

Welcome to the third Bristol Joint Strategic Needs Assessment (JSNA) Bulletin of 2022/23, our regular update to let you know what new data sections have been recently released, and what's coming up.

Bristol JSNA Health and Wellbeing Profile 2022/23 – Latest updates

This month we are publishing 8 section updates. The JSNA updates are published by theme and then in alphabetical order – see: [JSNA Health and Wellbeing profile](#).

Please do get in touch if you have any comments on the webpages, data or JSNA profile structure - our contact details can be found at the end of the bulletin.

For our July / August edition we are pleased to report the following updated sections:

Healthy Lifestyles:	Alcohol
Life Expectancy:	Healthy Life Expectancy
Long Term Conditions:	Musculoskeletal (MSK) Diabetes Prevalence of Common Long-Term Conditions
Older People:	Falls
Public Feedback:	Public Feedback
Wider Determinants:	Air Quality

If you would like to know more about the JSNA in general and why it's produced please see our web-page [About the Joint Strategic Needs Assessment \(JSNA\)](#)

Other updates:

- Healthwatch Bristol have recently published a report, [“Dignity in hospital care”](#) which collates experiences of care from hospital staff and older patients who have recently had a stay in a Bristol hospital patients and what dignity means to them.

- [Bristol - Key Facts 2022](#) - A summary of major facts and infographics about Bristol, and living in the city, updated in July 2022.
- [Census 2021 \(bristol.gov.uk\)](#) – briefing on the first results from Census 2021 (and new Census Dashboard due there next week)
- [Quality of life in Bristol](#) – now includes the [QoL 2021/22 final report](#) and a new, extended [Quality of Life 2021/22 data dashboard](#)
- Locality Partnership Health Profiles for the three Bristol localities of Inner City & East, North & West and South Bristol have now been published on our [JSNA Data Profile website](#).
