1. Policy Statement

The private housing sector accounts for 80% of the residential stock in Bristol - 53% are owner occupied and 27% privately rented. There are levels of disrepair and poor conditions found in this sector and for some there is a lack of resources available to remedy the issues. Grant funding from central government to help tackle repair issues with private sector housing disappeared almost entirely under the introduction of the Regulatory Reform (Housing) Order 2002 (RRO) with the exception being grants for disabled adaptations.

The RRO repealed much of the previous grant legislation from the Housing Grants, Construction and Regeneration Act 1996 together with the associated renewal funding. The RRO enabled Local Authorities (LAs) instead to offer discretionary assistance to owner occupier and private landlords with a focus on loans rather than grant.

Bristol City Council along with nine other LAs successfully bid for funding to set up a loan consortium, initially provided by Wessex Home Improvement Loans (now Lendology CIC) which went live in 2004. The funds for each of the LA's are held by Lendology in ring fenced accounts for each LA under a tight consortium agreement signed by each of the participating LAs. The repayment from these loans is re-cycled and made available to be lent again, so has become a self-sustaining funding source which has been a lifeline when many other forms of financial assistance have been cut.

Lendology administer the loans on behalf of the council in accordance with individual LA policy . Loans are offered subject to Lendology's assessment of the client's needs and a solution best suited to their means and project. This has the impact of ensuring the homeowner is offered the most appropriate loan type and term to suit their individual circumstances.

Providing funding to improve and maintain properties in a good state of repair can help its occupants stay healthy as it is proven that poor housing conditions can have a negative impact on health and well-being.

Loan funding can be used to improve energy efficiency and loans can be given to compliment other forms of assistance, such as Energy Company Obligation (ECO) grants or bid funding.

Loan funding is also available to help and encourage owners of long-term empty properties to bring them back into use at a time when there is a shortage of suitable accommodation in the city. Empty property officers provide advice and guidance and offer loans to empty property owners to make improvements or convert empty commercial units into residential properties available to sell to private owners or to be made available to let.

The Housing Grant, Construction and Regeneration Act 1996 has remained in place for Disabled Facilities Grants (DFG) and associated discretionary works and has retained its capital funding from central government through the Better Care Fund to help people to continue to live independently in their own home environment. The local authority has a legal duty to assess and identify the needs of residents in Bristol with health and / or disability issues. We can assist with a variety of solutions to meet those needs through mandatory and discretionary grants, advice, and other assistance:

- Major and minor adaptations to the existing home
- Working for safer discharge from and prevent re-admission to hospital
- Assistance to move to another property
- Supplying equipment
- Technology Enabled Care
- Advice to help people plan ahead

The DFG and discretionary adaptations grant funding can be given together with a Disabled Facilities Loan to provide a full package of works required to meet the applicant's needs.

2. Aims and objectives

The aim of the Financial Assistance policy is to provide financial help to homeowners to make essential improvements or repairs to their homes to provide safe and secure environment to live and for disabled homeowners to continue to live independently in their own homes.

Homeowners are generally expected to repair and maintain their own homes but those who are financially vulnerable still need assistance to access finance to enable essential repairs to be undertaken and through our partnership with Lendology we have been able to provide that assistance.

The Assistance also supports other council objectives such as loans to support private landlords whose properties fail to meet minimum housing standards. This can help those landlords who are struggling to maintain their properties to an acceptable standard and is an alternative to enforcement action.

Working with Bristol City Council's Energy Service and to compliment relevant Government initiatives, we are able to offer energy loans to improve the energy efficiency of private properties both owner occupied and privately rented to improve housing conditions for the occupants and help to reduce fuel poverty for the most vulnerable. Bristol is committed to tackling fuel poverty and improving the city's least energy efficient homes to support local and national fuel poverty and carbon neutral ambitions.

Assistance to owners of empty properties can help to bring this wasted resource back into use at a time of great demand for housing.

3. Roles and Responsibilities and Authority

The Director of Housing and Landlord Services, the Private Housing and Accessible Homes managers are responsible for the implementation of this policy.

All staff involved in private housing renewal and the provision of aids and adaptations have responsibility for delivering this policy.

4. Scope

See Appendix B for full schedule of loan and grant products available under this policy.

5. The Policy

The loan fund is available to offer homeowners access to affordable finance to undertake essential repairs and improvements, in accordance with each LA policy.

A financial assessment is undertaken by Lendology to determine whether applicants meet the eligibility criteria to be able to repay the loan.

Various loan products are available, depending on the applicant's financial circumstances and policy criteria, with a fixed interest rate of 4% charged. Loans to support Disabled facilities Grants are offered at 0% interest. All loans are secured against the property. Generally, loans are available, subject to affordability and policy, from £1,000 to £20,000, repayable over a term of one to fifteen years. Other loan products may be available in certain circumstances for clients who are equity rich but cash poor such as interest only loans and interest roll up loans in some cases. Each loan is tailored to the individual's financial circumstances.

If Lendology consider a client is unable to repay a loan or has insufficient equity to secure the loan, the Council has set aside a small budget to provide grants for essential works to enable vulnerable owner-occupied households, to remain safe and well in their homes.

Loans are available for a variety of repair and improvement works including

- undertake repair, improvement or maintenance.

- improve energy efficiency.
- to help bring long term empty properties back into use.
- to help private landlords meet legal housing standards under licensing conditions or for tenant safety
- to compliment disabled facilities, grant work to allow a disabled or older homeowner to live independently in their own home or provide improvements to future proof a home for those with deteriorating medical conditions.

Grant funding is still available locally, funded by central government via Disabled Facilities Grants, to provide home adaptations for disabled people to help them maintain independence in their own homes. The Accessible Homes policy outlines how aids and adaptations will be assessed and delivered.

Some of the owner occupier loans applications are supported by our Home Improvement Agency, currently WE Care Home Improvements who are commissioned by Care and Support, Adults. WE Care Home Improvements can provide full or partial agency services depending on client choice and capabilities.

6. Vulnerability

Where the council is aware that a person to whom this policy applies is vulnerable, it will consider that person's vulnerabilities when applying this policy which may include, but is not limited to, considering whether additional advice and assistance needs to be provided, liaising with agencies involved with the care and/or support of that person (where known). In addition, the person may be referred to agencies and/or council departments who may be able to support or assist that person.

7. Monitoring, review and evaluation

Private Housing Services and Accessible Homes and Lendology provide regular performance monitoring information on the delivery of this policy.

This policy will be reviewed every year or in line with legislative or regulatory changes and to help meet the council's key objectives.

8. Equality and Diversity

This policy will be applied fairly and consistently to all our residents and will not directly or indirectly discriminate against any person or group of people.

The service will act sensitively towards the diverse needs of individuals and communities, and we will take positive action to reduce discrimination and harassment.
