Websites providing education resources for young people

BBC Schools pages

The Schools pages on the BBC website cover all subjects, all ages, lots of games and resources.

Primary Resources

The Primary Resources website covers all subjects at the primary age range.

Education City

The Education City website covers all subjects and is for primary and special schools. Your foster child's school will need to have a licence for home access.

Maths is Fun

The Maths Is Fun website deals with different areas of maths in a fun way. Some free access.

Mathletics

The Mathletics website has maths from KS1 to A level.

My Maths

The My Maths website has maths for primary, secondary, post 16 and special schools. Most Bristol secondary and neighbouring authorities' schools subscribe. The young person has an individual log in. Has structured lessons and recorded homework and booster worksheets.

Nrichmaths

The nrich website has maths for KS1 to 5. Has puzzles, games and ideas.

Oxford Owl

The OxfordOwl website has literacy and maths resources.

SAM Learning

Many schools are signed up to the SAM Learning website which is an online revision programme for young people in Key Stages 2 3 and 4.

If a school is signed up then all young people attending that school will have a log in and password they can use from any computer including at home.

Tell me what I need to know

The Runnymede Trust designed Tell Me What I Need to Know to help parents, particularly those from Black and Minority Ethnic (BME) Refugee, Asylum-seeking

and Traveller communities to support their children's education more confidently and effectively. You can find the Tell me what I need to know pages on the Real Histories website.
