategy also imposes a maximum sum to be invested with a financial institution located within each category.

Details of the Investment Strategy can be found on the Council's website. The key areas of the Investment Strategy are that the minimum criteria for investment counterparties include:

- Credit ratings of Short Term of F1, Long Term A-, with the lowest available rating being applied to the criteria;
- UK institutions provided with support from the UK Government;

The Council's maximum exposure to credit risk in relation to its investments in banks and building societies will vary according to credit ratings assigned by the three main credit rating agencies and cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Council's deposits, but there was no evidence at the 31 March 2019 that this was likely to crystallise.

Allowance for Credit Losses

The following analysis summarises the Council's potential maximum exposure to credit risk on financial assets valued at amortised cost, based on experience of default and un-collectability over the last five financial years, adjusted to reflect current market conditions.

	Amount	Historical experience of default	Adjustment for market conditions	Estimated maximum exposure to default	Estimated maximum exposure to default
	£000	%	%	£000	£000
	A	B	C	(A*C)	
	31-Mar-19	31-Mar-19	31-Mar-19	31-Mar-19	31-Mar-18
Short Term Investments:					
Local Authorities	30,040	0.00%	0.00%	-	-
AA rated counterparties	10,044	0.02%	0.02%	2	8
A rated counterparties	27,377	0.06%	0.06%	16	14
Sub-total	67,461			18	22
Trade debtors (classed as loans and receivables)	70,217			-	-
Long-term debtors	1,679			-	-
Total Financial assets	139,357			18	22

The estimated maximum exposure for credit loss for Treasury investments is £18k and therefore no allowance for credit loss have been made for these assets.

No credit limits were exceeded during the reporting period and the Council does not expect any losses from non-performance by any of its counterparties in relation to deposits.

The Council does not generally allow credit for its trade debtors, including amounts due from government departments and other Local Authorities.

Debtor analysis	Gross debtor at 31-Mar-19	Allowance for credit losses at 31-Mar-19	Provision for bad debt 31-Mar-19	Net debtor at 31-Mar-19	Net debtor at 31-Mar-18 Restated
	£'000	£'000	£'000	£'000	£'000
Local tax payers	15,632		(7,270)	8,362	9,415
Housing rents	11,428	(8,814)		2,614	2,089
Other - sundry debtors	103,306	(30,188)		73,118	49,382
Total Other Entities and Individuals	130,366	(39,002)	(7,270)	84,094	60,886
Central Government bodies	9,731	-	-	9,731	35,056
Other local authorities	1,704	-	-	1,704	13,905
NHS bodies	6,617	-	-	6,617	4,139
Total debtors	148,418	(39,002)	(7,270)	102,146	113,986
Balance sheet debtors	148,418	(39,002)	(7,270)	102,146	113,986
Current debtors not qualifying as a financial instrument under IFRS	(39,199)	-	7,270	(31,929)	(42,246)
Current debtors qualifying as a financial instrument under IFRS	109,219	(39,002)	-	70,217	67,740

The adoption of a new accountancy standard, IFRS9, Financial Instruments, has led to the introduction of an allowance for impairment losses being calculated by applying the expected credit losses model.

The standard specifically excludes certain items from applying this model (i.e. statutory debtors) and therefore these assets continue to be calculated based on a bad debt provision, an amount set aside where it is considered doubtful payment will be received.

This disclosure includes elements of both to reconcile to the Balance Sheet. This is adjusted to exclude statutory debts, leaving debtors meeting the classification of a financial instrument.

The following table analyses the Gross debt that is now past due over varying periods. This overdue debt is covered by a provision for bad debt.

	31 March 2019 £'000	31 March 2018 Restated £'000
Less than three months	20,336	12,429
Three to four months	1,555	635
Four months to one year	8,121	8,218
More than one year	39,241	39,962
Total	69,254	61,246

Liquidity risk

The Council has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. If unexpected movements happen, the Council has ready access to borrowings from the money markets to cover day-to-day cash flow need and the Public Works Loan Board (<https://www.dmo.gov.uk/responsibilities/local-authority-lending-pwlb>) and capital markets for access to longer term funds. The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. Therefore, there is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

The maturity analysis of financial assets, excluding sums due from customers, is as follows:

	31 March 2019	31 March 2018 Restated
	£'000	£'000
Less than 1 year	156,696	118,135
Between 1 and 2 years	436	151
Between 2 and 3 years	439	-
More than 3 years	52,664	27,034
Total	210,235	145,320

The maturity analysis of financial liabilities is as follows:

	31 March 2019	31 March 2018 Restated
	£'000	£'000
Less than 1 year	126,432	128,028
Between 1 and 2 years	17,024	23,122
Between 2 and 3 years	7,025	8,279
More than 3 years	535,531	542,037
Total	686,012	701,466

The prior year has also been restated due to a calculation error as detailed in note 23a.

Refinancing and Maturity risk

The Council maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer-term risk to the Council relates to the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer-term financial liabilities and longer-term financial assets.

The approved treasury indicator limits for the maturity structure of debt and the limits on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council approved treasury and investment strategies address the main risks and the central treasury team address the operational risks within the approved parameters. This includes:

- Monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt; and

- Monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day-to-day cash flow needs, and monitoring the spread of longer-term investments provides stability of maturities and returns in relation to the longer-term cash flow needs.

The maturity profile of the Council's debt portfolio along with the Council's approved minimum and maximum exposure is shown in the table below.

	Approved minimum limits	%	Approved maximum limits	%	Actual 31 March 2019 £'000	%	Actual 31 March 2018 £'000	%
Less than 1 year	-		30		4,998	1%	4,997	1%
Between 1 and 2 years	-		40		10,000	2%	-	0%
Between 2 and 5 years	-		40		5,000	1%	15,000	3%
Between 5 and 10 years	-		50		54,000	13%	49,000	11%
More Than 10 Years	25		100		361,488	83%	366,489	85%
Total					435,486	100%	435,486	100%

Included within the maturity profile are £70m of LOBOS with maturities averaging 40 years. Inherent within these loan instruments are options (averaging an option every 3 years) that could give rise to the debt being repaid early. These loans are regularly reviewed with the current and expected structure of interest rates. The risk of the lenders exercising their options is currently low for the short to medium term. Therefore, the maturity of these loans in above table are currently based on their maturity date, 10 years and over.

Market risk

The Council is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council. For instance, a rise in variable and fixed interest rates would have the following effects:

- Borrowings at variable rates – the interest expense charged to the Comprehensive Income and Expenditure Statement will rise;
- Borrowings at fixed rates – the fair value of the borrowing will fall (no impact on revenue balances);
- Investments at variable rates – the interest income credited to the Comprehensive Income and Expenditure Statement will rise; and
- Investments at fixed rates – the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value on the balance sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in the Other Comprehensive Income and Expenditure Statement.

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together the Council's expected treasury operations, including an expectation of interest rate movements. From this Strategy a treasury indicator is set which provides maximum limits for fixed and variable interest rate exposure. The central treasury team

will monitor market and forecast interest rates within the year to adjust exposures appropriately. For instance during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, similarly the drawing of longer term fixed rates borrowing would be postponed.

At 31 March 2019, if interest rates had been 1% higher with all other variables held constant, the financial effect would be:

	31 March 2019 £'000
Increase in interest receivable on variable rate investments	1,275
Impact on Surplus or Deficit on the Provision of Services	1,275
Share of overall impact debited to the HRA	1,368
Decrease in fair value of fixed rate borrowings liabilities (no impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure)	110,600

The approximate impact of a 1% fall in interest rates would be as above but with the movements being reversed.

Price risk

The Council does not generally invest in equity shares but have recently invested in Bristol Holdings, a wholly owned subsidiary. Whilst this holding is generally illiquid, the Council is exposed to losses arising from movements in the prices of these shares.

As the shareholding has arisen in the acquisition of specific interests, the Council is not in a position to limit its exposure to price movements by diversifying its portfolio. Instead it only acquires shareholdings in return for “open book” arrangements with the company concerned so that the Council can monitor factors that might cause a fall in the value of specific holdings.

These shares are valued at fair value.

Foreign exchange risk

During 2018/19 the Council received monies denominated in Euro's relating to the receipt of European grant. The Council also made payments in a variety of currencies for the supply of goods and services. Payments and receipts are converted to Sterling at the earliest opportunity.

23a Prior Year Adjustment within the Financial Instrument notes 22 and 23

The Council discovered that the process to determine the value of financial liabilities to be recognised as current financial instruments within the financial instrument notes contained a calculation error relating to short term creditors. This has no impact on the primary statements, including the balance sheet and comprehensive income and expenditure statement. The Council have since reviewed their processes and made appropriate changes, including to internal controls to ensure that such events are unlikely to recur.

This meant that the current financial liabilities meeting the specific criteria of a financial instrument within the financial instruments notes was understated by £34.485m within the 2017/18 statements. In order to correct this error the Council has restated the prior year comparative figures in the following single entity and group financial instrument notes, 22 and 23.

	2017/18 As Originally Stated £000's	2017/18 As Restated £000's	Restatement £000's	Page Reference
Note 22 Current Financial Liabilities	(87,435)	(122,280)	(34,845)	105
Note 22 Financial Liabilities - Carrying amount	666,621	701,466	34,845	114
Note 22 Financial Liabilities – Fair Value	967,601	1,002,446	34,845	114
Note 23 Financial Liabilities less than 1 year	93,183	128,028	34,845	114
Note 23 Financial Liabilities Total	666,621	701,466	34,845	119

24 Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases and PFI/PP contracts), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. Movements on the CFR are also analysed below.

	2018/19 £'000	2017/18 £'000
Opening Capital Financing Requirement	822,515	787,378
Capital investment		
Property, Plant and Equipment	96,202	106,396
Investment Properties	64	142
Intangible Assets	3,697	4,810
Long Term Investments	6,998	12,810
Revenue Expenditure Funded from Capital under Statute	6,147	2,965
Long Term Investment repaid	(1,305)	(1,650)
Sources of finance		
Capital receipts	(10,558)	(6,254)
Government grants and other contributions	(26,872)	(35,870)
Sums set aside from revenue:		
• Direct revenue contributions	(43,003)	(40,668)
• MRP – City Council Debt	(6,864)	(7,544)
Closing Capital Financing Requirement	847,022	822,515
Explanation of movements in year		
Less Minimum Revenue Provision	(6,864)	(7,544)
Use of capital receipt for repayment of debt	(1,305)	(1,650)
Increase in underlying need to borrowing (unsupported by government financial assistance)	32,676	44,331
Increase in Capital Financing Requirement	24,507	35,137

25 Leases

Council as Lessor

Operating Leases

The Council leases out property within the commercial trading estate under operating leases for the following purposes:

- for the provision of community services, such as sports facilities, tourism services and community centres
- for economic development purposes to provide suitable affordable accommodation for local businesses

The future minimum lease payments due under non-cancellable leases in future years are:

	31 March 2019	31 March 2018
	£'000	Restated £'000
Not later than one year	13,986	13,282
Later than one year and not later than five years	49,551	45,890
Later than five years	867,632	863,736
	931,169	922,908

The minimum lease payments receivable at 31 March 2019 and 2018 are based on the current rents receivable at the respective Balance Sheet dates. They do not include estimates of future rents reviews or contingent rents.

Prior Year Adjustment within the Operating leases.

As part of the 2018/19 external audit process, it was discovered that the process to determine the future minimum lease payments due under non-cancellable leases in future years for the Operating leases note only included investment leases and excluded operational leases in error. This has no impact on the primary statements, including the balance sheet and comprehensive income and expenditure statement. The Council have since reviewed their processes and made appropriate changes to ensure all leases are included for this disclosure note.

This meant that the future minimum lease payments due under non-cancellable leases in future years was understated by £20m within the 2017/18 statements. In order to correct this error the Council has restated the prior year comparative figures in note 25 of the single entity accounts.

	2017/18 As Originally Stated	2017/18 As Restated	Restatement
	£'000	£'000	£'000
Not later than one year	11,849	13,282	1,433
Later than one year and not later than five years	41,552	45,890	4,338
Later than five years	849,542	863,736	14,194
	902,943	922,908	19,965

26 Service Concessions

Schools PFI Phase 1A

On 31st March 2004 the Council entered into a Private Finance Initiative (PFI) contract with Bristol Schools Limited. The contract provided for the design, construction and financing of four new secondary schools, Bedminster Down, Henbury School, Orchard School and Oasis Academy Brightstowe. All four schools were constructed and are operational. Bristol Schools Limited will maintain and operate the facilities for twenty-six years from the date the first school became operational.

A capital contribution of £5.346m was made to the first phase of the project by way of a cash payment. This was in respect of the provision of leisure facilities and of the retention of part of the site of Henbury School by the Council, for subsequent disposal.

As at 31st March 2019 cumulative payments totalling £132m (£161m in 2017/18) have been made to the PFI contractor. The future estimated payments the Council will make under the contract are as follows:

Year	Payment for Services £'000	Repayment of Liability £'000	Interest £'000	Other £'000	Total £'000
2019/20	3,070	1,822	4,566	430	9,888
2020/20 to 2023/24	13,065	9,015	15,930	112	38,122
2024/25 to 2028/29	18,255	16,837	12,859	855	48,806
2029/30 to 2031/32	9,513	11,148	2,325	(144)	22,842
Total	43,903	38,822	35,680	1,253	119,658

Over the life of the PFI project, the Council is scheduled to receive government grant of £134.8m.

Schools PFI Phase 1B and 1C, Building Schools for the Future

During 2006/07 the Council entered into a PFI contract with Bristol PFI Limited to design, build, finance and operate four additional schools in Bristol. A Local Education Partnership (LEP) was also created to manage the supply chain and deliver the four schools. The partnership is between Skanska Education Partnerships (80%), Partnership for Schools (10%) and Bristol City Council (10%). The schools are Brislington Enterprise College, Bristol Brunel Academy, Bristol Metropolitan Academy and Bridge Learning Campus. Bristol PFI Limited will maintain and operate the facilities for twenty-seven years from the date the first school became operational.

A capital contribution of £9.569m was made to the project by way of a cash payment. This was used towards the cost of the Bridge Learning Campus and provision of leisure facilities at Bristol Brunel Academy.

As at 31st March 2019 cumulative payments totalling £179m (£161m in 2017/18) have been made to the PFI contractor. The future estimated payments the Council will make under this contract are as follows:

Year	Payment for Services £'000	Repayment of Liability £'000	Interest £'000	Other £'000	Total £'000
2019/20	5,207	3,502	6,259	3,795	18,763
2020/21 to 2023/24	22,376	16,179	22,091	16,388	77,034
2024/25 to 2028/29	31,815	23,203	20,422	25,420	100,859
2029/30 to 2032/33	36,649	35,639	9,844	23,981	106,115
2033/34 to 2034/35	3,097	2,755	212	2,676	8,740
Total	99,144	81,278	58,828	72,260	311,510

Over the life of the PFI project, the Council is scheduled to receive government grant of £326.3m.

Hengrove Leisure Centre

In April 2010 the Council entered into a PFI contract with Bristol Active Limited to design, build, finance and operate a new leisure centre, and associated car park, in Hengrove. The centre opened in February 2012 and Bristol Active Limited will operate and maintain the facility until 2037.

The assets and associated liability have been included on the Council's Balance Sheet in accordance with IFRS.

A capital contribution of £7.161m was made to the project by way of a cash payment. This was used to fund the capital works for the Car Park and as a contribution towards the capital works of the Leisure Centre.

Bristol City Council gave Bristol Active Limited approval as set out in the Cabinet Report dated 9th January 2018 to refinance its senior debt on the 19th January 2018. In line with the provisions

of the PFI contract, the Council was entitled to a share of the benefit and received a one-off payment of £2.3m. The Council have earmarked these funds to support the revenue position of the Council and to meet anticipated future Hengrove PFI costs. No other aspects of the Council's accounting treatment of the PFI contract are affected.

As at 31 March 2019 payments totalling £24m (£21m at 31 March 2018) have been made to the PFI Contractor. The future estimated payments the Council will have to make under the Contract are as follows:

Year	Payment for Services £'000	Repayment of Liability £'000	Interest £'000	Other £'000	Total £'000
2019/20	340	815	1,483	867	3,505
2020/21 to 2023/24	1,445	2,329	5,188	5,236	14,198
2024/25 to 2028/29	1,979	3,174	5,231	7,797	18,181
2029/30 to 2033/34	2,274	4,457	3,273	8,718	18,722
2034/35 to 2036/37	1,411	3,509	735	5,596	11,251
Total	7,449	14,284	15,910	28,214	65,857

Over the life of the PFI project, the Council is scheduled to receive government grant of £69.6m.

Property, Plant and Equipment

The PFI assets, and related liabilities, have been recognised on the Council's balance sheet when made available for use. Movements in their value over the year are detailed in the analysis of the movements on the Property, Plant and Equipment balance in Note 19. The assets will be transferred back to the Council at the end of the contracts for nil consideration.

Locally managed schools transferring to Academy status are granted a 125 year peppercorn lease and, in response to CIPFA guidance, are de-recognised from the Council's accounts as control of these assets is transferred to the Academy.

Payments are made to the PFI contractors as monthly "unitary payments". The estimated payments the Council will make under the contracts are shown below.

These payments are commitments and can vary subject to indexation, reductions for performance and availability failures, and possible future variations to the scheme.

The funding of the unitary payment for the School PFI schemes will come from the individual schools budget, the overall schools budget and a special government grant. The Hengrove Leisure unitary payment will be funded by the special government grant, with the balance provided from Sports Services budgets. PFI payments are accounted for in the year in which the service was provided and are allocated to repayment of the liability, finance cost, service charge and other costs (lifecycle cost and contingent rents).

The unitary payments have been calculated to compensate the contractor for the fair value of the services they provide, the capital expenditure incurred, and the interest payable on financing the capital expenditure. The Hengrove Leisure PFI contains a significant amount of third party income, this is income received directly by the PFI Contractor from the users of the facility. The payment for services has been shown net of this estimated income, as the unitary payments have been reduced to reflect the operator's right to this income. The outstanding liability due to the contractor for reimbursement of capital expenditure is as follows:

	Schools		Hengrove Leisure	
	2018/19	2017/18	2018/19	2017/18
	£'000	£'000	£'000	£'000
Balance outstanding at the start of year	125,068	129,556	15,063	15,721
Movement in year	(4,970)	(4,487)	(779)	(659)
Balance outstanding at year end	120,098	125,069	14,284	15,062

The above listed commitments are affected by past inflation – previous price rises will be built into future payments. They are also affected by future inflation, which gives rise to uncertainty.

Bristol Waste Contract

In August 2015 the Council entered into a service contract with Bristol Waste Company to provide recycling and waste services. The assets and associated liability have been included on the Council's Balance Sheet in accordance with IFRS.

The future estimated payments the Council will make under the contract are as follows:

Year	Payment for Services	Repayment of Liability	Interest	Total
	£'000	£'000	£'000	£'000
2019/20	30,051	276	27	30,354
2020/21 to 2023/24	126,231	710	39	126,980
2024/25 to 2026/27	78,168	60	1	78,229
Total	234,450	1,046	67	235,563

Total Balance Outstanding on all Service Concessions is shown in the table below:

	Schools		Hengrove Leisure		Bristol Waste Contract		Total	
	2018/19	2017/18	2018/19	2017/18	2018/19	2017/18	2018/19	2017/18
	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Balance outstanding at the start of year	125,068	129,556	15,063	15,721	976	1,220	141,107	146,497
Movement in year	(4,079)	(4,487)	(779)	(659)	70	(244)	(5,679)	(5,390)
Balance outstanding at year end	120,989	125,069	14,284	15,062	1,046	976	135,428	141,107

27 Debtors

	31 March 2019	31 March 2018
	£'000	£'000
i Current debtors		
Trade receivables	29,832	23,868

Former county council debt	40,895	42,599
Total	42,657	57,383

28 Cash and Cash Equivalents

The balance of Cash and Cash Equivalents is made up of the following elements:

	31 March 2019 £'000	31 March 2018 £'000
Cash held by the Council	269	266
Bank current accounts	(21,958)	(13,940)
Short-term deposits with banks / building societies	29,086	38,937
Total Cash and Cash Equivalents	7,397	25,263

29 Creditors

	31 March 2019 £'000	31 March 2018 £'000
Current liabilities		
Trade payables	17,621	12,642
Other payables	90,268	86,231
Receipts in advance	36,794	30,926
Total	144,683	129,799
 Other long-term liabilities		
Service Concession contract liabilities (see Note 26)	129,013	140,131
Retirement benefit obligations (see Note 32)	977,592	832,352
Deferred liabilities	42,599	52,866
Deferred capital receipts	2	119
Rent Deposits	78	76
Total	1,149,284	1,025,544

Deferred liabilities are amounts which, by arrangement, are payable beyond the next year, at some point in the future or are to be paid off by an annual sum over a period. As at the 31 March 2019 the liability in the Council's Balance Sheet of £42.6m (2018: £52.9m) comprised of former county council loan debt of £42.6m (2018: £44.4m.)

Deferred capital receipts are amounts derived from sales of assets, which will be received in instalments over agreed periods of time. They arise from mortgages on the sale of council houses, which form part of mortgages under long term debtors.

30 Provisions

	Balance at 1 April 2018	Additional provisions made in 2018/19	Amounts used in 2018/19	Balance at 31 March 2019	Due < 1 year	Due > 1 year
	£'000	£'000	£'000	£'000	£'000	£'000
Business Transformation	(539)	(477)	147	(869)	(869)	-
Insurance fund	(2,532)	-	120	(2,412)	(1,727)	(684)
NDR Provision for appeals	(23,716)	(6,546)	3,349	(26,913)	-	(23,913)
Legal	(1,166)	-	173	(993)	(993)	-
Waste	(670)	-	670	-	-	-
Other	(202)	(49)	3	(248)	-	(248)
Total	(28,825)	(7,072)	4,462	(31,435)	(3,589)	(27,846)
Due < 1 year	(4,188)			(3,589)		
Due > 1 year	(24,637)			(27,846)		
	(28,825)			(31,435)		

Details of the provisions are shown in the table below:

Provision	Purpose
Business Transformation	Covers future exit costs arising from the Council's restructure proposals
Insurance fund	Covers certain risks arising from fire, employer's liability and public liability, supplementing the Council's arrangement with external insurers, together with other risks.
NDR Provision for appeals	Covers the cost of future appeals
Legal	Created to cover the costs of outstanding legal cases within Adult Social Care
Waste	Created to cover the costs of for disputed inflationary charges of Waste Disposal
Other	Other provisions are individually not material

31 Unusable Reserves

	31 March 2019 £'000	31 March 2018 £'000
Revaluation Reserve	(788,594)	(800,696)
Capital Adjustment Account	(1,510,028)	(1,490,937)
Available for Sale Financial Instruments	0	850
Financial Instruments Adjustment Account	7,254	7,432
Pensions Reserve	991,850	861,256
Collection Fund Adjustment Account	(126)	5,705
Accumulated Absences Account	6,370	4,522
	(1,293,274)	(1,411,868)

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

	2018/19	2018/19	2017/18	2017/18

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisation are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council. The account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 24 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

	2018/19	2017/18
	£'000	£'000
Balance at 1 April	(1,490,937)	(1,504,981)

Balance at 31 March	-	850

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions. The Council uses the Account to manage premiums paid on the early redemption of loans.

Premiums are debited to the Comprehensive Income and Expenditure Statement when they are incurred, but reversed out of the General Fund Balance to the Account in the Movement in Reserves Statement. Over time, the expense is posted back to the General Fund Balance in accordance with statutory arrangements for spreading the burden on council tax. In the Council's case, this period is the unexpired term that was outstanding on the loans when they were redeemed. As a result, the balance on the Account at 31 March 2019 will be charged to the General Fund over the next 41 years.

	2018/19	2018/19	2017/18	2017/18

Premiums incurred in the year and charged to the Comprehensive Income and Expenditure Statement				
Proportion of premiums incurred in previous financial years to be charged against the General Fund Balance in accordance with statutory requirements	(178)		(177)	
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements		(178)		(177)
Balance at 31 March		7,254		7,432

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to the pension fund or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2018/19	2017/18
	£'000	£'000
Balance at 1 April	861,256	921,012
Remeasurements on pensions assets and liabilities	91,675	(87,543)

Employer's pensions contributions and direct payments to pensioners payable in year	(47,907)	(47,344)
Balance at 31 March	991,850	861,256

Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and non-domestic rates income in the Comprehensive Income and Expenditure Statement as it falls due from council taxpayers and business rate payers, compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

	2018/19 £'000	2017/18 £'000
Balance at 1 April	5,705	(3,545)
Amount by which council tax and non-domestic rates income credited to the Comprehensive Income and Expenditure Statement is different from council tax income calculated for the year in accordance with statutory requirements	(5,831)	9,250
Balance at 31 March	(126)	5,705

Accumulated Absences Account

The Accumulating Compensated Absences Adjustment Account absorbs the differences that would otherwise arise on the General Fund balance from accruing for compensated absences earned but not taken in the year e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund balance be neutralised by transfers to or from the account.

	2018/19 £'000	2018/19 £'000	2017/18 £'000	2017/18 £'000

Settlement or cancellation of accrual made at the end of the preceding year	(4,522)		(6,901)	
Amounts accrued at the end of the current year	6,370		4,522	
Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		1,848		(2,379)
Balance at 31 March		6,370		4,522

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

The Council participates in three pension schemes:

The Local Government Pension Scheme (LGPS) - all staff, with the exception of teachers, are eligible to join the Local Government Pension Scheme (LGPS). The scheme is administered by Bath and North East Somerset Council and is called the Avon Pension Fund. The Fund provides members with benefits related to length of service and pensionable salary. The LGPS is a funded defined benefit pension arrangement for local authorities, and is governed by statute principally now the Local Government Pension Scheme Regulations 2013.

The Teachers' Pension Scheme - Teachers employed by the Council are members of the Teachers' Pension Scheme, administered on behalf of the Department for Education. The Scheme provides teachers with specified benefits upon their retirement and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries. The Scheme is a multi-employer defined benefit scheme. However, the Scheme is unfunded and the Department for Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities.

The rate of contribution for 2018/19 was 22.3%, resulting in a total payment of £7.254m (£8.198m in 2017/18) to the Teachers' Pension Agency. In addition, the Council made payments totalling £2.423m (£2.36m in 2017/18) in respect of pensions and added years where the early retirement of teachers was agreed. The Council also met its share of the residual liability for former Avon County Council employees, amounting to £1.797m (£1.814m in 2017/18). The estimated liability for unfunded payments has been calculated by the actuary and is included in the Balance Sheet.

The National Health Service Pension Scheme – In 2018/19 a total payment of £0.41m (£0.51m in 2017/18) was made to the NHS Pension Scheme, following the transfer of public health responsibilities from primary care trusts.

Accounting Transactions relating to retirement benefits

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge required to be made against council tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year.

	Local Government Pension Scheme		Teachers' Unfunded Pensions	
	2018/19 £'000	2017/18 £'000	2018/19 £'000	2017/18 £'000
Income and Expenditure Account				
Net cost of services				
Current service cost	56,437	61,116	-	-
Past service gains/curtailment costs/Settlements	8,420	(8,225)	-	-
Administration expense	863	866	-	-
Financing and Investment Income				
Expenditure				
Net interest cost	19,387	19,621	1,719	1,753
Total post-employment benefits charged to the Surplus or Deficit on the Provision of Services	85,107	73,378	1,719	1,753
Other Post-employment Benefits charged to the Comprehensive Income and Expenditure Statement				
Remeasurements (assets/liabilities)	(88,587)	89,127	(3,088)	(1,584)
Movement in Reserves Statement				
Reversal of net charges made to the (surplus) or Deficit for the provision of services for post - employment benefits	(85,107)	(73,378)	(1,719)	(1,753)
Actual amount charged against the General Fund Balance for pensions in the year:				
Employer's contributions payable to scheme	43,687	43,196	4,220	4,178

The Housing Revenue Account (HRA) Income and Expenditure Account has also been adjusted in 2018/19 to reflect the current service cost and an appropriate share of the net interest cost. The latter item has been apportioned to the HRA on the basis of pensionable pay.

Assets and Liabilities in relation to Retirement Benefits

	Funded liabilities:		Unfunded liabilities:		Unfunded liabilities:		Total Liability	
	Local Government Pension Scheme		Local Government Pension Scheme		Teachers' Unfunded Pensions		Local Government & Teachers Pensions

Interest on pension liabilities	(61,325)	(59,895)	(1,053)	(1,080)	(1,719)	(1,753)	(64,097)	(62,728)
Contributions by scheme participants	(11,162)	(11,273)	-	-	-	-	(11,162)	(11,273)
Remeasurement (liabilities)								
Experience (gain)/loss	-	-	-	-	-	-	-	-
(Gain)/loss on financial assumptions	(129,957)	94,817	(1,389)	961	(3,088)	1,584	(134,434)	97,362
(Gain)/loss on demographic assumptions	-	-	-	-	-	-	-	-
Benefits paid	66,865	67,427	2,807	2,831	4,220	4,178	73,892	74,436
Past service grants, curtailment costs and settlements	(6,757)	10,948	-	-	-	-	(6,757)	10,948
31-Mar	(2,589,755)	(2,390,982)	(41,548)	(41,913)	(68,803)	(68,216)	(2,700,106)	(2,501,111)

Reconciliation of fair value of the Local Government Pension Scheme assets:

	2018/19 £'000	2017/18 £'000
1 April	1,668,864	1,627,833
Interest on plan assets	42,991	41,354
Remeasurement (assets)	42,759	(9,819)
Administration expense	(863)	(866)
Settlements	(1,663)	(2,723)
Employer contributions	29,040	72,070
Contributions by scheme participants	11,162	11,273
Benefits paid	(69,672)	(70,258)
31 March	1,722,618	1,668,864

The expected return on scheme assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at the Balance Sheet date. Expected returns on equity investments reflect long-term rates of return experienced in the respective markets.

The actual return on plan assets in the year was £85,750m (2017/18: £31.536m).

Scheme History – Pension Assets and Liabilities Recognised in the Balance Sheet:

	2018/19 £'000	2017/18 £'000	2016/17 £'000	2014/15 £'000
Present value of liabilities:				
Local Government Pension Scheme	(2,631,303)	(2,432,895)	(2,476,515)	(2,056,639)
Teachers' unfunded liabilities	(68,803)	(68,216)	(72,225)	(67,128)
Fair value of assets in the Local Government Pension Scheme	1,722,618	1,668,864	1,627,833	1,430,637
Surplus/(deficit) in the scheme:				
Local Government Pension Scheme	(908,685)	(764,031)	(848,682)	(626,002)
Teachers' unfunded liabilities	(68,803)	(68,216)	(72,225)	(67,128)
Total	(977,488)	(832,247)	(920,907)	(693,130)

The total liabilities shown in the Balance Sheet comprise the above (£977,488m) together with a small amount in respect of pre-1974 liabilities (£0.105m) totalling (£977.593m).

Basis for Estimating Assets and Liabilities

Liabilities have been assessed using the projected unit credit actuarial cost method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels etc. Both the Local Government Pension Scheme and Discretionary Benefits liabilities have been assessed by Mercer Ltd, an independent firm of actuaries, estimates for the Council's Fund being based on the latest full valuation of the scheme as at 31 March 2016.

The principal assumptions used by the actuary have been:

	Local Government Pension Scheme		Teachers	
	2018/19	2017/18	2018/19	2017/18
Mortality assumptions:				
Longevity at 65 for current pensioners:				
Men	23.7	23.6	23.7	23.6
Women	26.2	26.1	26.2	26.1
Longevity at 75 for current pensioners:				
Men	-	-	14.7	14.5
Women	-	-	16.7	16.6
Longevity at 65 for future pensioners:				
Men	26.3	26.2	-	-
Women	29.0	28.8	-	-
	%	%	%	%
Rate for discounting scheme liabilities	2.4	2.6	2.4	2.5
Rate of inflation - CPI	2.2	2.1	2.3	2.3
Rate of increase in salaries	3.7	3.6	-	-
Rate of increase in pensions	2.3	2.2	2.4	2.3

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes, while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

The actuary has provided a sensitivity analysis for each significant actuarial assumption as at the end of the reporting period. The table below shows how the defined benefit obligation would have been affected by changes in the relevant actuarial assumption that were reasonably possible at the 31 March 2019.

Impact on the Defined Benefit Obligation in the Scheme (LGPS)	2018/19	2017/18
	£'000	£'000
Longevity (increase or decrease by 1 year)	104,689	96,903
Rate of inflation (increase or decrease by 0.1%)	95,208	87,862
Rate of increase in salaries (increase or decrease by 0.1%)	11,089	11,235
Rate for discounting scheme liabilities (increase or decrease by 0.1%)	(92,641)	(85,827)

Impact on the Defined Benefit Obligation in the Scheme (Teachers)	2018/19	2017/18
	£'000	£'000
Longevity (increase or decrease by 1 year)	4,137	4,107
Rate of inflation (increase or decrease by 0.1%)	1,607	1,597
Rate for discounting scheme liabilities (increase or decrease by 0.1%)	(1,523)	(1,513)

Local Government Pension Scheme assets comprise

Governance and Risk Management

The liability associated with the Council's pension arrangements is material to the Council, as is the cash funding required.

Local Government Pension Scheme

Governance

As administering authority, Bath and North East Somerset Council (B&NES), has legal responsibility for the pension fund as set out in the Local Government Pension Scheme Regulations. B&NES delegates its responsibility for administering the Fund to the Avon Pension Fund Committee, which is the formal decision making body for the Fund. The Avon Pension Fund Committee is responsible for the investment, funding, administration and communication strategies. It also monitors the performance of the fund, and approves and monitors compliance of statutory statements and policies required under the Regulations. The Committee is supported by an Investment Panel which considers the

investment strategy and investment performance in greater depth.

Asset and Liability (ALM) Strategy

The Avon Pension Fund does not have an explicit asset and liability matching strategy. The primary objective of its investment strategy is to generate positive real investment return above the rate of inflation for a given level of risk to meet the liabilities as they fall due over time. When setting the investment strategy, the expected volatility of the assets relative to the value placed on the liabilities was measured and taken into account. The aim of the strategy and management structure is to minimise the risk of a reduction in the value of the assets and maximise the opportunity for asset gains across the Fund.

To achieve its investment objective the Fund invests across a diverse range of assets such as equities, bonds, property and other alternative investments, and uses a number of investment managers. The risk management process identifies and mitigates the risks arising from the Fund's investment strategy and policies which are reviewed regularly to reflect changes in market conditions. As a result of its investment strategy, the Fund is exposed to a variety of financial risks including market risk (market price, interest rate and currency risk), credit risk and liquidity risk.

As a result of its investment strategy, the Fund is exposed to a variety of financial risks including market risk (market price, interest rate and currency risk), credit risk and liquidity risk.

Impact on the Authorities Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the next 17 years. Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed on 31 March 2019.

The Council made a pension deficit contribution of £43.183 m in April 2017.

The provisions of the LGPS and the Fund were amended with effect from 1 April 2014. Prior to that date benefits were paid on members' final salaries, whereas for service after that date benefits are based on career average salaries.

The total contributions expected to be made to the Local Government Pension Scheme by the Council in the year to 31 March 2020 are £31.856m (£26,233m in 2018/19). Expected contributions for the Teacher Pensions Scheme in the year to 31 March 2020 are £4.220m.

Unfunded Teachers' Discretionary Benefits

The Council is responsible for any additional discretionary pension benefits awarded to teachers upon early retirement outside of the terms of the teachers' pension scheme.

Governance

The Teachers' Pension Scheme arrangements are managed centrally by government departments/agencies, and there is no material involvement for the Council.

Impact on the Council's Cash Flows

The Scheme targets a pension paid throughout life. The amount of pension depends on how long employees are active members of the Scheme and their salary when they leave the Scheme ("final salary scheme") for service up to 31 March 2015, and on a revalued average salary ("career average scheme") for service from 1 April 2015.

The Council's involvement is limited to additional discretionary pension benefits to retired teachers which were rewarded at the point of retirement.

Risks Strategy

Given their unfunded nature, there are no investment risks in relation to this scheme. The greatest single risk is that the Government could change the funding standards relating to the scheme, increasing the Council's contributions.

Investment Risks

There are no investment risks in relation to these arrangements, given their unfunded nature. The greatest single risk is that the government could change the funding standards relating to them, which could increase the Council's contributions to them.

33 Cash Flow Statement – Operating Activities

The cash flows for operating activities include the following significant items:

	2018/19	2017/18
	£'000	£'000
Interest received	6,173	7,313
Interest paid	(35,352)	(42,902)
Dividends received	2,790	2,589

The deficit on the provision of services has been adjusted for the following non-cash movements:

	2018/19	2017/18
	£'000	£'000
Depreciation, impairment and downward revaluations	54,086	83,501
Amortisation	2,383	4,590
Increase/(decrease) in impairment for bad debt	1,400	1,400
(Decrease)/increase in creditors	4,284	(2,786)
(Increase)/decrease in debtors	4,950	(5,904)
(Increase)/decrease in inventories	(239)	16
Movement in pension liability	53,566	(1,117)
Contributions to/(from) Provisions	2,609	14,396
Carrying amount of non-current assets and non-current assets held for sale, sold or derecognised	36,164	44,205
Other non-cash items charged to the net surplus or deficit	18,621	(18,269)
On the provision of services		
Net cash flows from non-cash movements	177,824	120,032

Adjust for items included in the net surplus or deficit on the provision of services that are investing or financing activities:

	2018/19	2017/18
	£'000	£'000
Capital grants credited to surplus or deficit on the provision of services	(44,218)	(44,705)
Proceeds from the sale of Property Plant and Equipment, Investment Property and Intangible Assets	(20,811)	(30,479)
	(65,029)	(75,184)

34 Cash Flow Statement - Investing Activities

	2018/19 £'000	2017/18 £'000
Purchase of Property, Plant and Equipment, Investment Property and Intangible Assets	(99,240)	(111,348)
Purchase of short-term and long-term investments	(253,394)	(48,903)
Other (payments)/receipts for investing activities	2,015	2,536
Proceeds from the sale of Property, Plant and Equipment, Investment Property and Intangible Assets	24,148	28,326
Proceeds from short-term and long-term investments	199,500	56,903
Capital Grants Received	43,960	60,736
Other receipts from investing activities	2,534	4,523
Net cash flows from investing activities	(80,477)	(7,227)

35 Cash Flow Statement - Financing Activities

	2018/19 £'000	2017/18 £'000
Cash receipts of short- and long-term borrowing	-	-
Cash payments for the reduction of outstanding liabilities relating to finance leases and on-Balance-Sheet PFI contracts	(12,816)	(6,367)
Repayments of short- and long-term borrowing	(1,775)	(3,000)
Council Tax and NNDR adjustments	4,230	(18,863)
Net cash flows from investing activities	(10,361)	(28,230)

36 Related Parties

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Council members and Executive Directors have been asked to provide information regarding related party transactions. From the information received, it is believed that there have not been any significant transactions involving these counterparties during the year.

Central Government has significant influence over the general operations of the Council - it is responsible for providing the statutory framework within which the Council operates. It provides the majority of its funding in the form of grants, which are disclosed in Note 16.

The Council has interests in a number of companies over which it has significant influence or control as set out below.

Name	Nature of Council relationship	Net assets/ (liabilities)	Transactions with the Council	Nature of transactions	Balances owed to / (from) the Council as at 31 3 2019	Future financial support expected in 2018/19	Key risks identified
Bristol Waste Company	100% subsidiary of Bristol Holding Limited The City Council has one Director post on the Board.	£3.9m per audited accounts as at 31 March 2019	£31m payments by Council to company £0.7m recharges from Company to Council	Contract for waste collection and recycling services Recharges	£1.1m owed by the Council.	Nil – payments are made for work done in line with contract terms	Low risk – company is trading profitably and delivering services as agreed
Bristol Holdings Limited	100% subsidiary The City Council has one Director post on the Board.	(£4.8)m per audited accounts as at 31 March 2019	£6.5m payments by Council to company	Purchase of shares	£1.4m owed to the Council for preference share interest	See below	See below
Bristol Energy Limited	100% subsidiary of Bristol Holdings Limited The City Council has one Director posts on the Board.	(£27.4m) per audited accounts as at 31 March 2019	£2.2m recharges from the Council £1.5m sales of energy to the Council	Recharges and the sale of energy	£16.7m of guarantees issued by the Council. Exposure as at 31 March £14.9m	Further funding may be required until the company reaches breakeven point	Key risk is the company's ability to attract and retain customers in a competitive market

Bristol Energy & Technology Services (Supply) Limited	100% subsidiary of Bristol Holdings Limited The City Council has one Director post on the Board. The company is currently dormant.	£1	None	N/A	Nil	Nil	None
Bristol is Open Limited	50/50 joint venture with Bristol University The City Council has one Director posts on the Board.	(£79k) per March 2018 management accounts	£None	N/A	Nil	Further funding may be required if the company continues to trade at a deficit	Low risk – sums involved are not significant in the context of the Council's overall net budget.
Bristol Local Education Partnership (LEP) Ltd	Joint venture with BCC holding 10%, Building Schools for the Future Investments (Bristol) Ltd 10% and Skanska Infrastructure Development UK Limited 80%	£245k per December 2018 audited accounts	£11.3m payments to the company	Provision of ICT and construction services to schools in Bristol.	£110k owed to the Council	Nil – payments are made for work done in line with contract terms	Low risk – company is trading profitably and delivering services as agreed
Goram Homes	100% owned subsidiary. The City Council has one Director post on the Board.	Nil	Nil	Development of building projects	Nil	Nil	Currently no risk as the company was not trading during 2018/19

West of England Partnership

Four unitary authorities - Bath & North East Somerset Council, Bristol City Council, North Somerset Council and South Gloucestershire Council - continue to work together and co-ordinate high level planning to improve the quality of life of their residents and provide for a growing population. This joint work focuses on activities that are better planned at the West of England level, rather than at the level of the individual council areas.

The partnership is not a partnership in law, nor a formal decision making body, and does not have the power to bind the four unitary. The partnership's activity is integrated into the West of England Local Enterprise Partnership (LEP), which promotes economic growth and prosperity through its key themes of Place, People and Business

37 Transfer of Functions

As part of the West of England devolution deal, South Gloucestershire, Bristol and Bath & North East Somerset Councils agreed to the establishment of the West of England Combined Authority to support economic growth and development across the region. Under the devolution deal certain functions were transferred from the constituent authorities to the WECA from 1st April 2018. These included concessionary fares, community transport, key route network development and bus service information. WECA has commissioned South Gloucestershire Council to provide concessionary fares on its behalf during 2018/19.

WECA levies the constituent authorities for the cost of the services for which it is now responsible. This is shown under Other Operating Expenditure. The value of the levy in 2018/19 is £6.893m (2017/18 £8.475m). There has been no change to the council's assets or liabilities arising from the transfer of functions to WECA.

38 Contingent Liabilities

The City Council has received five separate applications from NHS bodies and trusts for mandatory charitable business rate (NNDR) relief. The applications are for 80% mandatory charitable relief backdated to 2010. The Council has sought legal guidance and, as a result, has declined all applications. A number of NHS bodies have begun legal action against local authorities. The City Council is not involved in any of these cases.

Bristol North Swimming Baths: A former contractor (in administration) may bring claims (as yet particularised) in respect of this project following termination of a contract in December 2015. The Council does not accept any liability in this regard and will defend any legal claims arising.

The Council has 59 tower blocks in total, of which 37 blocks are clad. Following the Grenfell Tower tragedy the Council has, in addition to its own safety checks, began commissioning independent checks of our entire high rise cladding systems and materials to evidence that our blocks are safe. The materials used is different and of different design to that employed at Grenfell and there is no evidence to suggest that we will need to remove any cladding at this point in time. We have earmarked funds in our HRA Business Plan for general tower block maintenance and improvements and will continue to monitor its sufficiency as findings from our own independent checks are concluded.

In addition to the above an independent Public enquiry has been commissioned by the Government into the Grenfell tower tragedy and there is a risk that new regulations or measures emerge that will need to be implemented to ensure people living in high rise buildings are safe. These may not be fully funded from central government leaving a residual liability to the Council.

The Council is aware of a number of court rulings which may have an impact on the Local Government Pension Scheme and therefore the liability incurred by the Council.

GMP Equalisation

UK and European law requires pension schemes to provide equal benefits to men and women in respect of service after 17 May 1990 (the date of the “Barber” judgment) and this includes providing equal benefits accrued from that date to reflect the differences in GMPs. Previously, there was no consensus or legislative guidance as to how this might be achieved in practice for ongoing schemes, but the 26 October 2018 Lloyds Bank court judgement has now provided further clarity in this area. However, in response to this judgement HM Treasury stated that “public sector schemes already have a method to equalise guaranteed minimum pension benefits, which is why we will not have to change our method as a result of this judgment”, clearly implying that the Government (who have the overall power to determine benefits provision) believe the judgement itself will not affect the benefits. Therefore, the natural conclusion for the main public service pension schemes including the Local Government Pension Scheme is that it is not appropriate for any provision to be included for the effect of the Lloyds Bank judgment, at least at the present time, and so we have not made any allowance for any additional liabilities within the accounting exercise at this stage. However, in due course there may be a further cost to the LGPS in connection with equalisation/indexation, when the Government confirms the overall approach which it wishes to adopt in this area following its consultation.

HRA Income and Expenditure Statement

The HRA reflects a statutory obligation to account separately for council housing provision. The HRA Income and Expenditure Statement shows the major elements of HRA expenditure and how they are met from rents, service charges and other income. The account does not reflect all of the transactions required by statute to be charged or credited to the HRA for the year. The movement on the HRA Statement gives details of the additional transactions, which are required by statute.

	Note	2018/19 Net £'000	2017/18 Net £'000

Notes to the Housing Revenue Account

1 Dwelling numbers as at 31 March 2019

	31 March 2019	31 March 2018
Houses		
1 Bedroom	18	16
2 Bedrooms	2,071	2,078
3 Bedrooms	8,855	8,920
4 or more Bedrooms	394	386
Total Houses	11,338	11,400
Bungalows		
1 Bedroom	355	344
2 Bedrooms	704	700
3 Bedrooms	25	26
Total Bungalows	1,084	1,070
Flats		
1 Bedroom	6,469	6,493
2 Bedrooms	7,603	7,633
3 Bedrooms	425	425
4 or more Bedrooms	18	17
Total Flats	14,515	14,568
Total Dwellings held at 31 March 2019	26,937	27,038

2 Rent and Rent Arrears

The total value of dwelling rents in 2018/19, less rent attributable to empty properties (voids), is £110.5m (£112m in 2017/18). The amount of rent arrears, including recoverable housing benefit, water charges, defect charges, etc.:

As at 31 March	2019 £'000	2018 £'000
Former tenants	3,774	2,697
Current tenants	7,654	8,071
	11,428	10,768
Balance Sheet Provision		
Former tenants	3,121	2,505
Current tenants	5,693	6,174
	8,814	8,679

Vacant Possession

The vacant possession value of dwellings as at 1st April 2019 was £4.798bn. The value of dwellings in the balance sheet (excluding dwellings leased to Registered Social Landlords) was £1.679bn, a difference of £3.119bn. This difference reflects the economic cost of providing council housing at less than market rent. This cost is determined by applying the Government prescribed discount rate of 35% of the Market Value to the vacant possession value.

3 Sums Directed by the Secretary of State to be Debited or Credited to the HRA

In 2018/19 there were no sums approved by the Secretary of State to be debited to the HRA in relation to the transfer of rent rebates from the HRA to the General Fund.

4		2018/19	2017/18
		£'000	£'000
Depreciation			
Operation	- Dwellings	24,538	24,928
	- Other, including leased	477	598
Total depreciation		25,015	25,526
Revaluation losses		1,190	1,391
Reversal of impairment losses		-	-
Total depreciation and impairment		26,205	26,917

Impairment

There was a loss on revaluation of £1.191m charged to the surplus on provision of Services (2017/18: £1.391m).

5 HRA Share of Contributions to/from Pension Reserve

For 2018/19 the HRA has been attributed with a share of the interest cost, net of the expected return on pension assets, as calculated by the actuary to the pension fund £2.3m (2017/18 £2.3m). This share has been calculated using the proportion of HRA pensionable pay to the total of that for the council. The net cost of services shown in the HRA statement also includes the current service cost as required by IAS19 of (£8.5m) (2017/18 (£8.7m)). This is excluded from the HRA Balance for the year and replaced with Employers Contributions payable £4.4m (2017/18 (£4.1m)) with the net movement on the Pension reserves of £4.1m (2017/18 £4.6m). Further information regarding the accounting for pensions is included in the notes to the consolidated revenue account and balance sheet, see note 32.

6 Capital Expenditure and financing

Total expenditure during the year and its financing was as follows:

Expenditure	2018/19	2017/18
	£'000	£'000
Dwellings	35,847	31,409
Other Assets	898	969
	36,745	32,378
Financing		
	2018/19	2017/18
	£'000	£'000
Usable capital receipts	3,951	2,129
Revenue contributions to capital	10,160	5,948
Major Repairs Reserve	22,634	24,301
	36,745	32,378

7 Capital Receipts

Capital receipts received during the year from disposals of land, houses and other property within the HRA was £12.4m (£16.7m in 2017/18). The receipts are summarised as follows:

	2018/19 £'000	2017/18 £'000
Receipts unapplied brought forward - 1 April	48,993	41,969
Right to Buy sales	12,274	16,108
Mortgage repayments	18	10
Disposal of Land and Buildings	107	590
	61,392	58,677
Allowable reductions		
Repaid to MHCLG	(2,614)	(6,055)
Capital receipts applied	(3,951)	(2,129)
Capital receipts applied to GF		(1,500)
Capital receipts unapplied carried forward - 31 March	54,827	48,993

8 Major Repairs Reserve

	2018/19 £'000	2017/18 £'000
Balance brought forward - 1 April	(1,225)	-
Capital expenditure (dwellings)	22,634	24,301
Depreciation set aside in year	(25,015)	(25,526)
Excess depreciation credited to Statement of Movement on HRA Balance	-	-
Balance carried forward - 31 March	(3,606)	(1,225)

Depreciation has been calculated in accordance with our accounting policies for all HRA assets. We have used the Keystone component accounting information for Dwelling as a proxy for component accounting and Corporate Asset Management system for Non-Dwelling.

The MRA balance was £25m for 2018/19 (2017/18 - £25.5m). £22.6m was used to finance appropriate Housing Revenue Account capital expenditure.

9 Balance Sheet Value of Land and Houses, etc.

	2018/19 £'000	2017/18 £'000
Dwellings	1,651,983	1,656,465
Land	30,794	16,179
Other assets	18,460	21,694
	1,701,237	1,694,338

10 Asset Split

	2018/19 £'000	2017/18 £'000
Operational - dwellings	1,651,983	1,656,465
Operational - other land and buildings	42,005	30,496
Non-operational	7,250	7,377
Intangible	1,867	969
Other	2	6
	1,703,107	1,695,313

11 Reserves

The details of reserves and provisions held within the HRA (excluding those already shown in Note 18 above) are summarised as follows:

	2018/19 £'000	2017/18 £'000
Reserves		
HRA balance	78,718	71,269
Other reserves		
Furniture Packs	1,091	1,091
CCTV	419	255
Energy efficiency	3,541	3,198
Improving Tenants Experience	1,184	1,184
Other	1,617	1,616
Sub-total other reserves	7,852	7,344
Total reserves	86,570	78,613

Notes to the Collection Fund Income and Expenditure Account

1 General

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and non-domestic rates. Only the elements attributable to the City Council are recognised with the Council's other accounts.

2 Council Tax

Council tax income derives from charges raised according to the value of residential properties, which have been classified into 8 valuation bands based upon 1 April 1991 values for this specific purpose. Individual charges are calculated by estimating the amount of income required to be taken from the Collection Fund by the City Council, the Avon and Somerset Police and Crime Commissioner and the Avon Fire Authority for the forthcoming year and dividing this by the council tax base of 125,798 for 2018/19 (124,083 for 2017/18). This represents the total number of properties in each band adjusted by a proportion to convert the number to a Band D equivalent and adjusted for discounts and the estimated collection rate. This basic amount of Council Tax for a Band D property of £1,891.10 for 2018/19 (£1,799.75 for 2017/18) is multiplied by the proportion specified for the particular band to give an individual amount due.

Calculation of the Council Tax Base used in setting the 2018/19 Council Tax:

	BANDS										
	A Entitled to Disabled Relief	A	B	C	D	E	F	G	H	Total	
No of Properties	-	51,725	72,992	38,772	18,138	9,643	4,759	2,846	338	199,213

4 National Non-Domestic Rates (NNDR)

The Council collects NNDR for its area based on rateable values as determined by the Valuation Office Agency and reviewed on a 5 yearly basis. The last revaluation date was on 1 April 2017. The next revaluation is expected to be 1 April 2020, with valuations being effective from 1 April 2022.

Each year the Government specifies an amount known as the non-domestic rating multiplier and (subject to the effects of transitional arrangements) local businesses pay rates calculated by multiplying their rateable value by that multiplier. A second multiplier known as the small business non-domestic rating multiplier was introduced from 1 April 2005 and this multiplier is applicable to those businesses that qualify for small business relief.

In 2018/19 the non-domestic rating multiplier was 49.3p (47.9p in 2017/18) and the small business non-domestic rating multiplier was 48.0p (46.6p in 2017/18).

As part of the governments West of England devolution deal Bristol, Bath and North East Somerset and South Gloucestershire Councils agreed to the establishment of the West of England Combined Authority (WECA) to support economic growth and development across the region. This also enabled the three Councils to take part in a 100% business rates retention pilot. As a result Bristol City Council is now responsible not only for collection of rates due from the ratepayers in its area but also for redistribution of the sums paid according to the following percentages: Bristol City Council: 94%, West of England Combined Authority 5% and Avon Fire Authority: 1%.

The NNDR income after reliefs and provisions was £214,800m for 2018/19 (£213,069m for 2017/18). The total rateable value at 31 March 2019 was £556.252m (£558.772m at 31 March 2018).

5. City Region Deal Growth Disregard

From 2015/16, the Council is allowed to retain 100% of the growth in Business Rates in its Enterprise area and Enterprise Zone. The growth is transferred to the Council's General Fund before being pooled with other participating authorities.

City Region Deal

Background

Under the City Region Deal, Bristol City, Bath & North East Somerset, North Somerset and South Gloucestershire Councils ("the Authorities") are part of a Business Rates Retention Scheme, introduced by the Government in April 2013, allowing Authorities to retain a proportion of the business rates collected locally. The Authorities are allowed to retain 100% of the growth in business rates raised in the City Regions network of Enterprise Areas over a 25 year period ending on 31/3/2039 to create an Economic Development Fund for the West of England and to manage local demographic and service pressures arising from economic growth.

A 'baseline' level of rates for each Authority has been agreed with the government for the areas designated within the Non-Domestic Rating (Designated Areas) Regulations 2015. Rates collected up to this figure (the baseline) are subject to the national rates retention system. Rates collected in excess of this figure (the 'growth figure') are retained by the Authorities under the Non-Domestic Rates Designated Area Regulations 2013 and 2014 in a pooling arrangement. The governance of the distribution of retained pooled funds will occur through a Business Rates Pooling Board constituted under the Business Rates Pooling Principles Agreement (BRPPA) signed by the four Authorities.

Transactions

Each participating Council pays an annual growth figure to South Gloucestershire Council, as the Accountable Body for the BRP, representing business rates collected in the Enterprise Areas in excess of an agreed baseline figure. Retained funds will be distributed or invested annually in accordance with the 2014 Regulations and the BRPPA as:

- Tier 1: to ensure that no individual Council is any worse off than it would have been under the national local government finance system,
- Tier 2: to an Economic Development Fund (EDF) for reinvestment within the designated areas through approved programmes,
- Tier 3: for the relief of demographic and service pressures associated with growth.

Cash receivable and disbursements payable by the BRP and the Council's share of these are reflected under "Cash Transactions" in the table below. Expenditure and revenue recognised in the Council's CIES is also disclosed.

	CASH TRANSACTIONS		REVENUE & EXPENDITURE	
	Business Rates Pool Total	of which the Council's share	Council Expenditure	Council Revenue
	£'000	£'000	£'000	£'000
Funds held by BRP at 1 April	(20,328)	(5,682)	-	-
Receipts into the Pool in-year				
- Growth sums payable by Council's to BRP in year	(19,487)	(5,335)	5,335	-
Distributions out of the Pool in-year				
- Tier 1 no worse off	6,924	2,559	-	(2,559)
- BRP management fee	81	20	-	-
- EDF management fee	67	16	-	-
- Tier 2 EDF funding	1,677	265	-	(1,033)
- Tier 3 demographic and service pressures	1,980	437	-	(516)
Funds held by BRP at 31 March	(29,086)	(7,720)		
Analysed between:				
Uncommitted cash (Tier 2 inc contingency)	(25,534)	(6,777)	(2,037)	n/a
Committed cash (Tier 3)	(3,552)	(943)	n/a	n/a
	(29,086)	(7,720)		
Expenditure/(Revenue) recognised			3,298	(4,108)

As stated under the accounting policies, growth paid over to the BRP is recognised as expenditure by each council to the extent that the use of the funds by the BRP has been committed. Uncommitted cash is recognised by each council as a debtor.

The uncommitted cash of £6.777m contributed by the council and held by the BRP is recognised by the council as a debtor and is held in a new earmarked reserve to smooth the impact of City Region Deal transactions, and match the release of revenue support and charges for projects. The BRP has made one payment of £1.033m to Bristol City Council on behalf of the EDF in 2018/19 (2017/18 £1.437m.)

The Council itself has recognised revenue income of £4.108m (2017/18 £4.084m) from the BRP and expenditure of £3.298m (2017/18 £2.885m) to the BRP for the year.

Group Accounts

Introduction

The Code of Practice on Local Authority Accounting in the United Kingdom 2018/19 (The Code) requires local authorities with interests in subsidiaries, associates and/or joint ventures to prepare group accounts in addition to their own single entity financial statements, unless their interest is not considered material. The aim of the Group Accounts is to provide the reader with an overall view of the material economic activities of the Council.

The Council has interests in a number of companies that are classified as a subsidiary or joint venture, all of which have been considered for consolidation. Three of these, Bristol Holding Limited, Bristol Waste Company Limited and Bristol Energy Limited are considered to be material to the financial statements. Details of the companies considered for consolidation are shown below.

The Group Accounts contain the core statements similar in presentation to the Council's single entity accounts but consolidating the figures of the Council with, Bristol Holding Limited, Bristol Waste Company Limited and Bristol Energy Limited. Copies of the individual audited accounts are available from Companies House.

The purpose of each of the core statements is explained in the relevant sections of the single entity accounts. No amendments have been necessary to the accounts of the group entities as a result of material differences arising from the variation in accounting policies.

The following pages include:

- Group Comprehensive Income and Expenditure Statement
- Group Balance Sheet
- Group Movement in Reserves Statement
- Group Cash Flow Statement
- Associated Notes to the Accounts where there are significant differences between the Council's single entity accounts and the consolidated Group.

Group Financial Statements

The Group Comprehensive Income and Expenditure Account as at 31 March 2019

This statement shows the accounting cost in the year of providing the Group's services in accordance with generally accepted accounting practices.

29,990	Cash and Cash Equivalents at the end of the reporting period		21,431

Notes to the Group Accounts

Accounting Policies

Generally, the accounting policies for the group accounts are the same as those applied to the single entity financial statements, except for the following policies which are specific to the group accounts:

Basis of Identification of the Group Boundary

Group accounts are prepared by aggregating the transactions and balances of the Council and all its material subsidiaries, associates and joint arrangements. In its preparation of these Group Accounts, the Council has considered its relationship with entities that fall into the following categories:

- Subsidiaries – where the Council exercises control and gains benefits or has exposures to risks arising from this control. These entities are included in the group.
- Joint Arrangements (Joint Operations and Joint Ventures) – where the Council exercises joint control with one or more organisations. Where these are material they are included in the group.
- Associates – where the Council is an investor and has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee (stopping short of control or joint control.) It is presumed that holding 20% of the voting power of an investee (either directly or indirectly) brings significant influence but this presumption can be rebutted.
- No group relationship – where the body is not an entity in its own right or the Council has an insufficient interest in the entity to justify inclusion in the group financial statements. These entities are not included in the group.

In accordance with this requirement, the Council has determined its Group relationships as follows:

Bristol Holding Ltd	Subsidiary	Consolidated
Bristol Waste Company Ltd	Subsidiary	Consolidated
Bristol Energy Ltd (formally Bristol Energy and Technology Services (Supply) Ltd	Subsidiary	Consolidated
Bristol Energy and Technology Services (Supply) Ltd	Subsidiary	Not Material – Dormant company
Local Education Partnership	Joint Venture	Not Material
Bristol is Open Ltd	Joint Venture	Not Material
Goram Homes	Subsidiary	Not Material – Not yet trading

The grounds for exclusion from consolidation of certain entities are not material to the true and fair view of the financial statements or to the understanding of the users.

Basis of Consolidation – Group Accounts

The Group Accounts have been prepared using the group accounts requirements of the Code. Companies or other reporting entities that are under the ultimate control of the Council have been included in the Council's group accounts to the extent that they are material to users of the financial statements in relation to their ability to see the complete economic activities of the Council and its exposure to risk through interests in other entities and participation in their activities.

Subsidiaries have been consolidated on a line by line basis, subject to the elimination of intra-group transactions from the statements, in accordance with the Code. Accounting policies have been aligned where applicable.

Bristol Holding Limited

Bristol Holding is a wholly owned subsidiary of the City Council, incorporated on 12 March 2015. The principal activity of the company is that of a holding company and the activities of the group are the provision of waste services and a gas and electric supply business in the UK with particular focus on residential customers.

On the 13 July 2015 the company acquired Bristol Energy and Technology Services (Supply) Limited for £100,000 and on 31 March 2016, the company acquired Bristol Waste Limited from Bristol City Council.

As at the 31 March 2019 the Council has invested £29.411m in Bristol Holding Limited. This was made up of £7.243m ordinary shares and £22.168m cumulative redeemable preference shares.

Bristol Waste Company Limited

Bristol Waste Company Limited is a wholly owned subsidiary of Bristol Holding Limited. The company was incorporated on 5 March 2015. From the 8 August 2015 the company has been providing waste collection, street cleaning and other maintenance services in Bristol.

Bristol Energy Limited (formally Bristol Energy and Technology Services (Supply) Limited)

Bristol Energy is a wholly owned subsidiary of Bristol Holding Limited incorporated on 17 July 2014. The company commenced trading on 23 November 2015 and launched its product offering to customers in February 2016. On 14 February 2018 a resolution was passed to authorise the Company to change its name to Bristol Energy Limited.

Bristol Energy and Technology Services (Supply) Limited (formally Bristol Energy Limited)

Bristol Energy and Technology Services (Supply) Limited is a wholly owned subsidiary of Bristol Holding Limited incorporated on 14 March 2016. The company is currently dormant. On 14 February 2018 a resolution was passed to authorise the Company to change its name to Bristol Energy and Technology Services (Supply) Limited.

None of the other entities in which the City Council has an interest are considered material enough to merit consolidation into the Council's Group Accounts. Details of these can be found within the Related Parties note in the Council's single entity accounts (Note 37)

Group financial position

The closing net deficit balance of the group is £31.223m which takes into account previous years losses carried forward. This is in-line with the expectations set out in the company's business plan. The Council has ambitious strategic plans for Energy and Waste in the coming years, in which the companies will play a key role.

Where there are no material changes to the statements the notes are as per the Council's single entity accounts. Where consolidation has resulted in material changes additional notes are set out below.

Events after the Balance Sheet Date

The Statement of Accounts was authorised for issue by the Section 151 Officer on 28 May 2019. Events taking place after this date are not reflected in the financial statements or Notes. However there has been a one event since the 31 March 2019 up to the date the accounts were authorised for issue by the S151 Officer. The primary statements have not been adjusted for this however details are set out below.

In addition to the disclosure provided in the Council's accounts, at page 88 the Council has recently decided to seek a buyer for Bristol Energy, business and or assets. Should the Council successfully complete a sale, these Group accounts, set out in pages 166-173, would be impacted in future by the removal of the associated transactions and balances relevant to the Company at that time. For the financial year 2018/19 a turnover of £76.2m was reported for Bristol Energy.

G1 Net Cost of Services

The Net cost of Services in the consolidated CIES includes gross income of £74.5m and gross expenditure of £88.3m associated with Bristol Energy trading outside of the group boundary. Similarly the net cost of services includes gross income of £8.4m and gross expenditure of £7.9m associated with Bristol Waste trading outside of the group boundary.

Revenue from Contracts with Customers

Further to a review of this area, the Group can confirm that there is no material contractual revenue income from customers to disclose. There is therefore nothing to disclose in relation to the introduction of IFRS 15-Revenues from Contracts with Customers.

G2 Financing and Investment Income and Expenditure

Finance Director	Nov'18 – Mar'19			21,808	-	1,090	22,898

Note 1 (Interim) – The amounts disclosed in the table in respect of these posts are the costs incurred by the Company to secure the individuals services on this basis and not the amounts the individuals actually received (which will have been lower).

Note 2 - The table above is presented in a format as prescribed in Schedule 1 of the Accounts and Audit Regulations 2015. This presentation differs from that of the disclosure in the Companies audited accounts as these are prepared in accordance with FRS 102

G10 Financial Instruments

The borrowings and investments disclosed in the Balance Sheet are made up of the following categories of financial instruments. The value of debtors and creditors reported in the table are those amounts meeting the definition of a financial instrument. The balances of debtors and creditors reported in the balance sheet and associated notes also include balances which do not meet the definition of a financial instrument, such as tax-based debtors and creditors.

	Long-Term		Current	
	31 March 2019	31 March 2018	31 March 2019	31 March 2018

Investments	34,000		19,019	
Total Financial Assets	36,670	16,773	191,844	135,026

To aid transparency the Council has elected to expand the analysis in the above table in 2018/19 by further splitting out the financial assets and liabilities more fully than previously disclosed in the prior period. See note G11a on for further details including the adjustment to the prior period due to a calculation error.

Movements

The increase in financial assets, circa £76m, primarily relates to the increase in value of long term investments through revaluation (£23m) and acquisition. In addition the increase in working capital and reserves has resulted in additional cash resources to invest in lieu of using these resources.

Reclassification and re-measurement of financial assets at 1 April 2018

Previous Classification	Carrying Amount brought forward at 1 April £'000	New Classification at 1 April 2018		
		Amortised cost £'000	Fair value through other comprehensive income £'000	Fair value through profit and loss £'000
Loans & Receivables - Amortised Cost	114,035	114,035	-	-
Cash and Cash equivalents - Amortised Cost	25,263	(3,608)	-	28,871

Remeasured carrying amount 01 April 2018		110,427	100	63,773
Impact on General Fund Balance				(22,500)
Statutory override for investments classed as capital expenditure				22,500
Impact on Financial Instruments Revaluation Reserve				-

Remeasurements at 1 April 2018

The Group's shareholding in Bristol Port Company Ltd was previously classified as an Unquoted Equity investment at cost (£2.5m) a classification no longer applicable with the adoption of IFRS9 on the 1st April 2018. The shareholding has been measured using various valuation techniques providing a range of valuations with the mid-point valuation of £25m being used as a prudent valuation. It is difficult to reliably measure this company because there are no established companies with similar aims in the Group's area whose shares are traded which might provide comparable market data. If the Group were to consider to realise it's holdings then the Group would also seek specialist external advice as part of the process.

Effect of Asset Reclassification and Remeasurement on the Balance Sheet

	Amortised Cost £'000	Fair Value through Other Comprehensive Income £'000	Fair Value through profit and loss £'000	Non-financial instruments balances £'000	Total Balance Sheet carrying amount £'000
Remeasured carrying amounts at 1 April 2018	£'000	£'000	£'000	£'000	£'000
Non-current investments	1	-	34,901	-	34,902
Long-term debtors	4,272	100	-	-	4,372
Current investments	21,524	-	28,871	-	50,395
Current debtors	84,631	-	-	-	84,631

Borrowing

	31 March 2019 £'000	31 March 2018 £'000
Current borrowing		
Deposit loans (repayable at notice - up to 7 days)	101	101
Other short term borrowing (repayable within 1 year):		
- Public Works Loan Board	3,737	3,737
- Banks and other monetary sector	1,399	1,138
- Local bonds and property rent disposals	11	11
- Stocks	10	10
Total	5,258	4,997

	31 March 2019 £'000	31 March 2018 £'000
Non-current borrowing		
Public Works Loan Board	310,439	310,439
Lender Option Borrower Option (Lobo)	70,000	100,000
Market Debt	50,000	20,000
Stocks	49	50
Total	430,488	430,489

The Group did not undertake any new long term borrowing during year as set out in the Treasury Management Strategy to reduce the net financing costs and counter party risk of the Group. During the year £30m of Lobo's were converted to fixed rate loans when the options in these loans were unilaterally removed.

Income, Expense, Gains or Losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement for financial instruments are as follows:

Financial Instruments Gains and Losses 2018/19

	Financial Liabilities	Financial Assets			
	Measured at amortised cost	Loans and receivables	Fair Value through the CI	Fair Value through the P&L	Total
	£'000	£'000	£'000	£'000	£'000

Valuation techniques and Inputs				
Description of asset	Valuation hierarchy	Basis of Valuation	Observable and Unobservable inputs	Key sensitivities affecting the valuations provided
Money Market Funds	Level 1	Unadjusted quoted prices in active markets for identical shares	Latest quoted prices	
Surplus assets	Level 2	All surplus assets have been valued by RICS qualified valuers to Fair Value less costs to sell, reflecting highest and best use.	Evidence of title, floor area, siting and site conditions, type/age and current use of the property have been taken into account together with general market conditions and advertised value of similar properties currently up for sale.	Not all assets are physically inspected every year. Latent defects, repair and maintenance backlogs, general changes in the market and other impairments could have a significant impact on the values provided.
Investment Properties	Level 2	All investment properties have been valued by the Group's in-house valuers (all RICS qualified) on an investment income basis which we are satisfied represents highest and best use overall.	All valued on an investment income basis, using existing lease terms and current yields	Changes to market conditions, lease terms, covenant strength and occupancy levels could all affect the asset valuations provided.

Bristol Port Company	Level 3	This investment has been valued using a variety of valuation techniques, including net asset, discounted cashflow, and multiple of earnings.	Calculations have been based on the latest audited accounts, dividends and limited comparable data.	Changes to market conditions (local and global), and the comparable data used within the valuations.
Investments in unquoted companies	Level 3	These investments have been valued at the Group's share of each company.	Calculations have been based on their latest audited accounts	
Investments in Pooled Property Fund	Level 3	These investments have been valued at the Group's share within the pooled fund.	The valuation for Pooled Property Funds have been based on the latest quarterly financial report (31st December 2018).	Changes to housing market conditions could affect the valuation of the pooled property fund.

Transfers between levels of the fair value hierarchy

There were no transfers between levels 1 and 2 during the year.

Changes in valuation technique

There has been no change in valuation techniques used during the year.

Reconciliation of fair value measurements for assets at fair value within level 3

Description	31 March 2019	31 March 2018
	Non-traded securities	Non-traded securities
	£000	£000
Opening balance	9,650	5,000
Re-measurement 1/4/18	25,350	
Transfers into level 3	-	-
Transfers out of level 3	-	-
included in the surplus/(deficit) on the Provision of Services	(150)	-
included in Other Comprehensive Income and Expenditure	-	(750)
Total gains/(losses) for the period:	(150)	(750)
Additions	-	5,400
Disposals	(200)	-
Closing balance	34,650	9,650

Gains and losses included in Other Comprehensive Income and Expenditure for the current year relate to investments in the Homelessness Property Fund and are taken to the Financial Instruments Revaluation Reserve. These are reported in the surplus or deficit arising on the revaluation of financial assets in Other Comprehensive Income and Expenditure statement.

The Fair Values of Financial Assets and Financial Liabilities that are not Measured at Fair Value

Except for the financial assets carried at fair value (described in the table above), all other financial liabilities and financial assets represented by loans and receivables and long term debtors and creditors are carried on the balance sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that take place over the remaining life of the instruments, using the following assumptions:

- For loans from the PWLB payable, prevailing market rates have been applied to provide the fair value under PWLB debt redemption procedures. An additional note to the tables sets out the alternative fair value measurement applying the premature repayment, highlighting the impact of the alternative valuation;
- For non-PWLB loans payable, prevailing interest rates have been applied to provide the fair value;
- No early repayment or impairment is recognised;
- Where an instrument has a maturity of less than 12 months or is a trade or other receivable the fair value is taken to be the carrying amount or the billed amount;
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

Financial Liabilities	31 March 2019		31 March 2018	
	Carrying amount	Fair value	Carrying amount	Fair value
	Restated	Restated	Restated	Restated
	£000	£000	£000	£000
Public Works Loan Board (PWLB)	314,176	478,900	314,176	472,800
Lender Option Borrower Option	70,670	104,500	100,821	147,542
Market Debt	50,729	72,960	20,317	26,658
Current Creditors	154,180	154,180	129,862	129,862
Service Concessions	134,382	223,058	140,130	230,787
Other	248	248	9,716	8,352
Total Liabilities	724,385	1,033,846	715,022	1,016,001

The Group has used a transfer value for the fair value of financial liabilities. We have also calculated an exit price fair value of £1.151bn an increase of £148m which is calculated using early repayment discount rates. The Group has no contractual obligation to pay these penalty costs and would not incur any additional cost if the loans run to their planned maturity date.

The fair value for financial liabilities and assets has been assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the assumptions detailed above, the fair value is arrived at by applying the discounted cash flow calculations based on the PWLB premium/discount calculations.

The fair value of the liabilities is higher than the carrying amount because the Group's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the prevailing rates at the Balance Sheet date. This shows a notional future loss (based on economic conditions at 31 March 2019) arising from a commitment to pay interest to lenders above current market rates.

To aid transparency the Council has elected to expand the analysis in the above table further by splitting out the financial assets and liabilities than previously reported. The prior year has also been restated due to a calculation error as detailed in note G11a.

Financial Assets	31 March 2019		31 March 2018	
	Carrying amount	Fair value	Carrying amount	Fair value
	Restated	Restated	Restated	Restated
	£000	£000	£000	£000
Current investments	60,063	60,063	25,132	25,132
Cash and Cash Equivalents	21,607	21,607	29,990	29,990
Non-current investments	2	2	3,252	3,252
Current Debtors	91,154	91,154	79,904	79,904
Non-current debtors	2,018	2,018	4,272	5,190
Total Financial Assets	174,845	174,845	142,550	143,468

The fair value of the assets is the same as the carrying value due to the majority of these assets having a maturity of less than 12 months or is a trade or other receivable where the fair value is taken to be the carrying amount or the billed amount.

G11 Nature and Extent of Risks Arising from Financial Instruments

The Group's activities expose it to a variety of financial risks:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Group.
- Liquidity risk – the possibility that the Group might not have funds available to meet its commitments to make payments.
- Re-financing risk – the possibility that the Group might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms.
- Market risk – the possibility that financial loss might arise for the Group as a result of changes in such measures as interest rates and money market movements.

The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. Risk management is carried out by a central treasury team, under policies approved by the Council in the annual treasury management strategy, and compliance with the CIPFA Prudential Code of Practice, the CIPFA Treasury Management Code of Practice, and Investment Guidance that is issued under the Local Government Act 2003. The Group provides written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash. These are required to be reported and approved at or before the Council's annual Council Tax setting budget or before the start of the year to which they relate. These items are reported with the annual treasury management strategy that outlines the detailed approach to managing risk in relation to the Group's financial instrument exposure. Actual performance is also reported annually to Members.

The annual treasury management strategy which incorporates the prudential indicators was approved by Council on 20 February 2018 and is available on the Council website.

Credit risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Group's customers.

This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, in accordance with Fitch, Standard and Poor's and Moody's Credit Ratings Services. The Annual Investment Strategy also imposes a maximum sum to be invested with a financial institution located within each category.

Details of the Investment Strategy can be found on the Council's website. The key areas of the Investment Strategy are that the minimum criteria for investment counterparties include:

- Credit ratings of Short Term of F1, Long Term A-, with the lowest available rating being applied to the criteria;
- UK institutions provided with support from the UK Government;

The Group's maximum exposure to credit risk in relation to its investments in banks and building societies will vary according to credit ratings assigned by the three main credit rating agencies and cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Group's deposits, but there was no evidence at the 31 March 2019 that this was likely to crystallise.

Allowance for Credit Losses

The following analysis summarises the Group's potential maximum exposure to credit risk on financial assets valued at amortised cost, based on experience of default and un-collectability over the last five financial years, adjusted to reflect current market conditions.

	Amount	Historical experience of default	Adjustment for market conditions	Estimated maximum exposure to default	Estimated maximum exposure to default
	£000	%	%	£000	£000
	A	B	C	(A*C)	
	31-Mar-19	31-Mar-19	31-Mar-19	31-Mar-19	31-Mar-18
Current Investments:					
Local Authorities	30,040	0.00%	0.00%	-	-
AA rated counterparties	10,044	0.02%	0.02%	2	8
A rated counterparties	41,587	0.06%	0.06%	24	16
Sub-total	81,671			26	24
Trade debtors	91,154			-	-
Non-current debtors	2,020			-	-
Total Financial assets	174,845			26	24

The estimated maximum exposure for credit loss for Treasury investments is £26k and therefore no allowance for credit loss have been made for these assets.

No credit limits were exceeded during the reporting period and the Group does not expect any losses from non-performance by any of its counterparties in relation to deposits.

The Group does not generally allow credit for its trade debtors, including amounts due from government departments and other Local Authorities.

Current debtor analysis	Gross debtor at 31-Mar-19	Allowance for credit losses at 31-Mar-19	Net debtor at 31-Mar-19	Net debtor at 31-Mar-18 Restated
	£'000	£'000	£'000	£'000
Local tax payers	15,632	(7,270)	8,362	9,415
Housing rents	11,428	(8,814)	2,614	2,089
Other - sundry debtors	126,266	(32,211)	94,055	61,546
Total Other Entities and Individuals	153,326	(48,295)	105,031	73,050
Central Government bodies	9,731	-	9,731	35,056
Other local authorities	1,704	-	1,704	13,905
NHS bodies	6,617	-	6,617	4,139
Total debtors	171,378	(48,295)	123,083	126,150
Balance sheet debtors	171,378	(48,295)	123,083	126,150
Current debtors not qualifying as a financial instrument under IFRS	(39,199)	7,270	(31,929)	(46,246)
Other				
Current debtors qualifying as a financial instrument under IFRS	132,179	(41,025)	91,154	79,904

The following table analyses the Gross debt that is now past due over varying periods. This overdue debt is covered by a provision for bad debt.

	31 March 2019 £'000	31 March 2018 Restated £'000
Less than three months	23,499	15,603
Three to four months	3,861	1,382
Four months to one year	8,121	8,218
More than one year	39,241	39,962
Total	74,722	65,165

Liquidity risk

The Group has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. If unexpected movements happen, the Group has ready access to borrowings from the money markets to cover day-to-day cash flow need and the Public Works Loans Board and capital markets for access to longer term funds. The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. Therefore, there is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

The maturity analysis of financial assets, excluding sums due from customers, is as follows:

	31 March 2019	31 March 2018 Restated
	£'000	£'000
Less than 1 year	191,843	135,026
Between 1 and 2 years	777	150
Between 2 and 3 years	439	-
More than 3 years	35,455	16,623
Total	228,514	151,799

The maturity analysis of financial liabilities is as follows:

	31 March 2019	31 March 2018 Restated
	£'000	£'000
Less than 1 year	163,896	141,583
Between 1 and 2 years	17,934	14,630
Between 2 and 3 years	7,025	16,771
More than 3 years	535,530	542,038
Total	724,385	715,022

The prior year has also been restated due to a calculation error as detailed in note G11a.

Refinancing and Maturity risk

The Group maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer-term risk to the Group relates to the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer-term financial liabilities and longer-term financial assets.

The approved treasury indicator limits for the maturity structure of debt and the limits on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council approved treasury and investment strategies address the main risks and the central treasury team address the operational risks within the approved parameters. This includes:

- Monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt; and

- Monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Group's day-to-day cash flow needs, and monitoring the spread of longer-term investments provides stability of maturities and returns in relation to the longer-term cash flow needs.

The maturity profile of the Group's debt portfolio along with the Group's approved minimum and maximum exposure is shown in the table below.

	Approved minimum limits	%	Approved maximum limits	%	Actual 31 March 2019 £'000	%	Actual 31 March 2018 £'000	%
Less than 1 year	-		30		5,258	1%	4,997	1%
Between 1 and 2 years	-		40		10,000	2%	-	0%
Between 2 and 5 years	-		40		5,000	1%	15,000	3%
Between 5 and 10 years	-		50		54,000	13%	49,000	11%
More Than 10 Years	25		100		361,488	83%	366,489	85%
Total					435,746	100%	435,486	100%

Included within the maturity profile are £70m of LOBOS with maturities averaging 40 years. Inherent within these loan instruments are options (averaging an option every 3 years) that could give rise to the debt being repaid early. These loans are regularly reviewed with the current and expected structure of interest rates. The risk of the lenders exercising their options is currently low for the short to medium term. Therefore, the maturity of these loans in above table are currently based on their maturity date, 10 years and over.

Market risk

The Group is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Group. For instance, a rise in variable and fixed interest rates would have the following effects:

- Borrowings at variable rates – the interest expense charged to the Comprehensive Income and Expenditure Statement will rise;
- Borrowings at fixed rates – the fair value of the borrowing will fall (no impact on revenue balances);
- Investments at variable rates – the interest income credited to the Comprehensive Income and Expenditure Statement will rise; and
- Investments at fixed rates – the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value on the balance sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in the Other Comprehensive Income and Expenditure Statement.

The Group has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together the Group's expected treasury operations, including an

expectation of interest rate movements. From this Strategy a treasury indicator is set which provides maximum limits for fixed and variable interest rate exposure. The central treasury team will monitor market and forecast interest rates within the year to adjust exposures appropriately. For instance during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, similarly the drawing of longer term fixed rates borrowing would be postponed.

At 31 March 2019, if interest rates had been 1% higher with all other variables held constant, the financial effect would be:

	31 March 2019 £'000
Increase in interest receivable on variable rate investments	1,275
Impact on Surplus or Deficit on the Provision of Services	1,275
Share of overall impact debited to the HRA	1,368
Decrease in fair value of fixed rate borrowings liabilities (no impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure)	110,600

The approximate impact of a 1% fall in interest rates would be as above but with the movements being reversed.

Foreign exchange risk

During 2018/19 the Group received monies denominated in Euro's relating to the receipt of European grant. The Group also made payments in a variety of currencies for the supply of goods and services. Payments and receipts are converted to Sterling at the earliest opportunity.

G11a Prior Year Adjustment within the Financial Instrument notes G10 and G11

Prior Year Adjustment within the Financial Instrument notes G10 and G11

The Group discovered that the process to determine the value of financial liabilities to be recognised as current financial instruments within the financial instrument notes contained a calculation error relating to short term creditors. This has no impact on the primary statements, including the balance sheet and the comprehensive income and expenditure statement. The Council have since reviewed their processes and made appropriate changes, including to internal controls to ensure that such events are unlikely to recur.

This meant that the current financial liabilities meeting the specific criteria of a financial instrument within the financial instruments notes was understated by £34.485m within the 2017/18 statements. In order to correct this error the Council has restated the prior year comparative figures in the following financial instrument notes, G10 and G11.

	2017/18 As Originally Stated £'000's	2017/18 As Restated £'000's	Restatement £'000's	Page Reference
Note G10 Current Financial Liabilities	(100,990)	(135,835)	(34,845)	169
Note G10 Financial Liabilities - Carrying amount	680,177	715,022	34,845	177
Note G10 Financial Liabilities – Fair Value	981,156	1,016,001	34,845	177
Note G11 Financial Liabilities less than 1 year	106,738	141,583	34,845	182
Note G11 Financial Liabilities Total	680,177	715,022	34,845	182
