

Notice of proposed tree removal and replacement

Site name: Wells Road/Davids Road

Number of trees: 2

Type of trees: Elm

Date of notice: 13 October 2026

Consultation period: 13 October to 10 November 2026

Reason for removal

Bristol City Council is proposing to remove two elm trees on Wells Road's central reservation by Davids Road to make space for two new bus lanes on Wells Road.

Other design options were considered. However, because of space restraints and design standards, the trees need to be removed.

Replacement of the trees

We would replace the trees with two new trees planted nearby. Possible locations are being considered.
